Unmanageable Care Jessica M. Mulligan, 2014-08-08 In *Unmanageable Care* anthropologist Jessica M Mulligan goes to work at an HMO and records what it s really like to manage care Set at a health insurance company dubbed Acme this book chronicles how the privatization of the health care system in Puerto Rico transformed the experience of accessing and providing care on the island Through interviews and participant observation the book explores the everyday contexts in which market reforms were enacted It follows privatization into the compliance department of a managed care organization through the visits of federal auditors to a health plan and into the homes of health plan members who recount their experiences navigating the new managed care system In the 1990s and early 2000s policymakers in Puerto Rico sold off most of the island s public health facilities and enrolled the poor elderly and disabled into for profit managed care plans These reforms were supposed to promote efficiency cost effectiveness and high quality care Despite the optimistic promises of market based reforms the system became more expensive not more efficient patients rarely behaved as the expected health maximizing information processing consumers and care became more chaotic and difficult to access Citizens continued to look to the state to provide health services for the poor disabled and elderly This book argues that pro market reforms failed to deliver on many of their promises The health care system in Puerto Rico was dramatically transformed just not according to plan

Taking Health to the Streets in Puerto Rico Shir Lerman Ginzburg, 2023-06-21 *Taking Health to the Streets in Puerto Rico* Resisting Gastronomic Psychiatric and Diabetes Colonialism traces the ways in which diabetes depression and food insecurity interact under the rule of US colonization in Puerto Rico as well as the ways in which these illnesses are

interlaced with contemporary culture colonization and politics Central to the book and critical to its unique creative significance and contribution is the conceptual unification of politicized health and the embodiment of identity and social inequality in Puerto Rico Ultimately the advancement of health equity in Puerto Rico is a matter of decolonization and vice versa *Fantasy Island* Ed Morales, 2019-09-10 An urgent fascinating and impassioned Daniel Immerwahr history of Puerto Rico's 122 years as a colony of the United States Since its acquisition by the US in 1898 Puerto Rico has served as a testing ground for the most aggressive and exploitative US economic political and social policies The devastation that ensued finally grew impossible to ignore in 2017 in the wake of Hurricane Maria as the physical destruction compounded the infrastructure collapse and trauma inflicted by the debt crisis In *Fantasy Island* Ed Morales traces how over the years Puerto Rico has served as a colonial satellite a Cold War Caribbean showcase a dumping ground for US manufactured goods and a corporate tax shelter He also shows how it has become a blank canvas for mercenary experiments in disaster capitalism on the frontlines of climate change hamstrung by internal political corruption and the US federal government's prioritization of outside financial interests Taking readers from San Juan to New York City and back to his family's home in the Luquillo Mountains Morales shows us the machinations of financial and political interests in both the US and Puerto Rico and the resistance efforts of Puerto Rican artists and activists Through it all he emphasizes that the only way to stop Puerto Rico from being bled is to let Puerto Ricans take control of their own destiny going beyond the statehood commonwealth independence debate to complete decolonization

Labor and Punishment Erin Hatton, 2021-05-25 Introduction Erin Hatton Working behind bars prison labor in America Erin Hatton From extraction to repression prison labor prison finance and the prisoners rights movement in North Carolina Amanda Bell Hughes The political economy of work in ICE custody theorizing mass incarceration and for profit prisons Jacqueline Stevens The carceral continuum beyond the prison labor free labor divide Noah D Zatz Held in Abeyance labor therapy and surrogate livelihoods in Puerto Rican therapeutic communities Caroline M Parker You put up with anything on the vulnerability and exploitability of formerly incarcerated workers Gretchen Purser Working reentry gender carceral precarity and post incarceration geographies in Milwaukee Wisconsin Anne Bonds Conclusion Philip Goodman

Carceral Citizens Caroline M. Parker, 2025-02-10 A nuanced take on how carceral expansions are changing labor and social life In *Carceral Citizens* anthropologist Caroline M Parker offers an ethnographic portrait of therapeutic communities in Puerto Rico the oldest colony in the Americas As nonprofits nested within the carceral state therapeutic communities serve as reeducation and recovery centers for the mostly male drug offenders who serve out their sentences engaged in manual labor and prayer The most surprising aspect of these centers however is that their graduates often remain long after the completion of their term working as self appointed peer counselors in a mixture of volunteer and low wage positions Parker seeks to explain this dynamic by showing how in these therapeutic communities criminalized men find new and meaningful ways of living in the shadow of the prison Through their participation in the day to

day functioning of the centers they discover and cultivate alternative forms of belonging livelihood and citizenship despite living within the restrictions of the carceral state Situating her study against the backdrop of Puerto Rico's colonial history and with findings that extend across Latin America Parker challenges common assumptions about confinement labor and rehabilitation By delving into lives shaped by the convergence of imperialism the carceral state and self help she offers a fresh understanding of the transformations of labor and social life brought about by mass incarceration

