

WOMEN & ADDICTION

"The once-neglected field of research in addiction and its treatment in women has flourished in the past 20 years, making this book a 'must read' for clinicians. Brady, Back, and Greenfield are leaders in research, clinical practice, and teaching. Their book is the definitive work on the subject, and the most important new volume in addiction psychiatry in recent years."

—Richard J. Frances, MD,
Clinical Professor of Psychiatry,
New York University Medical School

"An exceptional contribution. The breadth and depth of this book are impressive, with coverage of neurobiology, psychosocial models, epidemiology, and much more. The gender gap in the substance abuse literature has long been an issue, and this comprehensive work marks a leap forward. Readers will find much here to challenge old ideas and spark new ones. The 'Key Points' section in each chapter is especially helpful for those who want to quickly learn the gist of the science. Bravo to the editors and contributors for this truly fine work."

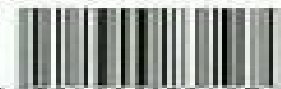

—Lisa M. Najavits, PhD,
Boston University School of Medicine,
Harvard Medical School, and National Center for PTSD,
Boston VA Medical Center

"Finally, a synthesis of research advances on addiction and women, and in a single volume! Scholarly yet easy to read, and written by leading researchers in the field, this is a perfect addition to the bookshelf of anyone interested in addictions. It offers comprehensive, current, and relevant coverage of such issues as hormones, pregnancy, co-occurring psychiatric disorders, and women's unique treatment needs. I highly recommend this book to a broad audience, including treatment professionals, students, basic scientists, and policymakers."

—Carrie Randall, PhD,
Distinguished University Professor,
Department of Psychiatry and Behavioral Sciences,
and Director, Charleston Alcohol Research Center,
Medical University of South Carolina
