The Vatican Exposed Paul L. Williams, 2009-09-25 Over 50 billion dollars in securities Gold reserves that exceed those of industrialized nations Real estate holdings that equal the total area of many countries Opulent palaces containing the world's greatest art treasures These are some of the riches of the Roman Catholic Church Yet in 1929 the Vatican was destitute Pope Pius XI living in a damaged leaky pigeon infested Lateran Palace could hear rats scurrying through the walls and he worried about how he would pay for even basic repairs to unclog the overburdened sewer lines and update the antiquated heating system How did the Church manage in less than seventy five years such an incredible reversal of fortune The story here told by Church historian Paul L Williams is intriguing shocking and outrageous The turnaround began on February 11 1929 with the signing of the Lateran Treaty between the Vatican and fascist leader Benito Mussolini Through this deal Mussolini gained the support of the staunchly Catholic Italian populace who at the time followed the lead of the Church In return the Church received among other benefits a payment of 90 million sovereign status for the Vatican tax free property rights and guaranteed salaries for all priests throughout the country from the Italian government With the stroke of a pen the pope had solved the Vatican's budgetary woes practically overnight yet he also put a great religious institution in league with some of the darkest forces of the 20th century Based on his years of experience as a consultant for the FBI Williams produces explosive and never before published evidence of the Church's morally questionable financial dealings with sinister organizations over seven decades through today He examines the means by which the Vatican accrued enormous wealth during the Great Depression by investing in Mussolini's government the connection between Nazi gold and the Vatican Bank the vast range of Church holdings in the postwar boom period Paul VI's appointment of Mafia chieftain Michele Sindona as the Vatican banker a billion dollar counterfeit stock fraud uncovered by Interpol and the FBI the Ambrosiano Affair called the greatest financial scandal of the 20th Century by the New York Times the mysterious death of John Paul I profits from an international drug ring operating out of Gdansk Poland and revelations about current dealings For both Catholics and non Catholics this troubling expose of corruption in one of the most revered religious institutions in the world will serve as an urgent call for reform

The Neo-Catholics Betty Clermont, 2010-12-02 Volumes have been written about the role the Religious Right played in achieving its ultimate goal the presidency of George W. Bush But few know the primary and essential role played by Catholics in instituting and directing the Religious Right as the means for the neoconservative takeover of the U.S. government a group the author calls neo Catholics The first neoconservatives Irving Kristol Allan Bloom and Francis Fukuyama were proponents of the philosopher Leo Strauss who considered the ideal state as one ruled by an intellectual elite with religion used to mollify and intimidate the masses into obedience Not only did Catholic leaders have a millennium of experience in propping up monarchs and dictators but also Catholics were the largest denomination in the U.S. Neoconservative Catholics were ready willing and able to implement the American brand of church state unification Christian Nationalism This book examines how hawks and neo conservatives in the Republican Party forged a nexus with powerful right wing Catholics that would change the face of American Catholicism the structuring of social policy in the United States and the American agenda in the world At the start of the 1980s the Church's social justice agenda had been committed to alleviating poverty to demilitarization to affirmative action and to ending capital punishment an agenda antipathetic to the Republican platform By the end of the nineties its justice agenda was marginalized and political action was mobilized around concern for the dying and the unborn Clermont's rigorous and extensively documented research examines how it was done *The Publishers Weekly*, 2003 [The New Encyclopedia of Unbelief](#) Tom Flynn, 2007 A comprehensive reference work on the history beliefs and thinking of America's growing minority those who live without religion It describes and explains various aspects of

