Pedagogies Stephanie Jones, James F Woglom, 2017-02-01 This ground breaking book on pedagogy research and philosophy in teacher education expands the imagination of justice oriented education and arts based scholarship Based on a multi year study of Jones use of feminist pedagogies the book seamlessly moves between classroom practice theory and philosophy in a way that will offer something for everyone those who are looking for new ways of doing teacher education those who hope to better understand philosophy and those who seek new ways of doing inquiry and scholarship Demonstrating through pedagogy method and form that we have more power than we think and don't have to repeat what has been handed down to us the creators critique the restrictions of traditional teacher education and academic discourse This critique prompts a move outward into unpredictable spaces of encounter where a maybe world might be lived in education In this way Jones and Woglom don't make the case for a certain kind of pedagogy or scholarly inquiry that might be repeated but rather they invite educators and researchers to take seriously the philosophical ideas of Deleuze Guattari Barad and others who argue that humans are in a constant aesthetic process of becoming with other humans non human life and the material world around them Thus education even teacher education is not about reaching an already known end goal but growing and changing through multiple ways of being and perceiving in the world The authors call this mutant pedagogies and show one ethical path of mutating **Visual and Multimodal Research in Organization and Management Studies** Markus

Höllerer, Theo van Leeuwen, Dennis Jancsary, Renate Meyer, Thomas Hestbaek Andersen, Eero Vaara, 2019-02-21 This volume brings together two hitherto disparate domains of scholarly inquiry organization and management studies on the one hand and the study of visual and multimodal communication on the other Within organization and management studies it has been recognized that organizational reality and communication are becoming increasingly visual and more generally multimodal whether in digital form or otherwise Within multimodality studies it has been noted that many forms of contemporary communication are deeply influenced by organizational and managerial communication as formerly formal and bureaucratic types of communication increasingly adopt promotional language and multimodal document presentation Visual and Multimodal Research in Organization and Management Studies integrates these two domains of research in a way that will benefit both In particular it conceptually and empirically connects recent insights from visual and multimodality studies to ongoing discussions in organization and management theory Throughout the book shows how a visual multimodal lens enriches and extends what we already know about organization organizations and practices of organizing but also how concepts from organization and management studies can be highly productive in further developing insights on visual and

multimodal communication Due to its essentially interdisciplinary objectives the book will prove inspiring for academics and scholars of management the sociology of organizations as well as related disciplines such as applied linguistics and visual studies
