The Tyranny of Good Intentions Paul Craig Roberts, Lawrence M. Stratton, 2008-03-25 A thousand years of legal protections against tyranny are being stolen right before our eyes Under the guise of good intentions personal liberties as old as the Magna Carta have become casualties in the wars being waged on pollution drugs white collar crime and all of the other real and imagined social ills The result innocent people caught up in a bureaucratic web that destroys lives and livelihoods businesses shuttered because of victimless infractions a justice system that values coerced pleas over the search for truth bullying police agencies empowered to confiscate property without due process A devastating indictment of our current system of justice Milton Friedman In this provocative book Paul Craig Roberts and Lawrence M Stratton show how the law which once shielded us from the government has now become a powerful weapon in the hands of overzealous prosecutors and bureaucrats Lost is the foundation upon which our freedom rest the intricate framework of Constitutional limits that protect our property our liberty and our lives Roberts and Stratton convincingly argue that this abuse of government power doesn't have ideological boundaries Indeed conservatives and liberals alike use prosecutors regulators and courts to chase after their own favorite devils to seek punishment over justice and expediency over freedom The authors present harrowing accounts of people both rich and poor of CEOs and blue collar workers who have fallen victim to the tyranny of good intentions who have lost possessions careers loved ones and sometimes even their lives This book is a sobering wake up call to reclaim that which is rightly ours liberty protected by the rule of law PAVED WITH GOOD INTENTIONS Michael Carter, 2013 Luke is a successful double glazing salesman from Swansea South Wales A fairly ruthless lyer Luke tells customers what they want to hear and they buy He treats them as enemies A barrier between him and his commission One day he goes too far and disgusts even himself with his ruthlessness He wants to change After dabbling with telepathy and visiting the Mind Body Spirit exhibition he decides he wants to become a Healer With absolutely no training and just an arrogant belief in his own abilities a prerequisite to being a successful salesman Luke sets about offering healing to anybody he comes into contact with How can he be sure he is helping How can he be sure he is not helping the wrong people How can he be sure he is not about to do something he will regret more than anything he's done before Despite his arrogance he does want to be a better person He really does want to help His intentions are good But as they say The road to Hell is paved with good intentions He then embarks on a journey to his own personal Hell He must change his beliefs in everything he's known before and gain a glimpse at least of the true meaning of life if he's ever to return Can he learn life's lessons before it's too late and he loses everything **Paved with Good Intentions?** Sallie Yea, 2019-11-05 This book focuses on human trafficking and the anti trafficking movement particularly as it is expressed in Southeast Asia The study is based on ethnographic research of the emerging anti trafficking movement in Singapore and in depth interviews and observations with victims of human trafficking and others subject to labour exploitation in Singapore Research in the book

adds to the significant amount of work documenting human trafficking in Asia by offering a critical academic perspective on the rise of the anti trafficking movement Readers will gain an understanding of how anti trafficking operates as a new social movement and state practice and how anti trafficking often sits at odds with the experiences of trafficked and exploited persons themselves

Good Intentions Charles North, Robert Smietana, 2008-09-01 We often struggle to answer the question What is the right thing to do here Good Intentions suggests that it is possible to do good in economic matters if we begin with the right assumptions and begins to ask the right questions Is greed ever good How can we give poor kids a million bucks How did Ben and Jerry get so rich Is capitalism ruining the environment Do immigrants take American jobs Our actions can produce outcomes that reflect what we value

More Than Good Intentions Dean Karlan, Jacob Appel, 2011-04-14 A leading economist and researcher report from the front lines of a revolution in solving the world s most persistent problem When it comes to global poverty people are passionate and polarized At one extreme We just need to invest more resources At the other We ve thrown billions down a sinkhole over the last fifty years and accomplished almost nothing Dean Karlan and Jacob Appel present an entirely new approach that blazes an optimistic and realistic trail between these two extremes In this pioneering book Karlan and Appel combine behavioral economics with worldwide field research They take readers with them into villages across Africa India South America and the Philippines where economic theory collides with real life They show how small changes in banking insurance health care and other development initiatives that take into account human irrationality can drastically improve the well being of poor people everywhere We in the developed world have found ways to make our own lives profoundly better We use new tools to spend smarter save more eat better and lead lives more like the ones we imagine These tools can do the same for the impoverished Karlan and Appel s research and those of some close colleagues show exactly how In America alone individual donors contribute over two hundred billion to charity annually three times as much as corporations foundations and bequests combined This book provides a new way to understand what really works to reduce poverty in so doing it reveals how to better invest those billions and begin transforming the well being of the world

the treatment of Prisoners of War by the two belligerents and the effects of Fascist Italy's massive use of poison gas against the Ethiopians. He shows how Mussolini and his ruthless regime throughout the seven month war manipulated the International Committee of the Red Cross (ICRC), the lead organization of the Red Cross in times of war, helped by the surprising political naivete of its board. During this war the ICRC redefined its role in a debate which is fascinating not least because of its relevance to current events about the nature of humanitarian action. The organization decided to concern itself exclusively with matters falling under the Geneva Conventions and to give priority to bringing relief over expressing protest. It was a decision that should have far reaching consequences particularly for the period of World War II and the fate of Jews in Nazi concentration camps.

