US Foreign Policy And The Rogue State Doctrine:

US Foreign Policy and the Rogue State Doctrine Alex Miles, 2013 Concerns over Iran's nuclear programme North Korea's nuclear brinkmanship and in the past Iraq's apparent pursuit of WMD have captured the world's attention and dominated the agenda of the American foreign policy establishment But what led policymakers and the US military to emphasise the threat of rogue states at the end of the Cold War Going behind the vivid language of the axis of evil and portrayals of undeterrable and reckless rogue states this work demonstrates how the rogue state doctrine satisfied both domestic and international goals in the Clinton and George W Bush administrations underpinning efforts to maintain US leadership and hegemony It offers a clear picture of the policymaking process taking a broad historical approach that places the actions of US officials towards Iraq Iran North Korea Libya and Cuba in a wider context Through an understanding of the long standing influences on the US approach we are better able to appreciate why for instance regime change dominated the post 9 11 agenda and led to the overthrow of Saddam Hussein Explaining in detail how the tackling of rogue states became a central aim of US foreign policy Miles examines whether there was continuity between the Clinton and Bush approach He moves on to highlight the influence of Congress on the implementation of US policies and the difficulties the US faced in selling its approach to allies and adapting its hard line strategies to reflect developments within the targeted states By considering the impulses and drivers behind the development of the rogue states approach this work will extend the scope of existing work in the field and will be of interest to scholars and policymakers alike *US Foreign Policy* Michael Cox, Doug Stokes, 2018 Critical and connected brings together diverse political perspectives from the world's leading experts giving students the tools to critically evaluate America's ever changing role in international politics and to connect theory to real events **US Foreign Policy and China** Guy Roberts, 2014-11-13 This work is an exploration of how U S China relations were managed by President George W Bush Roberts argues that contrary to conventional wisdom President Bush conducted a calculated pragmatic and highly successful strategy toward Beijing which avoided conflict resolved crisis and significantly increased economic and diplomatic ties Roberts identifies key players and policies of the Bush White House and the specific themes of engagement successful and unsuccessful that unfolded during Bush's first term Research is based on analysis of primary and secondary documentation as well as interviews with key White House actors including Deputy Secretary of State Richard Armitage and two former Australian Prime Ministers Topics of discussion include China's changing attitude toward international engagement China's rising economic power and the tensions this triggered in the American establishment the nature of U S China relations contemporary and ideological understanding of the Bush Presidency as well as the strengths and weaknesses of different sources of information **US Foreign Policy and China** will be of great interest to students and scholars of US foreign policy and China Studies **Democracy Promotion as US Foreign Policy** Nicolas Bouchet, 2015-06-19 The role of democracy promotion in US foreign policy has increased considerably in the last three

decades booming especially in the immediate years after the end of the Cold War The rise of democracy promotion originated in a long historical tradition that saw exporting American political values as instrumental in securing US security and economic interests an idea which was expressed freely once Cold War strategic constraints disappeared Under Bill Clinton there was an explicit attempt to do so by reframing American strategy in terms of democratic enlargement and this book assesses the strategic use of democracy promotion in US foreign policy and its different outcomes during his presidency Offering a comprehensive global review of American democracy engagement with different regions of the world and key countries during a whole presidency this book assesses how far the US has benefited from democracy promotion It evaluates the instrumental value of democracy promotion for America by seeing whether the Clinton administration's efforts in this field and their varying impacts to democratization abroad were matched by progress in securing US strategic goals defined under enlargement in particular reducing international conflicts and spreading economic liberalization around the world The book explores how democracy became central to US post Cold War strategy how the Clinton administration developed the concept of democratic enlargement and tried to implement it and why it remained influential on foreign policy throughout Clinton's presidency With an analysis of the legacy of Clinton's democracy promotion and its relevance to the subsequent policies of George W Bush and Barack Obama this book is essential reading for students and scholars interested in Foreign Policy American History and Security Studies

