US Navy Aircraft Carriers 1922 45 Prewar Classes New Vanguard:

US Navy Aircraft Carriers 1922-45 Mark Stille, 2012-05-20 The USS Langley the first American aircraft carrier entered service in 1922 Despite being converted into an aircraft tender it was the first step in a new direction for the US Navy and naval warfare This book covers the design development and operation of USN aircraft carriers built prior to World War II including their aircraft and weaponry It also explains their various successes and losses such as the first carrier vs carrier battle at Midway the battle of the Coral Sea the battle of the Philippine Sea and the Operation Torch landings US Cold War Aircraft Carriers Brad Elward, 2014-03-20 An in depth look at the first US super carriers from the design and development of the Forrestal Kitty Hawk and Enterprise classes to their operational history during the Cold War and beyond The Forrestal class Forrestal Saratoga Ranger and Independence was the first completed class of US Navy supercarriers so named for their 25 percent size increase over the World War II era carriers such as the Midway class Design wise the Forrestals were a huge improvement over their predecessors being more stable and comfortable while maintaining advancements such as the armored flight decks that had been introduced with the Midway Brad Elward examines the history of this class of carrier and its successors The Kitty Hawk class was an improvement on the Forrestal class designs and four were built in the 1960s Kitty Hawk Constellation America and John F Kennedy These were even longer than the Forrestals and fitted with advanced defensive weapons systems and an improved elevator layout Featuring special illustrations this is a history of nine iconic carriers that hold a much respected place in US naval history World War I Seaplane and Aircraft Carriers Mark Lardas, 2016-09-22 In 1910 the first aircraft was successfully launched from a small wooden platform on a stationary ship Just four years later seaplane carrying warships were being used to launch the first naval air raids and by 1918 the first aircraft carrier to feature a full length flight deck was in service High quality artwork and historical photographs help author Mark Lardas tell the fascinating story of the pioneering years of naval aviation covering such historic clashes as the Japanese siege of Tsingtao the British raid against German Zeppelin bases at Cuxhaven and the Battle of Jutland which saw the first airplane take part in a naval battle Through detailed analysis he explores their development from hastily adapted merchant ships to the launch of HMS Argus the first aircraft carrier to have a full length flight deck and shows how they paved the way for the aircraft carriers of the future Midway 1942 Mark Stille, 2012-06-20 The most important and dramatic carrier battle of World War II which completely changed the fortunes of both Japan and America In less than one day the might of the Imperial Japanese Navy was destroyed and four of her great aircraft carriers sank burning into the dark depths of the Pacific Utilizing the latest research and detailed combat maps this book tells the dramatic story of the Japanese assault on Midway Island and the American ambush that changed the face of the Pacific war With sections on commanders opposing forces and a blow by blow account of the action this volume gives a complete understanding of the strategy the tactics and the human drama that made up the Midway campaign and its place as the turning point in the Pacific

