black American society Slave Stories American Slavery *Schoolhouse Activists* Tondra L. Loder-Jackson, 2015-10-26
Examines the role of African American educators in the Birmingham civil rights movement *Schoolhouse Activists* examines the role that African American educators played in the Birmingham Alabama civil rights movement from the late nineteenth century to the present day Drawing on multiple perspectives from education history and sociology Tondra L Loder Jackson revisits longstanding debates about whether these educators were friends or foes of the civil rights movement She also uses Black feminist thought and the life course perspective to illuminate the unique and often clandestine brand of activism that these teachers cultivated The book will serve as a resource for current educators and their students grappling with contemporary struggles for educational justice **The Works of Booker T. Washington, 2017-11-07 IT HAS been my fortune to be associated all my life with a problem a hard perplexing but important problem There was a time when I looked upon this fact as a great misfortune It seemed to me a great hardship that I was born poor and it seemed an even greater hardship that I should have been born a Negro I did not like to admit even to myself that I felt this way about the matter because it seemed to me an indication of weakness and cowardice for any man to complain about the condition he was born to Later I came to the conclusion that it was not only weak and cowardly but that it was a mistake to think of the matter in the way in which I had done I came to see that along with his disadvantages the Negro in America had some advantages and I made up my mind that opportunities that had been denied him from without could be more than made up by greater concentration and power within **Up from Slavery: The Incredible Life Story of Booker T.