Weapons of Mass Destruction and US Foreign Policy Michelle Bentley, 2014-03-14 This book examines the use of concepts specifically weapons of mass destruction WMD in US foreign policy discourse Current analysis of WMD definition has made headway into identifying the repercussions that the conceptual conflation of such diverse weapons typically understood as a reference to nuclear biological and chemical weapons has for international security While the concept assumes these weapons are equal the vast disparity between them and their disparity from the conventional weapons from which they are supposedly distinct means this approach is seen as unreflective of reality causing miscalculations in security policy Not least this has highlighted that the issue of WMD definition is a priority concern where this has direct implications for strategy In contrast Weapons of Mass Destruction and US Foreign Policy argues that this approach does not accurately portray conceptual meaning particularly where it overlooks how political language is constructed In demonstrating this the book presents a conceptual history of WMD detailing how this has been defined and used since its emergence into political discourse c 1945 Specifically it argues that definition is an inherently strategic act policymakers have deliberately included or excluded certain weapons and threats from the classification in order to shape foreign policy dialogues As such understanding the WMD concept is not a search for a single interpretation but an analysis that seeks to comprehend what the concept means at any given time especially where this relates to the political circumstances of its use By identifying a variety of ways in which WMD has been defined the book constructs a dynamic view of conceptual meaning that recognises and more importantly explains the inherent diversity in interpretation

as the consequence of epistemic and institutional context and the strategic response of policymakers This book will be of much interest to students of Weapons of Mass Destruction US foreign and security policy security studies political narratives and IR

US Foreign Policy and Democracy Promotion Michael Cox, Timothy J. Lynch, Nicolas Bouchet, 2013-04-17 The promotion of democracy by the United States became highly controversial during the presidency of George W Bush The wars in Iraq and Afghanistan were widely perceived as failed attempts at enforced democratization sufficient that Barack Obama has felt compelled to downplay the rhetoric of democracy and freedom in his foreign policy This collection seeks to establish whether a democracy promotion tradition exists or ever existed in US foreign policy and how far Obama and his predecessors conformed to or repudiated it For more than a century at least American presidents have been driven by deep historical and ideological forces to conceive US foreign policy in part through the lens of democracy promotion Debating how far democratic aspirations have been realized in actual foreign policies this book draws together concise studies from many of the leading academic experts in the field to evaluate whether or not these efforts were successful in promoting democratization abroad They clash over whether democracy promotion is an appropriate goal of US foreign policy and whether America has gained anything from it Offering an important contribution to the field this work is essential reading for all students and scholars of US foreign policy American politics and international relations

Local Interests and American Foreign Policy Karl Sandstrom, 2013-07-18 This book provides an alternative perspective on how social interest groups form and interact to affect interventions It combines historic sociological and international relations perspectives in a framework through which to view the relevant socio political dynamics in target societies At a time when American foreign policy seeks to redefine its objectives and its methods of intervention the monolithic ideological assumptions of the state as the panacea to all social ailments both as a format and a vehicle of norm delivery seemingly dooms American foreign policy and European allies to the repetition of old mistakes In environments where interests and priorities are shaped on a highly localised basis interventionist agendas often lack relevant meaning The book focuses in particular on the contrast between the assumptions inherent in Western interventionist strategies and social interest formation in Afghanistan Somaliland and Somalia Based on extensive fieldwork the book draws on available literature and on interviews with local population or international aid and development workers The conclusion is that in the cases examined the agency of local interest groups largely controls the outcome of external strategies This book will be of great interest to students and scholars of US Foreign Policy International Relations and Security Studies

The President, the State and the Cold War James Bilsland, 2015-02-11 US foreign policy during the Cold War has been analysed from a number of perspectives generating large bodies of literature attempting to explain its origins its development and its conclusion However there are still many questions left only partially explained In large part this is because these accounts restrict themselves to a single level of analysis either the international system or the structure of the state and society The first level of analysis focusing on the role of individuals has largely been excluded This

book argues that structural theories and any approach that limits itself to one level of analysis are inadequate to explain the development of US foreign policy. Instead, it is necessary to incorporate the first level of analysis in order to bring human agency back and provide a more detailed explanation of US foreign policy. Bilsland proposes an analytical framework which incorporates presidential agency into a multi-level analysis of US foreign policy during the Cold War, constructing a multi-level case study comparison of the foreign policies of Presidents Truman and Reagan. He argues that the worldview of the president is central to agenda setting in US foreign policy making and that the management style of the president influences both decision making and the implementation of US foreign policy. Evidence to support this is drawn from detailed empirical analysis of Truman's foreign policy of containment in Korea and Reagan's foreign policy of rollback in Nicaragua. This work will be of interest to students and scholars of US Foreign Policy, US History and International Relations.

