Woman And Nature The Roaring Inside Her:

Woman and Nature Susan Griffin, 2016-09-13 In this famously provocative cornerstone of feminist literature Susan Griffin explores the identification of women with the earth both as sustenance for humanity and as victim of male rage Starting from Plato's fateful division of the world into spirit and matter her analysis of how patriarchal Western philosophy and religion have used language and science to bolster their power over both women and nature is brilliant and persuasive coming alive in poetic prose Griffin draws on an astonishing range of sources from timbering manuals to medical texts to Scripture and classical literature in showing how destructive has been the impulse to disembody the human soul and how the long separated might once more be rejoined Poet Adrienne Rich calls *Woman and Nature* perhaps the most extraordinary nonfiction work to have merged from the matrix of contemporary female consciousness a fusion of patriarchal science ecology female history and feminism written by a poet who has created a new form for her vision The book has the impact of a great film or a fresco yet it is intimately personal touching to the quick of woman's experience *This Sacred Earth* Roger S. Gottlieb, 1996 This is the first comprehensive survey of the critical connections between religion nature and the environment It includes writings from sacred texts and a broad spectrum of new eco-theological selections Historical and contemporary selections from key authors and a multicultural range of sources make *This Sacred Earth* an invaluable teaching resource and a unique introduction to the theory and practice of religious environmentalism Ecofeminist Philosophy Karen Warren, 2000-10-11 A philosophical exploration of the nature scope and significance of ecofeminist theory and practice This book presents the key issues concepts and arguments which motivate and sustain ecofeminism from a western philosophical perspective **At Home on this Earth** Lorraine Anderson, Thomas S. Edwards, 2002 The first chronological presentation of U.S. nature writing by key women authors of the last two centuries **So Glorious a Landscape** Chris J. Magoc, 2002 An anthology of period documents that illustrate important facets of Americans changing relationship with nature The Writer on Her Work Janet Sternburg, 2000 Published to high praise groundbreaking a landmark Poets and Writers this was the first anthology to celebrate the diversity of women who write *Queer Environmentality* Robert Azzarello, 2016-04-15 Offering a model for meaningful dialogue between queer studies and environmental studies Robert Azzarello's book traces a queer environmental lineage in American Romantic and post-Romantic literature Azzarello challenges the notion that reading environmental literature is unsatisfying in terms of aesthetics and proposes an understanding of literary environmentalism that is rich in poetic complexity With the term queer environmentality Azzarello points towards a queer sensibility in the history of environmental literature to balance the dominant narrative that reading environmental literature is tantamount to witnessing a spectacular dramatization of heterosexual teleology Azzarello's study treats four key figures in the American literary tradition Henry David Thoreau Herman Melville Willa Cather and Djuna Barnes Each of these writers problematizes conventional notions of the strange

matrix between the human the natural and the sexual They brilliantly demonstrate the ways in which the queer project and the environmental project are always connected or put another way show that questions and politics of human sexuality are always entwined with those associated with the other than human world [Feminist Politics and Human Nature \(Philosophy and Society\)](#) Alison M. The SAGE Handbook of Feminist Theory Mary Evans,Clare Hemmings,Marsha Henry,Hazel Johnstone,Sumi Madhok,Ania Plomien,Sadie Wearing,2014-08-12 At no point in recorded history has there been an absence of intense and heated discussion about the subject of how to conduct relations between women and men This Handbook provides a comprehensive guide to these omnipresent issues and debates mapping the present and future of thinking about feminist theory The chapters gathered here present the state of the art in scholarship in the field covering Epistemology and marginality Literary visual and cultural representations Sexuality Macro and microeconomics of gender Conflict and peace The most important consensus in this volume is that a central organizing tenet of feminism is its willingness to examine the ways in which gender and relations between women and men have been and are organized The authors bring a shared commitment to the critical appraisal of gender relations as well as a recognition that to think theoretically is not to detach concerns from lived experience but to extend the possibilities of understanding With this focus on theory and theorizing about the world in which we live this Handbook asks us across all disciplines and situations to abandon our taken for granted assumptions about the world and interrogate both the origin and the implications of our ideas about gender relations and feminism It is an essential reference work for advanced students and academics not only of feminist theory but of gender and sexuality across the humanities and social sciences
