Front-Page Girls Jean Marie Lutes, 2018-09-05 The first study of the role of the newspaperwoman in American literary culture at the turn of the twentieth century this book recaptures the imaginative exchange between real life reporters like Nellie Bly and Ida B Wells and fictional characters like Henrietta Stackpole the lady correspondent in Henry James's *Portrait of a Lady* It chronicles the exploits of a neglected group of American women writers and uncovers an alternative reporter novelist tradition that runs counter to the more familiar story of gritty realism generated in male dominated newsrooms Taking up actual newspaper accounts written by women fictional portrayals of female journalists and the work of reporters turned novelists such as Willa Cather and Djuna Barnes Jean Marie Lutes finds in women's journalism a rich and complex source for modern American fiction Female journalists cast as both standard bearers and scapegoats of an emergent mass culture created fictions of themselves that far outlasted the fleeting news value of the stories they covered *Front Page Girls* revives the spectacular stories of now forgotten newspaperwomen who were not afraid of becoming the news themselves the defiant few who wrote for the city desks of

mainstream newspapers and resisted the growing demand to fill women's columns with fashion news and household hints. It also examines for the first time how women's journalism shaped the path from news to novels for women writers.

The Basics of Media Writing Scott A. Kuehn, Andrew Lingwall, 2016-12-08. The Basics of Media Writing: A Strategic Approach helps readers develop the essential writing skills and professional habits needed to succeed in 21st century media careers. This research-driven, strategy-based media writing textbook digs deeply into how media professionals think and write in journalism, public relations, advertising, and other forms of strategic communication. Authors Scott A. Kuehn and Andrew Lingwall have created two comprehensive writing models to help students overcome their problems in finding and developing story topics by giving them starting points to begin writing. The Professional Strategy Triangle model shows students how to think critically about the audience, the situation, and the message before starting a news story or persuasive piece, and the FAJA four-point model asks students a series of questions about their story type: Fact, Analysis, Judgment, or Action, to guide them to the right angle or organizational structure for their message. Rooted in classical rhetorical methods, this step-by-step technique enables readers to strategically approach each writing task, no matter the format.

Making News at The New York Times Nikki Usher, 2014-04-24. An ethnographic study of The New York Times business desk provides a unique vantage point to see the future for news in the digital age.

Radio Journalism in America Jim Cox, 2013-04-06. This history of radio news reporting recounts and assesses the contributions of radio toward keeping America informed since the 1920s. It identifies distinct periods and milestones in broadcast journalism and includes a biographical dictionary of important figures who brought news to the airwaves. Americans were dependent on radio for cheap entertainment during the Great Depression and for critical information during the Second World War when no other medium could approach its speed and accessibility. Radio's diminished influence in the age of television, beginning in the 1950s, is studied as the aural medium shifted from being at the core of many families' activities to more specialized applications reaching narrowly defined listener bases. Many people turned elsewhere for the news. And now even TV is challenged by yet newer media. The introduction of technological marvels throughout the past hundred years has significantly altered what Americans hear and how, when, and where they hear it.

Provoking the Press Kevin M. Lerner, 2019-05-24. At the beginning of the 1970s, broadcast news and a few newspapers such as The New York Times wielded national influence in shaping public discourse to a degree never before enjoyed by the news media. At the same time, however, attacks from political conservatives such as Vice President Spiro Agnew began to erode public trust in news institutions, even as a new breed of college-educated reporters were hitting their stride. This new wave of journalists, doing their best to cover the roiling culture wars of the day, grew increasingly frustrated by the limitations of traditional notions of objectivity in news writing and began to push back against convention, turning their eyes on the press itself. Two of these new journalists, a Pulitzer Prize-winning Harvard-educated New York Times reporter named J. Anthony Lukas and a former Newsweek media writer named

Richard Pollak founded a journalism review called MORE in 1971 with its pilot issue appearing the same month that the Times began publishing the Pentagon Papers MORE covered the press with a critical attitude that blended seriousness and satire part New York Review of Books part underground press In the eight years that it published MORE brought together nearly every important American journalist of the 1970s either as a writer a subject of its critical eye or as a participant in its series of raucous A J Liebling Counter Conventions meetings named after the outspoken press critic the first of which convened in 1974 In issue after issue the magazine considered and questioned the mainstream press s coverage of explosive stories of the decade including the Watergate scandal the seven dirty words obscenity trial the debate over a reporter s constitutional privilege the rise of public broadcasting the struggle for women and minorities to find a voice in mainstream newsrooms and the U S debut of press baron Rupert Murdoch In telling the story of MORE and its legacy Kevin Lerner explores the power of criticism to reform and guide the institutions of the press and in turn influence public discourse