Obama's Foreign Policy Michelle Bentley, Jack Holland, 2013-10-08. The proposed work, as well as looking at particular policy areas, will take a more expansive approach that takes into account alternative issues such as the construction of emotion, affect, rhetoric, as well as theoretical issues such as US decline. It also presents these arguments within the context of specific theoretical frameworks, which is an approach that is not replicated anywhere else in the literature. The concepts of continuity and change discussed in other studies are highly general. Frequently, these studies look at continuity as a trend that goes back across a range of past presidencies, typically going back as far as Ronald Reagan. In contrast, this publication looks specifically at continuity as a relationship between Presidents Bush and Obama, especially in the wake of 9/11. This is a much more expansive discussion of the Obama presidency than is currently available within this topic. The proposed volume will address the entire term, offering scholars and interested readers a detailed discussion of the Obama presidency throughout the duration of his first term in office.

Deviant Conduct in World Politics D. Geldenhuys, 2004-01-20. A long list of countries labelled outcasts, pariahs and rogues have failed to meet international standards of good conduct. In the Cold War years, Rhodesia, Israel, Chile, Taiwan and South Africa, among others, featured among the ranks of the disreputable. In modern world politics, the serious sinners not only include states, terrorists, rebels, criminals and mercenaries also participate in the great game of who gets what, when and how. Highlighting the rules of good behaviour that both state and non-state actors have violated, Geldenhuys takes a novel approach that breaks through the narrow parameters of the rogue state paradigm and of other state-centric perspectives.

Congressional Policymaking in Sino-U.S. Relations during the Post-Cold War Era Joseph A. Gagliano, 2014-09-15. Conventional wisdom holds that the President enjoys the preponderance of foreign policy power; however, Congress has influenced China policymaking more than is generally recognized. The legislature has demonstrated consistent interests in the realm of China policy and it has invariably pursued those interests through law making. During the post-Cold War period, in particular, the Sino-US relationship has evolved in a radically changing international environment marked by a power transition inherent in China's rise. The development of official relations

between Washington and Beijing during the Cold War occurred in the shadow of an assertive Soviet power when the United States and China were able to find common geopolitical ground in opposing Soviet expansion while overlooking longstanding political disagreements. The dissolution of the Soviet empire however put the United States and China on a new geostrategic footing. Political disagreements were no longer exempted in light of a counter Soviet strategy and the reduction in concern for the Soviet threat allowed policymakers in Washington to more aggressively pursue trade interests that conflicted with those of China. Given this international context this book aims to discern how Congress reconciled competing Sino U S interests in a post Cold War era when external threats no longer dictated an apparent hierarchy that favored China over the Soviet Union. This work will be of interest to students and scholars of US foreign policy, China Studies and international relations in general.

Coalitions of the Willing and International Law Alejandro Rodiles, 2018-08-30 Global action and regulation is increasingly the result of the interplay between formality and informality. From the management of State conduct in international security to the coordination of national policies in climate change international organizations work ever closer with coalitions of the willing. This book carefully describes this dynamic game showing that it consists of transformative orchestration strategies and quasi formalization processes. On the institutional plane coalitions of the willing turn into durable efforts while international organizations perform as platforms within broader regime complexes. On the normative level informal standards are framed in legal language and bestowed with the force of law while legal norms are attached to multilayered schemes of implementation characterized by pragmatic correspondences, persuasion tactics and conceptual framing. Understanding how this interplay alters the notion of international legality is crucial for the necessary recalibrations of the political ideals that will inform the rule of law in global governance.

US Democracy Promotion in the Middle East Dionysis Markakis, 2015-08-27 US Democracy Promotion in the Middle East seeks to explore the changes in US strategy towards democracy promotion in the Middle East during the Clinton and Bush administrations with a particular focus on Egypt, Iraq and Kuwait. At a time of regional turmoil and political reform the topic of democracy promotion has never been more pertinent. We are witnessing the emergence of popular movements that are challenging authoritarian governments long supported by the US. Tracing the contours of the ongoing transition in US policy in the Middle East this book critically deconstructs the strategy of democracy promotion on both a theoretical and empirical level. By formulating and applying an analytical framework derived from a Gramscian approach Markakis seeks to propose a re evaluation of what US foreign policy in the Middle East truly constitutes, critiquing both the ideological foundations of the strategy as well as the implementation. This book will provide a solid foundation for the analysis of US policy and in particular the strategy of democracy promotion at this time of momentous transition across the region.

