Unsa Applection Forms For 2015:

Curriculum Development and Online Instruction for the 21st Century Fudge, Tamara Phillips, Ferebee, Susan Shepherd, 2021-06-25 The world of education has undergone major changes within the last year that have pushed online instruction to the forefront of learning Thanks to the COVID 19 pandemic online learning has become paramount to the continued and uninterrupted teaching of students and has forced students and teachers alike to adjust to an online learning environment Though some have already returned to the traditional classroom or plan to very soon others have begun to appreciate the value of online education initiatives that had previously been discussed but never acted upon as they have been in the past year With plenty of positive and negative aspects online learning is a complex issue with numerous factors to consider It is an issue that must be studied and examined in order to improve in the future Curriculum Development and Online Instruction for the 21st Century examines the issues and difficulties of online teaching and learning as well as potential solutions and best practices This book includes an examination on the value of teaching fully via the internet as well as the challenges inherent in the training of teachers to teach in online environments While addressing key elements of remote learning such as keeping student data safe as well as methods in which to engage students this book covers topics that include assessment tools teaching deaf students web technology and standardized curricula Ideal for K 12 teachers college faculty curriculum developers instructional designers educational software developers administrators academicians researchers and students this book provides a thorough overview of online education and the benefits and issues that accompany it *Transforming Higher Education Through Universal Design for Learning* Seán Bracken, Katie Novak, 2019-02-21 Providing insight into the background theory and practical applications of Universal Design for Learning UDL *Transforming Higher Education through Universal Design for Learning An International Perspective* examines and shares best practice in UDL implementation worldwide to provide strategies for strengthening student accessibility engagement and learning outcomes through the development of flexible learning environments Drawing upon insightful research based contributions from educators and student service specialists in Australia Belgium Brazil Canada Ireland Israel Norway South Africa Spain the UK and all across the USA this book considers diversity in the form of disability minority ethnic groups gender identities first generation university students and varying socio economic backgrounds brings together key thinkers and actors in the field of UDL and expertly maps its practices to the higher educational domain explores the multiple means of representation expression and engagement that combine to create a successful UDL framework Each chapter not only provides a different perspective of how UDL has helped meet the needs of all students to ensure that education is accessible culturally responsive and socially just but also considers how this can then be implemented into higher education environments the world over This book is a crucial read for those who want to make a positive difference in higher education provision and outcomes *ECIME2015-9th European Conference on IS Management and Evaluation* Dr

Elias Pimenidis and Dr Mohammed Odeh, 2015-09-07 The 9th European Conference on Information Management and Evaluation ECIME is being hosted this year by the University of the West of England Bristol UK on the 21-22 September 2015. The Conference Chair is Dr Elias Pimenidis and the Programme Chair is Dr Mohammed Odeh, both from the host University. ECIME provides an opportunity for individuals researching and working in the broad field of information systems management, including IT evaluation, to come together to exchange ideas and discuss current research in the field. This has developed into a particularly important forum for the present era where the modern challenges of managing information and evaluating the effectiveness of related technologies are constantly evolving in the world of Big Data and Cloud Computing. We hope that this year's conference will provide you with plenty of opportunities to share your expertise with colleagues from around the world. The keynote speakers for the Conference are Professor Haris Mouratidis from the School of Computing Engineering and Mathematics, University of Brighton, UK, who will address the topic 'Rethinking Information Systems Security', Dr Mohammed Odeh from the University of the West of England, Bristol, UK, and Dr Mario Kossmann from Airbus, UK, who will talk about 'The Significance of Information Systems Management and Evaluation in the Aerospace Industry'. ECIME 2015 received an initial submission of 55 abstracts. After the double-blind peer review process, 28 academic research papers, 5 PhD research papers, 1 Masters research paper, and 3 Work in Progress papers have been accepted for these Conference Proceedings. These papers represent research from around the world, including Austria, Botswana, Cyprus, Czech Republic, Ireland, Japan, Kuwait, New Zealand, Norway, Poland, Portugal, Slovakia, Russia, South Africa, South Korea, Sweden, The Netherlands, UK, and the USA.

