Linguist Kristy Beers Fägersten, 2016-09-09 In *Watching TV with a Linguist* Fägersten challenges the conventional view of television as lowbrow entertainment devoid of intellectual activity. Rather, she champions the use of fictional television to learn about linguistics and at the same time promotes enriched television viewing experiences by explaining the role of language in creating humor, conveying drama, and developing identifiable characters. The essays gathered in this volume explore specific areas of linguistics, providing a comprehensive yet accessible introduction to the study of language. Through programs such as *Seinfeld*, *The Simpsons*, *Sherlock*, and *The Wire*, contributors deftly illustrate key linguistic concepts and terminology using snippets of familiar dialogue and examples of subtle narration. In addition, contributors aim to raise linguistic awareness among readers by identifying linguistics in action, encouraging readers to recognize additional examples of concepts on their own. To this end, each chapter provides suggestions for viewing other television series or specific episodes where further examples of the linguistic concepts in focus can be found. Invaluable as a resource in linguistics and communication courses, *Watching TV with a Linguist* is the first book to use the familiar and compelling medium of television to engage students with the science of language.

Humor, Psyche, and Society: A Socio-Semiotic Analysis Arthur Asa Berger, 2020-10-06 It is the age-old saying that laughter is the best medicine. Scientific research has substantiated the claim made by this proverb by verifying the positive effects it has on both our mind and body, but what is it about a good joke, comic, or sitcom that makes us laugh? *Humor, Psyche, and Society* is a compilation of Berger's previously published articles and new chapters on the nature of humor, its importance for our psyches, and its social and political significance. Written in an accessible style, it uses semiotics, psychoanalytic theory, sociological theory, as well as other theories of humor to explore the multifaceted nature of humor, various styles of jokes and sitcoms. Using Berger's typology of forty-five techniques found in all forms of humor, developed to explain what makes us laugh, this book analyses a variety of humorous texts. Balancing theory, entertaining jokes, and other humorous texts, as well as the author's illustrations, the chapters in this book delve into a diverse range of topics such as humor and the creative process, humor and health, and visual humor, along with an examination of the sitcoms *Frasier* and *Cheers*, and finally the exploration of jokes, including Jewish jokes and jokes on Russia and Communism and Trump. This book will be of particular interest to university students studying courses in humor, comedy, popular culture, applied semiotics, American politics and culture, and cultural studies. Due to the accessible nature of this book, the general public may find it to be both a fascinating and entertaining read.