The Death of an American Jewish Community: A Tragedy of Good Intentions Hillel Levine, 2019-08-17 Written by a sociologist and a journalist, *The Death of an American Jewish Community: A Tragedy of Good Intentions* recounts the death of a Boston community once home to 90,000 Jews residing among African Americans and white ethnics. The frightening personal testimonies and blatant evidence of manipulated housing prices illustrate how inadequate government regulation of banks can contribute to ethnic conflict and lives destroyed. There were no winners; the authors warn. Hillel Levine and Lawrence Harmon believe that their findings may be true for American cities in general. Had we learned from what went wrong in Boston blockbusting by a group of banks, federal programs promoting mortgages to people unable to afford them, real estate brokers seeking quick profits, perhaps the 2008 nationwide real estate meltdown could have been anticipated. The lessons from this book are essential for students of ethnic relations and urban affairs. This candid, disturbing and highly readable book recounts how Boston's working class Jewish neighborhoods were transformed into economically devastated black ghettos. The New Yorker Bankers and real estate brokers still shape the dynamics of daily life in our fragile urban neighborhoods. Levine and Harmon movingly capture the human side of this often destructive process in their story of redlining and blockbusting in Boston during the 1960s. But their book is more than history. It is a lesson about how to understand and improve our cities and neighborhoods today and in the future. Raymond L. Flynn, Mayor of Boston, President, U.S. Conference of Mayors. Levine and Harmon are sympathetic to the goals of racial integration but are indignant over the brutality and unfairness that accompanied these orchestrations. Bankers and politicians are indicted here by elaborate court evidence and by supplementary research cited by the authors who use their insiders' passion. Harmon was born and raised in Dorchester and professional expertise to forever preserve the corned beef flavor of old Blue Hill Avenue. As much an elegiac memory book of old Jewish Boston as a searing indictment against her killers. Kirkus Reviews. Combines the rigor of good scholarship with the obsessive curiosity of good journalism. J. Anthony Lukas, Author of *Common Ground*. What keeps a community alive

What are the social and historical forces that shape or stifle its aspirations When does a community soar and when does it yield to resignation These and other questions take on an urgency of their own in Hillel Levine and Lawrence Harmon's perceptive brilliant and disturbing inquiry Elie Wiesel University Professor and Andrew W Mellon Professor in the Humanities Boston University Levine and Harmon have written a prophetic indictment of the real estate speculation and elite indifference that along with black crimes destroyed Boston's most vibrant Jewish neighborhoods Have the courage to take their terrible journey you will not return unchanged Jim Sleeper Author of *The Closest of Strangers* Liberalism and the Politics of Race in New York This engagingly written and brilliantly illuminating portrait of the destruction of a vibrant Jewish community radically revises our understanding of the process of neighborhood change The authors also break new ground in portraying the critical role of social class in American life and the powerful if unconscious class bias of Jewish communal leaders Charles E Silberman Author of *A Certain People* American Jews and Their Lives Today **Despite the Best**

Intentions Amanda E. Lewis, John B. Diamond, 2024 In this updated second edition Amanda E Lewis and John B Diamond build on their powerful and illuminating study of Riverview to show how the racial achievement gap continues to afflict American schools sixty years after the formal dismantling of segregation The new edition includes new chapters that highlight what has changed and what remains the same at Riverview and explore how the lessons from the book can inform school change efforts **The Best Intentions** Institute of Medicine, Committee on Unintended Pregnancy, 1995-07-02 Experts estimate that nearly 60 percent of all U S pregnancies and 81 percent of pregnancies among adolescents are unintended Yet the topic of preventing these unintended pregnancies has long been treated gingerly because of personal sensitivities and public controversies especially the angry debate over abortion Additionally child welfare advocates long have overlooked the connection between pregnancy planning and the improved well being of families and communities that results when children are wanted Now current issues health care and welfare reform and the new international focus on population are drawing attention to the consequences of unintended pregnancy In this climate *The Best Intentions* offers a timely exploration of family planning issues from a distinguished panel of experts This committee sheds much needed light on the questions and controversies surrounding unintended pregnancy The book offers specific recommendations to put the United States on par with other developed nations in terms of contraceptive attitudes and policies and it considers the effectiveness of over 20 pregnancy prevention programs *The Best Intentions* explores problematic definitions unintended versus unwanted versus mistimed and presents data on pregnancy rates and trends The book also summarizes the health and social consequences of unintended pregnancies for both men and women and for the children they bear Why does unintended pregnancy occur In discussions of reasons behind the rates the book examines Americans' ambivalence about sexuality and the many other social cultural religious and economic factors that affect our approach to contraception The committee explores the complicated web of peer pressure life aspirations and notions of romance that shape an individual's decisions

about sex contraception and pregnancy And the book looks at such practical issues as the attitudes of doctors toward birth control and the place of contraception in both health insurance and managed care The Best Intentions offers frank discussion synthesis of data and policy recommendations on one of today s most sensitive social topics This book will be important to policymakers health and social service personnel foundation executives opinion leaders researchers and concerned individuals
