Transforming Matter A History Of Chemistry From Alchemy To The Buckyball:

Transforming Matter Trevor H. Levere, 2001-08-03 Transforming Matter provides an accessible and clearly written introduction to the history of chemistry telling the story of how the discipline has developed over the years **From Alchemy to Chemistry in Picture and Story** Arthur Greenberg, 2007-03-15 Praise for From Alchemy to Chemistry in Picture and Story The timeline from alchemy to chemistry contains some of the most mystifying ideas and images that humans have ever devised Arthur Greenberg shows us this wonderful world in a unique and highly readable book Dr John Emsley author of The Elements of Murder A History of Poison Art Greenberg takes us through text and lovingly selected images on a magical mystery tour of the chemical universe No matter what page you open there is a chemical story worth telling Dr Roald Hoffmann Nobel Laureate and coauthor of Chemistry Imagined Chemistry has perhaps the most intricate most fascinating and certainly most romantic history of all the sciences Arthur Greenberg's essays delightful learned quirky highly personal and richly illustrated with contemporary drawings many of great rarity and beauty provide a kaleidoscope of intellectual landscapes bringing the experiments the ideas and the human figures of chemistry's past intensely alive Dr Oliver Sacks author of Awakenings From Alchemy to Chemistry in Picture and Story takes you on an illustrated tour of chemistry's fascinating history from its early focus on the spiritual relationship between man and nature to some of today's most cutting edge applications Drawing from rare publications and artwork that span over five centuries the book contains nearly 200 essays and over 350 illustrations including 24 in full color that tell the engaging story of the development of this fundamental science and its connection with human history Join Arthur Greenberg as he combines the best of the best from his previous works as well as several new essays to paint a colorful picture of chemistry's remarkable origins *New Narratives in Eighteenth-Century Chemistry* Lawrence M. Principe, 2007-09-14 The eighteenth century has long been considered critical for the development of modern chemistry yet many crucial features of the period remain largely unknown or unexplored for general accounts often built around Lavoisier have remained quite selective This volume presents new approaches and topics in an attempt to build a richer fuller more complex view of chemical work during the period Themes include late phase alchemy professionalization chemical education and the links and relations between chemistry and pharmacy medicine agriculture and geology **A Cultural History of Chemistry in the Nineteenth Century** Peter J. Ramberg, 2023-12-14 A Cultural History of Chemistry in the Nineteenth Century covers the period from 1815 to 1914 and the birth of modern chemistry The elaboration of atomic theory and new ideas of periodicity structure bonding and equilibrium emerged in tandem with new instruments and practices The chemical industry expanded exponentially fuelled by an increasing demand for steel aluminium dyestuffs pharmaceuticals and consumer goods And the chemical laboratory became established in its two distinct modern settings of the university and industry At the turn of the century the discovery of radioactivity took hold of the public imagination drawing chemistry closer to physics even as it threatened to undermine the whole concept of

atomism The 6 volume set of the Cultural History of Chemistry presents the first comprehensive history from the Bronze Age to today covering all forms and aspects of chemistry and its ever changing social context The themes covered in each volume are theory and concepts practice and experiment laboratories and technology culture and science society and environment trade and industry learning and institutions art and representation Peter J Ramberg is Professor of the History of Science at Truman State University USA Volume 5 in the Cultural History of Chemistry set General Editors Peter J T Morris University College London UK and Alan Rocke Case Western Reserve University USA

A Cultural History of Chemistry in the Eighteenth Century Matthew Daniel Eddy, Ursula Klein, 2023-12-14 A Cultural History of Chemistry in the Eighteenth Century covers the period from 1700 to 1815 Setting the progress of science and technology in its cultural context the volume re examines the changes that many have considered to constitute a chemical revolution Already boasting a laboratory culture open to both manufacturing and commerce the discipline of chemistry now extended into academies and universities Chemists studied myriad materials derived from minerals plants and animals and produced an increasing number of chemical substances such as acids alkalis and gases New textbooks offered opportunities for classifying substances rethinking old theories and elaborating new ones By the end of the period in Europe and across the globe chemistry now embodied the promise of unifying practice and theory The 6 volume set of the Cultural History of Chemistry presents the first comprehensive history from the Bronze Age to today covering all forms and aspects of chemistry and its ever changing social context The themes covered in each volume are theory and concepts practice and experiment laboratories and technology culture and science society and environment trade and industry learning and institutions art and representation Matthew Daniel Eddy is Professor and Chair in the History and Philosophy of Science at Durham University UK Ursula Klein is Senior Research Scholar at the Max Planck Institute for the History of Science Germany Volume 4 in the Cultural History of Chemistry set General Editors Peter J T Morris University College London UK and Alan Rocke Case Western Reserve University USA