Eugenio Pacelli Pope Pius XII is one of the most studied but least understood popes of the twentieth century while his pontificate remains the most turbulent and controversial. Although there is a general consensus that he faced serious problems during his tenure fascist aggression the Second World War the Nazi genocide of the Jews the march of communism and the Cold War there is disagreement on his response to these developments. Applauded by some as an apostle for peace for his attempt to prevent the outbreak of war he has been denounced by others as an advocate of appeasement for this same effort. Praised by both Christians and Jews for his Crusade of Charity during the war he was denounced by many for his silence during the Holocaust. These conflicting interpretations dubbed the Pius Wars are often narrow in focus lack objectivity and have shed more heat than light. Written by one of the foremost historians of Pius XII the present biographical study unlike the greater part of the vast and growing historiography of Pope Pius XII is a balanced and nonreactive account of his life and times. Its focus is not on the pope's silence during the Holocaust though it does address the issue in a historical and objective framework. This is a biography of the man as well as the pope. It probes the roots of his traditionalism and legalism his approach to modernity and reformism in Church and society and the influences behind his policies and actions. This book is the first biography of Eugenio Pacelli to appear in English since the opening of the papers of the pontificate of Pius XI 1922-1939 in which Pacelli served as nuncio to Germany and secretary of state along with the publication of the memories of figures close to Papa Pacelli.

ABOUT THE AUTHOR Frank J Coppa is the first recipient of the Lifetime Distinguished Scholarship Award of the American Catholic Historical Association and professor of history and the director of doctoral studies in modern world history at St John's University. He has published widely in the areas of modern Europe modern Italy and papal history. His more recent works include *The Papacy the Jews and the Holocaust* *Politics and Papacy in the Modern World* *The Policies and Politics of Pope Pius XII* *Controversial Concordats* *The Vatican's Relations with Napoleon Mussolini and Hitler* and the *Encyclopedia of Modern Dictators*.

PRAISE FOR THE BOOK This book adds a great deal to what we currently know about this most written about pope. Frank Coppa introduces a number of principles which need to be discussed by experts and also by biographers of this pope. Most importantly the concepts of papal impartiality and anti-Judaism as related to Pope Pius XII.

Charles R Gallagher S J assistant professor of history Boston College This is a balanced and highly nuanced biography of Eugenio Pacelli that examines the whole life and times of the man. Frank Coppa has examined the considerable publicly available historical record on Pacelli placed the war years and the Holocaust in the broader scope of Pius XII's life and brought much needed attention to the oft-neglected pre-1939 and post-1945 years of this complex enigmatic and intriguing man.

Paul O Shea co-director of the Australian Institute for Holocaust and Genocide Studies Sydney These books approach the wartime pontiff with such a clear mastery of the arguments that both Pius's supporters and his denigrators will find it difficult in the

future to expect any serious student to accept the hoary myths that have clouded or exalted that pontiff's reputation Coppa opens both books with the statement that Pius is the most studied but least understood of modern pontiffs His books will go a long way toward changing that perception *The Catholic Historical Review* A refreshingly balanced *Supermob* Gus Russo, 2006-09-05 Investigative reporter Gus Russo returns with his most explosive book yet the remarkable story of the Supermob a cadre of men who over the course of decades secretly influenced nearly every aspect of American society Presenting startling never before seen revelations about such famous members as Jules Stein Joe Glaser Ronald Reagan Lew Wasserman David Bazelon and John Jacob Factor as well as infamous scrupulously low profile members Russo pulls the lid off of a half century of criminal infiltration into American business politics and society At the heart of it all is Sidney The Fixer Korshak who from the 1940s until his death in the 1990s was not only the most powerful lawyer in the world according to the FBI but the enigmatic player behind countless 20th century power mergers political deals and organized crime chicaneries As the underworld's primary link to the corporate upperworld Korshak's backroom dominance and talent for anonymity will likely never be equaled And as Supermob proves neither will his story *Library Journal*, 2003 **Great Events from History: 1972-1998** Carl Leon Bankston, 2009 The latest edition in the overwhelmingly popular Great Events from History series Modern Scandals examines over 400 of the most important and most publicized scandals throughout the world since the beginning of the twentieth century The essays in this set are 3-5 pages long and follow the same reader friendly format that users have come to expect from the Great Events from History series *Conscience*, 2003 *The Book Review Digest*, 2004 *Choice*, 2003 *Middle East International*, 2004