Leadership and Personnel Management: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2016-02-17 Strong leaders are essential to the structure of organizations across all industries. ICEL 2017 - Proceedings of the 12th International Conference on e-Learning Laurie O. Campbell, Richard Hartshorn, 2017

Circular Economy for Buildings and Infrastructure Jian Zuo, Liyin Shen, Ruidong Chang, 2024-05-03 This edited volume covers theoretical and practical aspects of circular economy in building development, offering chapters dealing with topics such as material design, affordability of housing, development, waste management, and recycling, smart metering, and more. A particular focus is placed on various stakeholders' points of view. The book's chapters are co-developed and contributed by multidisciplinary teams, including both

academics and industry practitioners The case study oriented approach taken here helps to facilitate the reader s understanding of how building sustainability can be achieved in the context of circular economy The building industry has significant environmental social and economic impacts As one of the biggest energy consumers and carbon emitters building sustainability has attracted wide attention globally Building projects and their associated activities consume a large amount of energy natural resources and water while producing a large proportion of wastes throughout their lifecycles The traditional linear approach of make use and dispose has been heavily criticized whilst the circular approach has gained momentum Indeed circular economy has emerged as one of key principles to manage sustainability related issues by means of focusing on the circularity of resources as well as the cost implications

Metal Oxide-Based Heterostructures Naveen Kumar, Bernabé Marí Soucase, 2022-11-13 Metal Oxide Based Heterostructures Fabrication and Applications provides information on synthesis strategies structural and hierarchical features morphological characteristics of metal oxide based heterostructures and their diverse applications This book begins with an introduction to the various multidimensional heterostructures synthesis aspects and techniques used to control the formation of heterostructures Then the impact of synthesis routes on the formation of mixed metal oxide heterostructures and their properties are analyzed The effect of nonmetal doping metal doping and composites of metal oxide heterostructures on the properties of heterostructures is also addressed and that also includes opportunities for optimization of the material s performance for specific applications Special attention is given to the surface characteristics of the metal oxide heterostructures and their impact on the material s performance and the applications of metal oxide heterostructures in various fields such as environmental remediation sensing organic catalysis photovoltaics light emitting materials and hydrogen production Introduces key principles for metal oxide heterostructures their properties key characteristics and synthesis routes Emphasizes the relationship between synthesis strategies and material performance including optimization strategies such as tailoring the material s surface characteristics or structure Discusses metal oxide heterostructures and their application in lighting and displays energy environment and sensing

Urban Water Governance in Postcolonial Zimbabwe Abraham R. Matamanda, Tazviona R. Gambe, Johannes I. Bhanye, Tafadzwa C. Maramura, Oratilwe Annastacia Khoza, 2025-09-04 This book focuses on urban water supply and governance in the Global South using urban Zimbabwe as a case study to provide insights and perspectives into the realities of the water governance Applying a resilience and sustainability perspective we argue that fragmentation of responsibilities between various institutions the difficulty of coordination at various levels and the politics centered on water supply constrain effective water governance in Zimbabwe This has resulted in a downward spiral in urban water services in Zimbabwe s urban centers Additionally the innovative nature of this study is to draw from an often neglected dimension in urban water governance which is the political ecology which brings into perspective the varying interests associated with environmental contests and conflicts that influence water allocation and sharing among urban areas by the public sector

Therefore this book dwells on understanding the politics economic and ecology of water governance through an interdisciplinary lens This analysis is critical for this study because Zimbabwe s current state of obsolete water infrastructure has also had a negative impact on the supply of high quality portable water services to the public in urban areas This book will be a critical read for academic and professionals in the fields of urban geographers planners sociologists and water experts It will also be useful for undergraduate and postgraduate students from Geography Urban and regional Planning Political Science Development Studies and Economics Disrupting Shameful Legacies Claudia Mitchell, Relebohile Moletsane, 2018-08-14 Much has been written in Canada and South Africa about sexual violence in the context of colonial legacies particularly for Indigenous girls and young women While both countries have attempted to deal with the past through Truth and Reconciliation Commissions and Canada has embarked upon its National Inquiry on Missing and Murdered Indigenous Women and Girls there remains a great deal left to do Across the two countries history legislation and the lived experiences of young people and especially girls and young women point to a deeply rooted situation of marginalization Violence on girls and women s bodies also reflects violence on the land and especially issues of dispossession What approaches and methods would make it possible for girls and young women as knowers and actors especially those who are the most marginalized to influence social policy and social change in the context of sexual violence Taken as a whole the chapters in *Disrupting Shameful Legacies Girls and Young Women Speaking Back through the Arts to Address Sexual Violence* which come out of a transnational study on sexual violence suggest a new legacy one that is based on methodologies that seek to disrupt colonial legacies by privileging speaking up and speaking back through the arts and visual practice to challenge the situation of sexual violence At the same time the fact that so many of the authors of the various chapters are themselves Indigenous young people from either Canada or South Africa also suggests a new legacy of leadership for change

