

regard to involvement with liturgical revision. The negative views of Colin Buchanan over the offering terminology of the draft Series 2 communion service gave way to positive initiatives to find an acceptable compromise in Series 3 and the Alternative Services Book 1980. Although some Evangelicals have maintained the older ghetto mentality, the more liberal, the ecumenically minded, and certain charismatics have given the eucharist a central place in Sunday worship, and have found in it a renewed means of grace and communion with the Lord.

Cocksworth is concerned that this new positive approach should be sustained, and Part Three suggests how, without surrendering its Reformed heritage, the Anglican Evangelical tradition can continue to make a positive contribution to the understanding of the eucharist as sacrament, presence and sacrifice. Insights from Rahner, Schillebeeckx and David Power are combined with Barth, Torrance and Heron and Luther, Calvin, Baxter and Wesley to show how this might be done.

This is an informative study which some Anglican Evangelicals will find surprising and disturbing. Some give the impression of not wanting to be reminded of their roots or the breadth of their earlier forebears. For example, one of the Evangelical criticisms of the 1958 Lambeth Report was its concept of the eternal sacrifice of Christ; the idea of pleading the sacrifice of Christ (cf. Book of Common Order!) was regarded as unbiblical and unreformed. Yet, as Cocksworth shows, the tradition from Baxter to Bickersteth quite happily regarded it as legitimate Evangelical terminology. Part of the problem is that, in attempting to be ultra-biblical, it is very easy to become untheological. Cocksworth's study challenges his tradition once more to become theological, and create a rich eucharistic theology. It is itself a distinguished contribution to what that tradition has to offer the Church at large.

Transforming Vision: Imagination and Will in Kierkegaardian Faith. By M. JAMIE FERREIRA. Oxford, Clarendon Press, 1991. Pp. 160. No price.

THERE is a common reading of Kierkegaard which has it that the transition to faith is, for him, a heroic, yet arbitrary, venture of the will, stripped naked of any cognitive or rational element in its leap into the paradox and absurdity of Christian belief. In this scholarly and clear study, M. Jamie Ferreira presents us with a much more subtle and nuanced interpretation, one that draws on a penetrating understanding of Kierkegaard's endeavour dialectically to

Transforming Vision Imagination And Will In Kierkegaardian Faith:

Transforming Vision M. Jamie Ferreira, 1991 The metaphor of a leap of faith is probably the element most widely recognized as a distinctive characteristic of a Kierkegaardian account of the transition to religious faith Both in popular and scholarly circles this leap has usually been understood in terms of an act of will power Challenging such a volitionalist view as well as some current alternatives to it which see instead only an ineffable miracle of grace Ferreira argues that Kierkegaard's striking appreciation of a variety of roles of imagination supports a reconceptualization of the leap or decision in terms of a reorienting shift in perspective an imaginative revisioning Exploring the relation between passion and paradox in several of Kierkegaard's accounts of selfhood and developing an account of transitional choice in which imagination is a constitutive element Ferreira elaborates an understanding of the faith transition in terms of such imaginative activities as suspension synthesis and engagement The analysis of imaginative activity in these ethical and religious transitions has moreover implications which go beyond Kierkegaard scholarship for it bears importantly not only on other conversion accounts but also on the question of transitions to alternative or incommensurable conceptual frameworks in general

Kierkegaard as Religious Thinker David J. Gouwens, 1996-02-08 Using Kierkegaard's later religious writings as well as his earlier philosophical works David Gouwens explores this philosopher's religious and theological thought focusing on human nature Christ and Christian discipleship He helps the reader approach Kierkegaard as someone who both analysed religion and sought to evoke religious dispositions in his readers Gouwens discusses Kierkegaard's main concerns as a religious and specifically Christian thinker and his treatment of religion using the dialectic of becoming Christian and counters the interpretation of his religious thought as privatistic and asocial Gouwens appraises both the edifying discourses and the pseudonymous writings including the particular problems posed by the latter Between foundationalism and irrationalism Kierkegaard's ideas are seen to anticipate the end of modernity while standing at the centre of the Christian tradition

The Kierkegaardian Mind Adam Buben, Eleanor Helms, Patrick Stokes, 2019-05-02 Søren Kierkegaard 1813-1855 remains one of the most enigmatic captivating and elusive thinkers in the history of European thought The Kierkegaardian Mind provides a comprehensive survey of his work not only placing it in its historical context but also exploring its contemporary significance Comprising thirty-eight chapters by a team of international contributors this handbook is divided into eight parts covering the following themes Methodology Ethics Aesthetics Philosophy of Religion and Theology Philosophy of Mind Anthropology Epistemology Politics Essential reading for students and researchers in philosophy Kierkegaard's work is central to the study of political philosophy literature existentialist thought and theology

