Institutional Diversity in Transferring Land Development Rights in China Chen Shi,2025-12-16 This book aims to elucidate the operational mechanisms of transfer of land development right within a public ownership system which not only offers a distinctive and dynamic case study on TDR program to advance institutional diversity in transitional economies but also serves as a valuable reference for addressing urban rural development disparities worldwide *Blue Skies Over Beijing* Matthew E. Kahn,Siqi Zheng,2019-07-16 How individuals and the government are changing life in China s polluted cities Over the past thirty years even as China s economy has grown by leaps and bounds the environmental quality of its urban centers has precipitously declined due to heavy industrial output and coal consumption The country is currently the world s largest greenhouse gas emitter and several of the most polluted cities in the world are in China Yet millions of people continue moving to its cities seeking opportunities *Blue Skies over Beijing* investigates the ways that China s urban development impacts local and global environmental challenges Focusing on day to day choices made by the nation s citizens families and government Matthew Kahn and Siqi Zheng examine how Chinese urbanites are increasingly demanding cleaner living conditions and consider where China might be headed in terms of sustainable urban growth Kahn and Zheng delve into life in China s cities from the personal perspectives of the rich middle class and poor and how they cope with the stresses of pollution Urban parents in China have a strong desire to protect their children from environmental risk and calls for a better quality of life from the rising middle class places pressure on government officials to support greener policies Using the historical evolution of American cities as a comparison the authors predict that as China s economy moves away from heavy manufacturing toward cleaner sectors many of China s cities should experience environmental progress in upcoming decades Looking at pressing economic and environmental issues in urban China *Blue Skies over Beijing* shows that a cleaner China will mean more social stability for the nation and the world *Cities of Dragons and Elephants* Guang Hua Wan,Ming Lu,2019 Urbanization is one of the most important phenomena in economic development In the past three decades

Asian urban populations expanded by almost one billion a figure expected to double in the next three decades Clearly both the scale and pace of urbanization in Asia is unprecedented in human history and will dominate the global urbanization landscape Asia's urbanization in turn is dominated by what is happening in China and India the two most populous fastest growing economies in the world *Cities of Dragons and Elephants Urbanization and Urban Development in China and India* aims at addressing the two most fundamental issues of urbanization why and where to urbanize Contributed by a team of top experts from both countries it uses original research to explore both the speed and scale of urbanization and urban systems or spatial distribution of urbanities in different sized cities It examines various drivers of urbanization alongside the benefits and costs and the role of markets governments and NGOs *Cities of Dragons and Elephants* presents evidence based policy suggestions regarding the labor market the land and housing market FDI and the capital market education environment poverty and inequality It uses the similarities between India and China to draw conclusions and implications of enormous relevance to many governments and institutions in Asia and beyond

Out to Work Arianne M. Gaetano, 2015-04-24 *Out to Work* is a fresh engaging account of the lives of a group of rural Chinese women who while still in their teens moved from villages to Beijing to take up work as maids office cleaners hotel chambermaids and schoolteachers By pursuing new opportunities afforded by migration and strategically applying accumulated knowledge and resources these women were able to forge better lives for themselves and their families But as this book also makes clear broader social inequalities persist to make these women's futures precarious This book's unique approach offers readers an intimate look at the impact of labor migration on young women over a ten year period We follow Gaetano's informants as they adapt to Beijing visit their home villages and move on to new jobs and postmarital homes Gaetano does an excellent job showing how these young female migrants navigate constraints and challenges enhancing their own and their family's social and economic status Hong Zhang Colby College This fresh highly readable book demonstrates vividly how gender norms and rural urban inequalities not only shaped women's identities and aspirations but also had palpable physical and material consequences for them Yet despite the discrimination and hardship they experienced they were able to build better lives for themselves Gaetano's book convincingly shows that labor migration has increased many rural women's possibilities for exercising agency Rachel Murphy University of Oxford

China as Number One? Yang Zhong, Ronald F. Inglehart, 2024-02-12 One of the most significant global events in the last forty years has been the rise of China economically technologically politically and militarily The question on people's minds for decades has been whether China will replace the United States as a superpower in the near future But for China this power must be comprehensive having strong economic and militant forces are only two pieces of the puzzle China must also possess soft power such as attractive ideologies values and culture *China as Number One* explores China's soft powers through the eyes of Chinese citizens Utilizing data from the World Values Survey the contributors to this collection analyze the potential soft power of a rising China by examining its residents social values A comprehensive study of changes and

continuities in the political and social values of Chinese citizens the book examines findings in the context of evolutionary modernization theory and cross national comparison

China's Energy Security Giulia Romano, Jean-Francois Meglio, 2016-06-10 A secure supply of energy is essential for all nations to sustain their economy and indeed their very survival This subject is especially important in the case of China as China's booming economy and consequent demand for energy is affecting the whole world and in turn potentially driving realignments in international relations Moreover as this book argues energy security should be considered more broadly to include issues of sustainability environmental protection and the domestic organisation of energy policy and energy supply This book presents a comprehensive picture of China's energy security It covers all energy sectors coal oil gas renewables international relations with all major sources of energy supply the Middle East Central Asia Africa and key areas of domestic policy making and supply
