Race and Education in New Orleans Walter Stern, 2018-05-04 Surveying the two centuries that preceded Jim Crow s demise Race and Education in New Orleans traces the course of the city s education system from the colonial period to the start of school desegregation in 1960 This timely historical analysis reveals that public schools in New Orleans both suffered from and maintained the racial stratification that characterized urban areas for much of the twentieth century Walter C Stern begins his account with the mid eighteenth century kidnapping and enslavement of Marie Justine Sirnir who eventually secured her freedom and played a major role in the development of free black education in the Crescent City As Sirnir s story and legacy illustrate schools such as the one she envisioned were central to the black antebellum understanding of race citizenship and urban development Black communities fought tirelessly to gain better access to education which gave rise to new strategies by white civilians and officials who worked to maintain and strengthen the racial status quo even as they conceded to demands from the black community for expanded educational opportunities The friction between black and white New Orleanians continued throughout the nineteenth century and well into the twentieth when conflicts over land and resources sharply intensified Stern argues that the post Reconstruction reorganization of the city into distinct black and white enclaves marked a new phase in the evolution of racial disparity segregated schools gave rise to segregated communities which in turn created structural inequality in housing that impeded desegregation s capacity to promote racial justice By taking a long view of the interplay between education race and urban change Stern underscores the fluidity of race as a social construct and the extent to which the Jim Crow system evolved through a dynamic though often improvisational process A vital and accessible history Race and Education in New Orleans provides a comprehensive look at the ways the New Orleans school system shaped the city s racial and urban landscapes **University of New Orleans (UNO).**

Louisiana. Office of State Inspector General, 1989 **The Faubourg Marigny of New Orleans** Scott S. Ellis, 2018-10-03 Leaving the crowded tourist driven French Quarter by crossing Esplanade Avenue visitors and residents entering the Faubourg Marigny travel through rows of vibrantly colored Greek revival and Creole style homes For decades this stunning

architectural display marked an entry into a more authentic New Orleans In the first complete history of this celebrated neighborhood Scott S Ellis chronicles the incomparable vitality of life in the Marigny describes its architectural and social evolution across two centuries and shows how many of New Orleans s most dramatic events unfolded in this eclectic suburb Founded in 1805 the Faubourg Marigny benefited from waves of refugees and immigrants settling on its borders migr s from Saint Domingue Germany Ireland and Italy in addition to a large community of the city s antebellum free people of color would come to call Marigny home and contribute to its rich legacy Shaped as well by epidemics and political upheaval the young enclave hosted a post Civil War influx of newly freed slaves seeking affordable housing and suffered grievous losses after deadly outbreaks of yellow fever In the twentieth century the district grew into a working class neighborhood of creolized residents that eventually gave way to a burgeoning gay community which in turn led to an era of supergentrification following Hurricane Katrina Now as with many historic communities in the heart of a growing metropolis tensions between tradition and revitalization informality and regulation diversity and limited access contour the Marigny into an ever more kaleidoscopic picture of both past and present Equally informative and entertaining this nuanced history reinforces the cultural value of the Marigny and the importance of preserving this alluring neighborhood

Feeding New Orleans Jeanne K. Firth,2023-11-15 After Hurricane Katrina in 2005 many high profile chefs in New Orleans pledged to help their city rebound from the flooding Several formed their own charitable organizations including the John Besh Foundation to help revitalize the region and its restaurant scene A year and a half after the disaster when the total number of open restaurants eclipsed the pre Katrina count it was embraced as a sign that the city itself had survived and these chefs arguably became the de facto heroes of the city s recovery Meanwhile food justice organizations tried to tap into the city s legendary food culture to fundraise marketing high end dining events that centered these celebrity chefs Jeanne K Firth documents the growth of celebrity humanitarianism viewing the phenomenon through the lens of feminist ethnography to understand how elite philanthropy is raced classed and gendered Firth finds that cultures of sexism in the restaurant industry also infuse chef led philanthropic initiatives As she examines this particular flavor of elite celebrity based philanthropy Firth illuminates the troubled relationships between consumerism food justice movements and public private partnerships in development and humanitarian aid

Cooperatives in New Orleans Anne Gessler,2020-06-04 Cooperatives have been central to the development of New Orleans Anne Gessler asserts that local cooperatives have reshaped its built environment by changing where people interact and with whom helping them collapse

social hierarchies and envision new political systems Gessler tracks many neighborhood cooperatives spanning from the 1890s to the present whose alliances with union consumer and social justice activists animated successive generations of regional networks and stimulated urban growth in New Orleans Studying alternative forms of social organization within the city's multiple integrated spaces women people of color and laborers blended neighborhood based African Caribbean and European communal activism with international cooperative principles to democratize exploitative systems of consumption production and exchange From utopian socialist workers unions and Rochdale grocery stores to black liberationist theater collectives and community gardens these cooperative entities integrated marginalized residents into democratic governance while equally distributing profits among members Besides economic development neighborhood cooperatives participated in heady debates over urban land use applying egalitarian cooperative principles to modernize New Orleans's crumbling infrastructure monopolistic food distribution systems and spotty welfare programs As Gessler indicates cooperative activists deployed street level subsistence tactics to mobilize continual waves of ordinary people seizing control over mainstream economic and political institutions

Afro-Catholic Festivals in the Americas Cécile Fromont, 2019-04-24 This volume demonstrates how from the beginning of the Atlantic slave trade enslaved and free Africans in the Americas used Catholicism and Christian derived celebrations as spaces for autonomous cultural expression social organization and political empowerment Their appropriation of Catholic based celebrations calls into question the long held idea that Africans and their descendants in the diaspora either resignedly accepted Christianity or else transformed its religious rituals into syncretic objects of stealthy resistance In cities and on plantations throughout the Americas men and women of African birth or descent staged mock battles against heathens elected Christian queens and kings with great pageantry and gathered in festive rituals to express their devotion to saints Many of these traditions endure in the twenty first century The contributors to this volume draw connections between these Afro Catholic festivals observed from North America to South America and the Caribbean and their precedents in the early modern kingdom of Kongo one of the main regions of origin of men and women enslaved in the New World This transatlantic perspective offers a useful counterpoint to the Yoruba focus prevailing in studies of African diasporic religions and reveals how Kongo infused Catholicism constituted a site for the formation of black Atlantic tradition Afro Catholic Festivals in the Americas complicates the notion of Christianity as a European tool of domination and enhances our comprehension of the formation and trajectory of black religious culture on the American continent It will be of great interest to scholars of African diaspora religion Christianity and performance In addition to the editor the contributors