Negotiating Structural Vulnerability in Cancer Control Julie Armin, Nancy J. Burke, Laura Eichelberger, 2019-03 What can case studies about the lived experiences of cancer contribute to an interest in the concept of structural vulnerability And can a consideration of structural vulnerability enhance applied anthropological work in cancer prevention and control To answer these questions the contributors in this volume explore what it means to be structurally vulnerable how structural vulnerabilities intersect with cancer risk diagnosis care seeking caregiving clinical trial participation and survivorship and how differing local national and global political contexts and histories inform vulnerability These case studies illustrate how quotidian experiences of structural vulnerability influence and are altered by a cancer diagnosis at various points in the continuum of care In examining cancer as a set of diseases and biosocial phenomena the contributors extend structural vulnerability beyond its original conceptualization to encompass spatiality temporality and biosocial shifts in both individual and institutional arrangements

Famished Rebecca J. Lester, 2021-11-02 When Rebecca Lester was eleven years old and again when she was eighteen she almost died from anorexia nervosa Now both a tenured professor in anthropology and a licensed social worker she turns her ethnographic and clinical gaze to the world of eating disorders their history diagnosis lived realities treatment and place in the American cultural imagination *Famished* the culmination of over two decades of anthropological and clinical work as well as a lifetime of lived experience presents a profound rethinking of eating disorders and how to treat

them Through a mix of rich cultural analysis detailed therapeutic accounts and raw autobiographical reflections Famished helps make sense of why people develop eating disorders what the process of recovery is like and why treatments so often fail It s also an unsparing condemnation of the tension between profit and care in American healthcare demonstrating how a system set up to treat a disease may in fact perpetuate it Fierce and vulnerable critical and hopeful Famished will forever change the way you understand eating disorders and the people who suffer with them **Unequal Coverage** Heide

Health in Ruins César Ernesto Abadía-Barrero, 2022-09-09 In Health in Ruins C sar Ernesto Abad a Barrero chronicles the story of El Materno Colombia s oldest maternity and neonatal health center and teaching hospital over several decades as it faced constant threats of government shutdown Using team based and collaborative ethnography to analyze the social life of neoliberal health policy Abad a Barrero details the everyday dynamics around teaching learning and working in health care before during and after privatization He argues that health care privatization is not only about defunding public hospitals it also ruins rich traditions of medical care by denying or destroying ways of practicing medicine that challenge Western medicine Despite radical cuts in funding and a corrupt and malfunctioning privatized system El Materno s professors staff and students continued to find ways to provide innovative high quality and noncommodified health care By tracking the violences conflicts hopes and uncertainties that characterized the struggles to keep El Materno open Abad a

Privatization and the New Medical Pluralism Anita Chary, Peter Rohloff, 2015-09-17 Privatization and the New Medical Pluralism is the first collection of its kind to explore the contemporary terrain of healthcare in Guatemala through reflective ethnography This volume offers a nuanced portrait of the effects of healthcare privatization for indigenous Maya people who have historically endured numerous disparities in health and healthcare access The collection provides an updated understanding of medical pluralism which concerns not only the tensions and exchanges between ethnomedicine and biomedicine that have historically shaped Maya people's experiences of health but also the multiple competing biomedical institutions that have emerged in a highly privatized market driven environment of care The contributors examine the macro structural and micro level implications of the proliferation of non governmental organizations private fee for service clinics and new pharmaceuticals against the backdrop of a deteriorating public health system In this environment health seekers encounter new challenges and opportunities relationships between the public private and civil sectors transform and new forms of inequality in access to healthcare abound This volume connects these themes to critical studies of global and public health exposing the strictures and apertures of healthcare privatization for marginalized populations in Guatemala

that is the unconstitutional disparate treatment of U S citizens living in Puerto Rico compared to those Americans living on the mainland Finally this Article advances a primary policy recommendation that policymakers must first address the equal protection of the law in general and as it applies to healthcare rather than the political battle for statehood the federal control and planning over Puerto Rico s finances or additional temporary federal funds and disaster relief Puerto Rico's Health Care Delivery System, Its Current Health Care Reform Efforts, and Access to Rural Health Care Services in Puerto Rico United States.