American Exceptionalism Hilde Eliassen Restad, 2014-12-17 How does American exceptionalism shape American foreign policy? Conventional wisdom states that American exceptionalism comes in two variations: the exemplary version and the missionary version. Being exceptional

experts in U S foreign policy argue means that you either withdraw from the world like an isolated but inspiring city upon a hill or that you are called upon to actively lead the rest of the world to a better future In her book Hilde Eliassen Restad challenges this assumption arguing that U S history has displayed a remarkably constant foreign policy tradition which she labels unilateral internationalism The United States Restad argues has not vacillated between an exemplary and a missionary identity Instead the United States developed an exceptionalist identity that while idealizing the United States as an exemplary city upon a hill more often than not errs on the side of the missionary crusade in its foreign policy Utilizing the latest historiography in the study of U S foreign relations the book updates political science scholarship and sheds new light on the role American exceptionalism has played and continues to play in shaping America s role in the world This work will be of great interest to students and scholars of US foreign policy security studies and American politics *American Grand Strategy and Corporate Elite Networks* Bastiaan Van Apeldoorn, Naná de Graaff, 2015-10-23 This book presents a novel analysis of how US grand strategy has evolved from the end of the Cold War to the present offering an integrated analysis of both continuity and change The post Cold War American grand strategy has continued to be oriented to securing an open door to US capital around the globe This book will show that the three different administrations that have been in office in the post Cold War era have pursued this goal with varying means from Clinton s promotion of neoliberal globalization to Bush s war on terror and Obama s search to maintain US primacy in the face of a declining economy and a rising Asia In seeking to make sense of both these strong continuities and these significant variations the book takes as its point of departure the social sources of grand strategy making with the aim to relate state public power to social private power While developing its own theoretical framework to make sense of the evolution of US grand strategy it offers a rich and rigorous empirical analysis based on extensive primary data that have been collected over the past years It draws on a unique data set that consists of extensive biographical data of 30 cabinet members and other senior foreign policy officials of each of the past three administrations of Clinton G W Bush and Obama This book is of great use to specialists in International Relations within International Political Economy International Security and Foreign Policy Analysis as well as students of US Politics

Presidential Rhetoric from Wilson to Obama Wesley Widmaier, 2014-11-13 Over the past century presidential constructions of crises have spurred recurring redefinitions of U S interests as crusading advance has alternated with realist retrenchment For example Harry Truman and George W Bush constructed crises that justified liberal crusades in the Cold War and War on Terror In turn each was followed by realist successors as Dwight Eisenhower and Barack Obama limited U S commitments but then struggled to maintain popular support To make sense of such dynamics this book synthesizes constructivist and historical institutionalist insights regarding the ideational overreactions that spur shifts across crusading excesses and realist counter reactions Widmaier juxtaposes what Daniel Kahneman terms the initial fast thinking popular constructions of crises that justify liberal crusades the slow thinking intellectual conversion of such views in realist

adjustments and the tensions that can lead to renewed crises This book also traces these dynamics historically across five periods as Wilson's overreach limited Franklin Roosevelt to a reactive pragmatism as Truman's Cold War crusading incited Eisenhower's restraint as Kennedy Johnson Vietnam era crusading led to Nixon's revived realism as Reagan's idealism yielded to a Bush Clinton pragmatism and as George W Bush's crusading was followed by Obama's restraint Widmaier concludes by addressing theoretical debates over punctuated change historical debates over the scope for consensus and policy debates over populist or intellectual excesses This work will be of great interest to students and scholars of U S Foreign Policy