Kierkegaard's Concept of Faith Merold Westphal, 2014-08-11 In this book renowned philosopher Merold Westphal unpacks the writings of nineteenth-century thinker Søren Kierkegaard on biblical Christian faith and its relation to reason Across five books Fear and Trembling Philosophical Fragments Concluding Unscientific Postscript Sickness Unto Death and Practice in Christianity and three

pseudonyms Kierkegaard sought to articulate a biblical concept of faith by approaching it from a variety of perspectives in relation to one another Westphal offers a careful textual reading of these major discussions to present an overarching analysis of Kierkegaard's conception of the true meaning of biblical faith Though Kierkegaard presents a complex picture of faith through his pseudonyms Westphal argues that his perspective is a faithful and illuminating one making claims that are important for philosophy of religion for theology and most of all for Christian life as it might be lived by faithful people

Upbuilding Discourses in Various Spirits Robert L. Perkins, 2005 Just as Howard V and Edna H Hong's translation of *Upbuilding Discourses in Various Spirits* marked the first appearance of this complete title in English in a single volume this collection of essays is the first to explore the fascinating and powerful compilation of Kierkegaard's writings that clearly initiate the second authorship **BOOK JACKET** Kierkegaard's Mirrors P. Stokes, 2009-11-18 What is it to see the world other people and imagined situations as making personal moral demands of us What is it to experience stories as speaking to us personally and directly Kierkegaard's *Mirrors* explores Kierkegaard's answers to these questions with a new phenomenological interpretation of Kierkegaardian interest Kierkegaard, Aesthetics, and Selfhood Peder Jøthen, 2016-04-22 In the digital world Kierkegaard's thought is valuable in thinking about aesthetics as a component of human development both including but moving beyond the religious context as its primary center of meaning Seeing human formation as interrelated with aesthetics makes art a vital dimension of human existence Contributing to the debate about Kierkegaard's conception of the aesthetic Kierkegaard *Aesthetics and Selfhood* argues that Kierkegaard's primary concern is to provocatively explore how a self becomes Christian with aesthetics being a vital dimension for such self formation At a broader level Peder Jøthen also focuses on the role authority and meaning of aesthetic expression within religious thought generally and Christianity in particular **Kierkegaard's Critique of Christian Nationalism** Stephen Backhouse, 2011-07-07 Christian nationalism refers to the set of ideas in which belief in the development and superiority of one's national group is combined with or underwritten by Christian theology and practice This study examines Kierkegaard's critique of Christian nationalism in relation to political science theories of religious nationalism Living Poetically Sylvia Walsh, 2012-04-30 *Living Poetically* is the first book to focus primarily on Kierkegaard's existential aesthetics as opposed to traditional aesthetic features of his writings such as the use of pseudonyms literary techniques and figures and literary criticism *Living Poetically* traces the development of the concept of the poetic in Kierkegaard's writings as that concept is worked out in an ethical religious perspective in contrast to the aesthetics of early German romanticism and Hegelian idealism Sylvia Walsh seeks to elucidate what it means in Kierkegaard's view to be an authentic poet in the form of a poetic writer and to clarify his own role as a Christian poet and writer as he understood it Walsh shows that in spite of strong criticisms made of the poetic in some of his writings Kierkegaard maintained a fundamentally positive understanding of the poetic as an essential ingredient in ethical and religious forms of life Walsh thus reclaims Kierkegaard as a poetic thinker and

writer from those who would interpret him as an ironic practitioner of an aestheticism devoid of and detached from the ethical religious as well as from those who view him as rejecting the poetic and aesthetic on ethical or religious grounds Viewing contemporary postmodern feminism and deconstruction as advocating a romantic mode of living poetically Walsh concludes with a feminist reading of Kierkegaard that affirms both individuality and relatedness commonalities and differences between the self and others men and women for the fashioning of an authentic mode of living poetically in the present age

Kierkegaard and Levinas Patrick Sheil, 2017-03-02 The Danish Christian existentialist Søren Kierkegaard 1813-1855 and the Jewish Lithuanian born French interpreter of modern phenomenology Emmanuel Levinas 1906-1995 have enabled theology and philosophy to illuminate and confront one another in radical and important ways This book addresses the theological and philosophical thought of both Kierkegaard and Levinas with a focus on the special form that exists in the grammar of many languages for cases of uncertainty possibility hypothesis and for expressions of hope the subjunctive mood As well as presenting arguments and observations about Kierkegaard and Levinas through an analysis of the subjunctive mood Patrick Sheil offers an interesting and accessible way into the thought of these two major European philosophers and he explores a wide range of Kierkegaardian and Levinasian texts throughout
