Unwrapping Ancient Egypt Christina Riggs, 2014-06-05 This study unwraps ancient Egyptian wrapping rites and rituals from mummification to desecration to shed new light on Egyptian society and culture **Egyptian Archaeology and the Twenty-First Century Museum** Alice Stevenson, 2022-09-08 This Element addresses the cultural production of ancient Egypt in the museum as a mixture of multiple pasts and presents that cohere around collections their artefacts documentation storage research and display Its four sections examine how ideas about the past are formed by museum assemblages how their histories of acquisition and documentation shape interpretation the range of materials that comprise them the influence of their geographical framing and the moments of remaking that might be possible Throughout the importance of critical approaches to interpretation is underscored reasserting the museum as a site of active research and experiment rather than only exhibitionary product or communicative media It argues for a multi directional approach to museum work that seeks to reveal the inter relations of collection histories and which has implications not just for museum representation and documentation but also for archaeological practice more broadly *Beyond Egyptomania* Miguel John Versluys, 2020-06-08 The material and intellectual presence of Egypt is at the heart of Western culture religion and art from Antiquity to the present This volume aims to provide a long term and interdisciplinary perspective on Egypt and its mnemohistory taking theories on objects and their agency as its main point of departure The central questions the book addresses are why from the first millennium BC onwards things and concepts Egyptian are to be found in such a great variety of places throughout European history and how we can account for their enduring impact over time By taking a radically object oriented perspective on this question this book is also a major contribution to current debates on the agency of artefacts across archaeology anthropology and art history *The Routledge Handbook of Museums, Heritage, and Death* Trish Biers, Katie Stringer Clary, 2023-07-26 This book provides a comprehensive examination of death dying and human remains in museums and heritage sites around the world Presenting a diverse range of contributions from scholars practitioners and artists the book reminds us that death and the dead body are omnipresent in museum and heritage spaces Chapters appraise collection practices and their historical context present global perspectives and potential resolutions and suggest how death and dying should be presented to the public Acknowledging that professionals in the galleries libraries archives and museums GLAM fields are engaging in vital discussions about repatriation and anti colonialist narratives the book includes reflections on a variety of deathscapes that are at the forefront of the debate Taking a multivocal approach the handbook provides a foundation for debate as well as a reference for how the dead are treated within the public arena Most important perhaps the book highlights best practices and calls for more ethical frameworks and strategies for collaboration particularly with descendant communities The Routledge Handbook of Museums Heritage and Death will be useful to all individuals working with studying and interested in curation and exhibition at museums and heritage sites around the world

It will be of particular interest to those working in the fields of heritage museum studies death studies archaeology anthropology sociology and history Bog bodies Melanie Giles,2020-12-15 The bog bodies of north western Europe have captured the imaginations of poets and archaeologists alike allowing us to come face to face with individuals from the past Their exceptional preservation permits us to examine minute details of their lives and deaths making us reflect poignantly on our own mortality But as this book argues the bodies must be resituated within a turbulent world of endemic violence and change Reinterpreting the latest continental research and new discoveries and featuring a ground breaking cold case forensic study of Worsley Man Manchester Museum s bog head it brings the bogs to life through both natural history and folklore revealing them as places that were rich and fertile yet dangerous The book also argues that these remains do not just pose practical conservation problems but also philosophical dilemmas compounded by the critical debate on if and how they should be displayed An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence

The Lost Art of Resurrection Freddy Silva, 2017-01-27 Reveals the radical ancient practice of living resurrection in which initiates ritually died and were reborn into a state of higher consciousness Explores living resurrection initiation practices from world cultures including Egyptian Greek Gnostic Chinese Celtic and Native American traditions Describes the secret chambers and temples where Mystery Schools practiced raising the dead Shows why this practice was branded a heresy and suppressed by the Church More than two thousand years before the resurrection of Jesus initiates from spiritual traditions around the world were already practicing a secret mystical ritual in which they metaphorically died and were reborn into a higher spiritual state During this living resurrection they experienced a transformative spiritual awakening that revealed the nature of reality and the purpose of the soul described as rising from the dead Exploring the practice of living resurrection in ancient Egyptian Phoenician Greek Persian Indian Japanese Chinese Celtic and Native American traditions Freddy Silva explains how resurrection was never meant for the dead but for the living a fact supported by the suppressed Gnostic Gospel of Philip Those who say they will die first and then rise are in error If they do not first receive the resurrection while they live when they die they will receive nothing He reveals how these practices were not only

common in the ancient world but also shared similar facets in each tradition initiates were led through a series of challenging ordeals retreated for a three day period into a cave or restricted room often called a bridal chamber and while out of body became fully conscious of travels in the Otherworld Upon returning to the body they were led by priests or priestesses to witness the rising of Sirius or the Equinox sunrise Silva describes some of the secret chambers around the world where the ritual was performed including the so called tomb of Thutmosis III in Egypt which featured an empty sarcophagus and detailed instructions for the living on how to enter the Otherworld and return alive He reveals why esoteric and Gnostic sects claimed that the literal resurrection of Jesus promoted by the Church was a fraud and how the Church branded all living resurrection practices as a heresy relentlessly persecuting the Gnostics to suppress knowledge of this self empowering experience He shows how the Knights Templar revived these concepts and how they survive to this day within Freemasonry Exploring the hidden art of living resurrection Silva shows how this personal experience of the Divine opened the path to self empowerment and higher consciousness leading initiates such as Plato to describe it as the pinnacle of spiritual development
