Handbook of Transportation and Public Policy Anthony Perl, Rosalie Singerman Ray, Louise Reardon, 2025-01-09 This cutting edge Handbook explores the many ways

in which politics influences transportation policy planning and implementation as well as the effects of transportation on political processes It rigorously analyses the complex interrelation between administration politics and transportation presenting theoretical and empirical insights into the governance approaches required to advance transportation's contribution to social and ecological wellbeing *Sustainable Transportation* Henrik Gudmundsson, Ralph P. Hall, Greg Marsden, Josias Zietsman, 2015-07-03 This textbook provides an introduction to the concept of sustainability in the context of transportation planning management and decision making The book is divided into two parts In the first part indicators and frameworks for measuring sustainable development in the transportation sector are developed In the second the authors analyze actual planning and decision making in transportation agencies in a variety of governance settings This analysis of real world case studies demonstrates the benefits and limitations of current approaches to sustainable development in transportation The book concludes with a discussion on how to make sustainability count in transportation decision making and practice **Transport and Environment** Eran Feitelson, E. T. Verhoef, 2001-01-01 The impact of transport on the environment is a major issue of worldwide concern This important new book presents state of the art contributions on spatial and technological aspects of transport in relation to environmental degradation together with analysis of sustainable transport policy *Moving People* Peter Cox, 2013-07-04 The local and global environmental impacts of transport are more apparent than ever before Moving People provides an attention grabbing introduction to the problems of transport and the development of sustainable alternatives focusing on the often misunderstood issue of personal mobility as opposed to freight Re assessing the value and importance of non motorized transport the author raises questions about mobility in the face of climate change and energy security particularly for the developing world Featuring original case studies from across the globe this book is essential for anyone studying or working in the area of environmental sustainability and transport policy

Transport Matters Angela Hull, 2010-09-13 Addressing the principles of sustainability spatial planning integration governance and accessibility of transport this book focuses on the problem of providing efficient and low energy transport systems which serve the needs of everybody It explores many of the new arguments ideas and perceptions of mobility and accessibility in city regions Looking at evidence from Denmark Sweden The Netherlands Germany and the UK it considers the meaning of the key concepts of sustainable accessibility the spatial planning model and integrated territorial policies

Modeling Spatial and Economic Impacts of Disasters Yasuhide Okuyama, Stephanie E. Chang, 2013-06-29 This volume is dedicated to the memory of Barclay G Jones Professor of City and Regional Planning and Regional Science at Cornell University Over a decade ago Barclay took on a fledgling area of study economic modeling of disasters and nurtured its early development He served as the social science program director at the National Center for Earthquake Engineering Research NCEER a university consortium sponsored by the National Science Foundation and the Federal Emergency Management Agency of the United States In this capacity Barclay shepherded and attracted a number of regional scientists to the study of

disasters He organized a conference held in the ill fated World Trade Center in September 1995 on The Economic Consequences of Earthquakes Preparing for the Unexpected He persistently advocated the importance of social science research in an establishment dominated by less than sympathetic natural scientists and engineers In 1993 Barclay organized the first of a series of sessions on Measuring Regional Economic Effects of Unscheduled Events at the North American Meetings of the Regional Science Association International RSAI This unusual nomenclature brought attention to the challenge that disasters largely unanticipated often sudden and always disorderly pose to the regional science modeling tradition The sessions provided an annual forum for a growing coalition of researchers where previously the literature had been fragmentary scattered and episodic Since Barclay s unexpected passing in 1997 we have continued this effort in his tradition
