Winning from Within

(Enhanced Edition) Erica Ariel Fox, 2013-09-24 The enhanced digital edition of *Winning from Within* features twelve exclusive video exercises not available in other editions of the book. In each video, negotiations and leadership expert Erica Ariel Fox offers practical tips, techniques, and stories to help you internalize this breakthrough method for creating lasting change in both your professional and your personal life. Whether you run a Fortune 500 company or serve as CEO of your household, negotiating effectively is crucial to leading wisely and living well. Leading and living are a series of constant negotiations. Consider what goes on during your typical week: Can you influence your client to accept your proposal? Will you persuade colleagues to give you the resources you need to finish your project? How will you ask your neighbor to switch carpool days so that you will finally have time to get to the gym? According to conventional wisdom, a win-win outcome is the hallmark of success. However, until now, advice on getting there has overlooked one crucial element. It turns out that the most important negotiations you have are the ones that drive the impact of your leadership and the quality of your life: the ones you have with yourself. What does negotiating with yourself mean? It's what happens when you want to stay at the office but also want to keep your promise to the family to get home in time for dinner. Or when one side of you votes to roll the dice and go for your dream job while another worries about paying the mortgage. It's what you do when one part of you wants to give your relationship every chance to work while another knows that this time it's really over. When you're of more than one mind about what to do, negotiating with yourself is an essential skill. Should you say yes or no, or should you stall for time? Offer an olive branch or lay down the law? Speak your mind or hold your peace? When you know how to win the tug-of-war inside of you, then you can get to yes in lasting and transformational ways. With honesty, humor, and fresh ideas, *Winning from Within* gives you a clear road map for knowing your inner world and a method for sorting yourself out. Whether you're struggling with a difficult customer or arguing with your spouse, by understanding what leadership and negotiation expert Erica Ariel Fox calls your inner negotiators, you'll learn to turn breakdowns into breakthroughs. With the insight and tools to get out of your own way, you'll find new avenues to realizing your dreams. *Business as an Instrument for Societal Change* Sander Tideman, 2017-09-08 *Business as an Instrument for Societal Change* In *Conversation with the Dalai Lama* is the result of two decades of research and dialogue with His Holiness the Dalai Lama and other leaders in business, government, science, and education. Author Sander Tideman, a lawyer and banker who has maintained a friendship with the Dalai Lama over all these years, presents a practical framework and methodology to develop a new kind of leadership, one fit to repurpose the business world and tackle escalating social, economic, and environmental needs. The Dalai Lama rarely speaks directly on the topics of business, leadership, and economics. Yet in the dialogues recounted here, his wisdom combined with key insights from business and public leaders creates a unified shift towards a consciousness of interconnectedness, offering profound insights for practitioners and general readers alike. Tideman unites the scientific worldviews of physics, neuroscience, and economics with the positive psychology of human relationships and ancient spiritual wisdom to formulate practical business leadership.

Negotiation Madness Peter Nelson, 2018-07-01 There have been many books written about negotiation techniques but all of these have been turned on their head by the ability of Donald Trump to make it to the White House Ignoring all precedents and defying even his own party he has opened an era where neither tradition nor precedent remains the order of the day Fake news has become the entertainment watchword in an era where a president can send out his own daily tweets to millions of followers and the world press and no one is able to pre-empt his message or know how to respond In what would be described negotiation madness Trump incites confrontation into intransigent situations opening an American embassy in Jerusalem and provoking a North Korean leader by a silly name which nevertheless still initiates first time discussions between north and south If he doesn't get his wish through Congress he pretends to give up plays the man not the issue going against what all the negotiation books tell you then comes in again to get what he wants At every turn the standards of negotiation need to be rewritten in what has become as much politics as entertainment ego rather than substance and this is what is targeted in Peter Nelson's *Negotiation Madness*

Grassroots Activism of Ancient China Hung-yok Ip, 2022-02-24 This book examines Mohism as a movement in early China focusing on the Mohists' pursuit of power Fashioning themselves as grassroots activists the Mohists hoped to impact the elite by gaining entry in its community and influencing it from within To create a less violent world they deployed strategies of persuasion and negotiation but did not discard counterviolence in their dealings with the ruling class In executing their activism the Mohists produced knowledge that allowed them to hone their nonviolent strategies as well as to mount armed resistance to aggression In addition the Mohists paid significant attention to the issue of personhood constructing a self cultivation tradition unsparing in its demands for overcoming human conditions that would impede their performance as activists This book situates Mohism in the history of nonviolent activism and in that of negotiation and conflict resolution