US Arms Policies Towards the Shah's Iran Stephen McGlinchey, 2014-06-05 This book reconstructs and explains the arms relationship that successive U S administrations developed with the Shah of Iran between 1950 and 1979 This relationship has generally been neglected in the extant literature leading to a series of omissions and distortions in the historical record By detailing how and why Iran transitioned from a primitive military aid recipient in the 1950s to America's primary military credit customer in the late 1960s and 1970s this book provides a detailed and original contribution to the understanding of a key Cold War episode in U S foreign policy By drawing on extensive declassified documents from more than 10 archives the investigation demonstrates not only the importance of the arms relationship but also how it reflected and contributed to the wider evolution of U S Iranian relations from a position of Iranian client state dependency to a situation where the U S became heavily leveraged to the Shah for protection of the Gulf and beyond until the policy met its disastrous end in 1979 as an antithetical regime took power in Iran This book will be of interest to students and scholars of Middle East studies US Foreign Policy and Security studies and for those seeking better foundations for which to gain an understanding of U S foreign policy in the final decade of the Cold War and beyond

Anti-Americanism and the Limits of Public Diplomacy Stephen Brooks, 2015-10-08 Contrary to the view held by many who study American foreign policy public diplomacy has seldom played a decisive role in the achievement of the country's foreign policy objectives The reasons for this are not that the policies and interventions are ill conceived or badly executed although this is sometimes the case Rather the factors that limit the effectiveness of public diplomacy lie almost entirely outside the control of American policy makers In particular the resistance of foreign opinion leaders to ideas and information about American motives and actions that do not square with their pre conceived notions of the United States and its activities in the world is an enormous and perhaps insurmountable wall that limits the impact of public diplomacy This book does not conclude that public diplomacy has no place in the repertoire of American foreign policy Instead the expectations held for this soft power tool need to be more realistic Public diplomacy should not be viewed as a substitute for hard power tools that are more likely to be correlated with actual American influence as opposed to the somewhat nebulous concept of American standing

United States - Africa Security Relations Kelechi A. Kalu, George Klay Kieh, 2013-11-07 United States Africa relations have experienced four major cycles The first cycle was during the Cold War 1960 1990 During this period the U S developed

a one sided relationship with various African states in which the latter served as foot soldiers for the U S in its competition with the Soviet Union for global domination Among other things the various client African states provided the U S with access to airfields deep water ports and sites for the establishment of various intelligence gathering facilities In addition the U S used various groups like UNITA led by Jonas Savimbi in Angola to undermine and fight pro Soviet regimes on the continent The second cycle of the relationship covered the period 1991 1998 During this time the U S scaled down its security activities in Africa The major reason was that with the end of the Cold War Africa with few exceptions like Egypt was no longer a major front for the promotion of U S Security interests The third cycle commenced in 1998 and ended in 2001 This period was characterized by the U S search for an approach to frame its security relations with Africa In this vein the U S undertook various military security initiatives The fourth cycle began after the 9 11 terrorist attacks against the American homeland Since then the U S has expanded the scope of its security relations with Africa as reflected in the establishment of various initiatives and programs At the core is the prosecution of the American war on terror Against this backdrop this book examines some of the major dimensions of the U S security relations with Africa including American security interests on the continent the war on terror AFRICOM and military cooperation Using the book s integrative theoretical framework each of the chapters in the volume examines the various factors that shape the issue of focus

American Foreign Policy Ideology and the International Rule of Law Malcolm Jorgensen, 2020-01-02 Demonstrates American legal policymakers hold competing conceptions of the international rule of law structured by foreign policy ideologies

Us Foreign Policy And The Rogue State Doctrine Book Review: Unveiling the Magic of Language

Us Foreign Policy And The Rogue State Doctrine Introduction

In the digital age, access to information has become easier than ever before. The ability to download Us Foreign Policy And The Rogue State Doctrine has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Us Foreign Policy And The Rogue State Doctrine has opened up a world of possibilities. Downloading Us Foreign Policy And The Rogue State Doctrine provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Us Foreign Policy And The Rogue State Doctrine has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Us Foreign Policy And The Rogue State Doctrine. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Us Foreign Policy And The Rogue State Doctrine. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Us Foreign Policy And The Rogue State Doctrine, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of

the websites they are downloading from. In conclusion, the ability to download Us Foreign Policy And The Rogue State Doctrine has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Us Foreign Policy And The Rogue State Doctrine Books

What is a Us Foreign Policy And The Rogue State Doctrine PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Us Foreign Policy And The Rogue State Doctrine PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Us Foreign Policy And The Rogue State Doctrine PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Us Foreign Policy And The Rogue State Doctrine PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Us Foreign Policy And The Rogue State Doctrine PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. **How do I compress a PDF file?** You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. **Can I fill out forms in a PDF file?** Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any

restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
