America arguing that fear of black sexuality has undergirded white supremacy from the start In *White Fright* historian Jane Dailey brilliantly reframes our understanding of the long struggle for African American rights Those fighting against equality

were not motivated only by a sense of innate superiority as is often supposed but also by an intense fear of black sexuality In this urgent investigation Dailey examines how white anxiety about interracial sex and marriage found expression in some of the most contentious episodes of American history since Reconstruction in battles over lynching in the policing of black troops behavior overseas during World War II in the violent outbursts following the Supreme Court s decision in Brown v Board of Education and in the tragic story of Emmett Till The question was finally settled as a legal matter with the Court s definitive 1967 decision in Loving v Virginia which declared interracial marriage a fundamental freedom Placing sex at the center of our civil rights history White Fright offers a bold new take on one of the most confounding threads running through American history
