

REVIEWS AND PRAISE FOR TRANSITION ECONOMIES...

The authors have managed to include the entire, very diverse region of Eastern Europe and the CIS in their analysis. They have done it by using pre-defined categories, but also coming up with their own way of classifying and ranking these countries... The timeliness of their analysis, attempting to classify the transition economies also in terms of how they are coping with the [2008-09 financial] crisis, gives the book extra value.

Carolyn Ann Kadas, University of Belgrade

The text... combines theory-led reasoning with empirical data in an excellent way. The authors highlight the limits of the Varieties of Capitalism approach in explaining the development trajectories in Eastern Europe and the CIS countries and provide convincing alternative explanations. Their critique of the Washington Consensus policies is well argued and supported by empirical data.

Joachim Becker, University of Vienna

The book's strongest feature lies in its political economy approach to transformation in the countries of Central East Europe and the former USSR... Given the highly up-to-date information and statistics that this book provides, I find it to be an equally useful resource for researchers, graduate students and libraries.

Anna M. Yano, Ballou College

Instead of focusing on the 1990s where most of transition took place intensively, the authors take a much longer horizon by linking the transition experience in the 1990s with the most recent developments such as the world financial crisis of 2008. In doing so, the authors provide a highly updated text on economic transition.

Julian Du, City University of Hong Kong

Transition Economies after 2008 Martin Myant, Jan Drahokoupil, 2014-04-07 The economic crisis of 2008 starting from the crisis in banking in the USA in 2008 affected economic and political development in varied ways around the world This edited volume covers the impact and policy responses in Eastern Europe and Russia Taken as a whole the economies of the former state socialist countries frequently still referred to for convenience as transition economies were hit hard by the crisis suffering falls in GDP in 2009 that were deeper than the average around the world However there was considerable variety in the effects on individual countries with a few continuing to grow while some others suffered quite exceptional falls in output Policy responses were also quite diverse and do not obviously fit with the nature and severity of economic factors The more general impacts on political life were also varied In many cases very much the same governments continued in power while in others there were significant changes and signs of a growing instability in party and political structures The articles in this book explore these differences between countries and to set them in a wider international context This book was published as a special issue of Europe Asia Studies

The Political Economy of Russia Neil Robinson, 2012-07-13 This timely book explores Russia's political development since the collapse of the USSR and how inextricably it has been bound up with economic change Tracing the evolution of Russia's political economy leading scholars consider how it may continue to develop going forward They assess the historical legacies of the Soviet period showing how despite policies implemented after the USSR dissolved in 1991 there are ongoing bitter battles over property and state revenues over land and over welfare The book puts these domestic issues in international and comparative perspective by considering Russia's position in the global economy and its growing role as a major energy producer Focusing especially on the nature and future of Russian capitalism the contributors weigh the political problems that confront Russia in its ongoing struggle to modernize and develop its economy Contributions by Andrew Barnes Paul T Christensen Linda J Cook Gerald M Easter Neil Robinson Richard Sakwa and Stephen K Wegren

Diversity of Patchwork Capitalism in Central and Eastern Europe Ryszard Rapacki, 2019-06-10 This book is a comparative study which sheds a new empirical and theoretical light on the nature of post communist capitalism in 11 EU new member countries of Central and Eastern Europe or CEE11 Extending and modifying a

well established conceptual framework for comparative capitalism rooted in new institutional economics and economic sociology it offers a better explanation for transition specific and path dependent factors inherent to systemic transformation Based on a vast dataset the book therefore illuminates the dissimilarities among the institutional architectures in the EU countries Thus the book argues that the evolving capitalism in Central and Eastern Europe exhibits strong symptoms of institutional ambiguity or a patchwork nature which makes it a distinct category from any of the co existing models of Western European capitalism This book will be of key interest to scholars and students of comparative political economy Eastern European politics post communist studies and more broadly to researchers in the fields of economics European politics and the wider social sciences It will also be of significance to journalists policymakers members of international organizations and consultancies with an interest in Central and Eastern Europe and in European integration

Diversity of Capitalism in Central and Eastern Europe Eric Magnin,Nikolay Nenovsky,2022-07-13 This book explores the hypothesis of the emergence of a dependent capitalism in Central and Eastern Europe In a first theoretical part this book presents the main approaches that structure the field of comparative capitalism and then examines this model shaped by the inflow of foreign capital In an original way it proposes to integrate the form of the monetary regime into the dependent capitalism analysis and to extend it to Balkan countries The monetary regime is seen as complementary to the other elements of the institutional configuration of dependent capitalism In the second part the authors adopt a historical and empirical perspective First they demonstrate how dependent capitalism has emerged in Central and Eastern Europe and the Baltic States over the last 30 years as part of the process of socio economic transformation that began in 1990 The crisis of 2008 was an indicator of this dependence on Western capital Secondly they extend the analysis to the Balkan countries and show that dependence is even stronger for them particularly in the monetary area as evidenced by the implementation of currency boards or euroization phenomena This book is of interest to academics and students as well as to business and economic policy makers

The Economic History of Central, East and South-East Europe Matthias Morys,2020-12-29 The collapse of communism in Central East and South East Europe CESEE led to great hopes for the region and for Europe A quarter of a century on the picture is mixed in many CESEE countries the transformation process is incomplete and the economic catch up has taken longer than anticipated The current situation has highlighted the need for a better understanding of the long term political and economic implications of the Central East and South East European historical experience This thematically organised text offers a clear and comprehensive guide to the economic history of CESEE from 1800 to the present day Bringing together authors from both East and West the book also draws on the cutting edge research of a new generation of scholars from the CESEE region Presenting a thoroughly modern overview of the history of the region the text will be invaluable to students of economic history and CESEE area studies

From Triumph to Crisis Hilary Appel,Mitchell A. Orenstein,2018-05-10 The postcommunist countries were amongst the most fervent and committed adopters of neoliberal

economic reforms Not only did they manage to overcome the anticipated domestic opposition to shock therapy and Washington Consensus reforms but many fulfilled the membership requirements of the European Union and even adopted avant garde neoliberal reforms like the flat tax and pension privatization Neoliberalism in the postcommunist countries went farther and lasted longer than expected but why Unlike pre existing theories based on domestic political economic struggles this book focuses on the imperatives of re insertion into the international economy Appel and Orenstein show how countries engaged in competitive signaling enacting reforms in order to attract foreign investment This signaling process explains the endurance and intensification of neoliberal reform in these countries for almost two decades from 1989 2008 and its decline thereafter when inflows of capital into the region suddenly dried up This book will interest students of political economy and Eastern European and Eurasian politics