Transforming Teaching and Learning Experiences for Helping Professions in Higher Education , 2023-02-27 Higher education has transformed and continues to transform in this century because of decolonizing the curriculum and the COVID 19 pandemic which have added an indelible mark to the methodology of teaching and learning Learning spaces have become open to more people through privatization massification e learning platforms and internationally mobile academics allowing individuals from diverse backgrounds to enter the academic and helping professions space Educators need to reskill repurpose redesign and reimagine for a world that is rapidly evolving New ways of teaching need to consider nuances of decolonization of the curriculum deep understanding of subjects transformative ways of imparting knowledge and technology enhanced learning needs to be embraced Thus the teaching and learning spaces in developed and developing environments move beyond the classroom to prepare 21st century citizens to embrace life long learning Furthermore the content as well as processes involved in teaching and learning must be explored thoughtfully that includes the perspectives of a more inclusive wave of educators and students Thus this book has implications for a global scholarship specifically during disruptive times

in Higher Education It is hoped that the book stimulates reflections so that the reader draws inspiration to find contextual relevance that extends into the real world **Educational Access and Excellence** Tapas R. Dash, Manaranjan Behera, 2018-01-30 The Association of Southeast Asian Institutions of Higher Learning ASAIHL has been playing an important role in educational development to promote innovative teaching research and cooperation among institutions of higher learning Build Bright University BBU Cambodia had organized the 2015 ASAIHL International Conference during 2-4 December at Siem Reap The main theme of the conference was Educational Access and Excellence The conference covered three sub themes namely i cross border higher education in global context ii excellence in education through provision of technology effective teaching and research and iii student learning outcomes Delegates from France UK Japan Singapore Hong Kong India Thailand Malaysia Philippines Vietnam Taiwan East Timor Cambodia and others had participated in the conference Urban Development in Asia and Africa Yuji Murayama, Courage Kamusoko, Akio Yamashita, Ronald C. Estoque, 2017-03-29 This book examines the urban growth trends and patterns of various rapidly growing metropolitan regions in developing Asian and African nations from the perspective of geography State of the art geospatial tools and techniques including geographic information system science and remote sensing were used to facilitate the analysis In addition to the empirical results the methodological approaches employed and discussed in this book showcase the potential of geospatial analysis e g land change modeling for improving our understanding of the trends and patterns of urban growth in Asia and Africa Furthermore given the complexity of the urban growth process across the world issues raised in this book will contribute to the improvement of future geospatial analysis of urban growth in the developing regions This book is written for researchers academicians practitioners and graduate students The inclusion of the origin and brief history of each of the selected metropolitan regions including the analysis of their urban primacy spatiotemporal patterns of urban land use changes driving forces of urban development and implications for future sustainable development makes the book an important reference for various related studies ECSM 2017 4th European Conference on Social Media Academic Conferences and Publishing Limited, 2017-07-03 **Sustainable Development in Africa** Walter Leal Filho, Rudi Pretorius, Luiza Olim de Sousa, 2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non formal education Sustainable development is very important to Africa but there is a paucity of publication which documents and promotes experiences from African countries Due to their complexity the interrelations between social economic and political factors related to sustainable development especially at universities need to be better understood There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges It is against this background that this book has been produced It is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and private companies undertaking research and or executing projects focusing on sustainability

from across Africa As African nations strive to pursue the UN Sustainable Development Goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies

Data Curation and Information Systems Design from Australasia Julie Nichols, Bharat Mehra, 2024-01-31 The need for decolonizing mismanagement practices in galleries libraries archives and museums of First Nations peoples materials and knowledge has been widely recognised Authors from Indigenous and non Indigenous backgrounds powerfully challenge entrenched assumptions of knowledge capture and dissemination of the western academy

Intimate Partner Violence, Risk and Security Kate Fitz-Gibbon, Sandra Walklate, Jude McCulloch, Jane Maree Maher, 2018-06-14 This edited collection addresses intimate partner violence risk and security as global issues Although intimate partner violence risk and security are intimately connected they are rarely considered in tandem in the context of global security Yet intimate partner violence causes widespread physical sexual and or psychological harm It is the most common type of violence against women internationally and is estimated to affect 30 per cent of women worldwide Intimate partner violence has received significant attention in recent years animating political debate policy and law reform as well as scholarly attention In bringing together a range of international experts this edited collection challenges status quo understandings of risk and questions how we can reposition the risk of IPV and particularly the risk of IPH as a critical site of global and national security It brings together contributions from a range of disciplines and international jurisdictions including from Australia and New Zealand United Kingdom Europe United States North America Brazil and South Africa The contributions here urge us to think about perpetrators in more nuanced and sophisticated ways with chapters pointing to the structural and social factors that facilitate and sustain violence against women and IPV Contributors point out that states not only exacerbate the structural conditions producing the risks of violence but directly coerce and control women as both citizens and non citizens States too should be understood as collaborators and facilitators of intimate partner violence Effective action against intimate partner violence requires sustained responses at the global state and local levels to end gender inequality Critical to this end are environmental issues poverty and the divisions often along race and ethnic lines underpinning other dimensions of social and economic inequality
