Travel Information Manual Tim April 2015:

Sustainable Communities through Digital Transformation Yusuf Arayici, Niraj Thurairajah, Bimal Kumar, 2025-04-29

This book brings together cutting edge exploratory research findings to show how a vision for sustainable communities can be enabled by digital transformation. It attempts to apply existing knowledge about digital transformation and sustainable communities and compare, interpret, diagnose and evaluate a variety of digital solutions to ascertain their suitability for the delivery of a more sustainable built environment. Chapters examine a breadth of issues including how digital transformations could provide digital physical working living environments that anticipate emerging lifestyles. Blend digital engagements into the physical engagements within the built environment. Support business and social activity in physical and online venues. Use advanced information and community oriented technologies for efficient management of urban services. Promote sustainability. Express narratives that celebrate the experience of place and community. Leverage transformation of educational systems. Foster linkages between universities and between universities and businesses. Facilitate working relationships among small and large companies. Foster new processes and arrangements for innovation in the built environment. By comparing the key principles of digital transformation with those of sustainable communities, the contributors seek to justify or discount the applicability of digital change for achieving more sustainable communities. The research presented in this book is essential reading for architecture, urban planning, quantity surveying, building surveying, real estate and construction management professionals and academics.

Driving with strangers Jonathan Purkis, 2022-02-01. At a time of climate crisis, isolation and social breakdown, *Driving with strangers* is a manifesto to alter how we think about our place in the world. Veteran hitchhiker and lifelong aficionado of hitchhiking culture, Purkis journeys through the history of hitchhiking to explore the unique opportunities for cooperation, friendship, sustainability and openness that it represents. Join Purkis on the kerbside in search of Woody Guthrie as he examines the politics of the travelling song, deep on a Russian hitch hiking expedition or considering the politics of travel and risk on the Highway of Tears in British Columbia, Canada. The reader is taken on a panoramic road trip through a century of hitchhiking across different decades, countries and continents. Purkis, a self-styled vagabond sociologist, is the perfect passenger to accompany you on a journey away from isolation, social distancing, closed borders and into a better understanding of why and how strangers can enrich our lives.