war **The Coral Sea 1942** Mark Stille, 2012-06-20 A detailed account of the first check of Japanese naval expansion in the Pacific The Battle of the Coral Sea is unique in the annals of naval history It is the first battle in which enemy fleets never came within sight of one another Instead aircraft launched from carrier decks were sent out to attack the enemy with bombs and torpedoes In May of 1942 the Japanese fleet moved on Port Moresby the last Allied base between Australia and Japan Forced to respond the Americans sent two aircraft carriers to protect the base In the ensuing battle one American carrier was destroyed and the other severely damaged However the Japanese also lost a carrier and decided to withdraw Although bloody it proved to be an important strategic victory for the Allies as the Japanese were forced to attempt future attacks on Port Moresby over land Using updated research and numerous period photographs retired USN Commander Mark O Stille tells the story of this important and unique battle in the Pacific War *Santa Cruz 1942* Mark Stille, 2012-09-20 A highly illustrated account of the fourth major carrier battle of the war in the Pacific Despite myth the Japanese carrier force was not destroyed at Midway but survived to still prove a threat in the Pacific Theater Nowhere was this clearer than in the battle of Santa Cruz of October 1942 The stalemate on the ground in the Guadalcanal campaign led to the major naval forces of both belligerents becoming inexorably more and more involved in the fighting each seeking to win the major victory that would open the way for a breakthrough on land as well The Japanese were able to gain a tactical victory at Santa Cruz and came very close to scoring a strategic victory but they paid a very high price in aircraft and aircrew that prevented them from following up their victory In terms of their invaluable aircrew the battle was much more costly than even Midway and had a serious impact on the ability of the Japanese to carry out carrier warfare in a meaningful manner Illustrated richly throughout this volume examines the encounter at Santa Cruz and its significance **Flypast**, 2005 *US Navy Aircraft Carriers 1942-45* Mark Stille, 2007-02-27 Dominating the seas during World War II the US aircraft carrier played a crucial role in every major naval combat of the war Development of the Essex class began in 1941 and was the largest class of carrier ever built During the Pacific War it formed the backbone of any fighting force and became renowned for its mighty Sunday Punch the impressive offensive power of 36 fighter planes 36 dive bombers and 18 torpedo planes The Independence class was a lighter and faster carrier built after Pearl Harbor to bring more ships into action as quickly as possible Alongside the Essex class their crews saw a dramatic change in tactical deployment as they began to form the fast carrier task forces that were so effective in Pacific operations Featuring an annotated cutaway and artwork detailing both the interior and exterior features of the ships this book explores the design development and deployment of both the Essex and Independence class of light carriers This sequel to *US Navy Aircraft Carriers 1922-45* Prewar classes New Vanguard 114 provides a detailed exploration of the carriers that were at the forefront of many actions in World War II including the climatic battles of Phillipine Sea and Leyte Gulf in 1944 *US Destroyers 1934-45* Dave McComb, 2011-12-20 Since the beginning of the 20th century destroyers have been all purpose ships indispensable from delivering the mail at sea to screening other vessels and

where larger ships were not present forming the front line in battle This illustrated guide details the 169 ships of ten classes introduced in the 1930s early 1 500 tonners and 1 850 ton destroyer leaders designed to conform to the 1930 London Naval Treaty plus the successor 1 570 ton Sims class and 1 620 and 1 630 ton Benson and Gleaves classes In wartime most 1 500 tonners and leaders initially saw front line duty in the Pacific but were relegated to secondary assignments as newer vessels arrived while the later 1 620 and 1 630 tonners became the standard destroyers of the Atlantic War This volume reveals the fascinating design story behind these pioneering classes from the constraints of peacetime treaties to advances in propulsion engineering and wartime modifications With an operational overview of their service and tables listing all ships by class builder and initial squadron this is the definitive guide to the pre war US destroyer classes **US Flush-Deck Destroyers**

1916-45 Mark Lardas, 2018-08-28 Four pipes and flush decks these ships were a distinctively American destroyer design Devised immediately prior to and during the United States involvement in World War I they dominated the US Navy s destroyer forces all the way through to World War II They were deployed on North Atlantic and Norwegian Sea convoys and virtually everywhere in the Pacific from Alaska to Australia Fifty were given to Great Britain in its hour of need in 1940 and many would serve in other navies fighting under the Soviet Canadian Norwegian and even the Imperial Japanese flags They also served in a variety of roles becoming seaplane tenders high speed transports minesweepers and minelayers One was even used as a self propelled mine during Operation Chariot destroying the dry dock at St Nazaire Fully illustrated throughout with commissioned artwork and contemporary photographs this volume reveals the operational history of these US Navy ships that fought with distinction in both World Wars *Aircraft Carriers of the U.S. Navy* Stefan

Terzibaschitsch, 1980 **Cruisers of the US Navy, 1922-1962** Stefan Terzibaschitsch, 1984 To Assume the Offensive

Merriwether Hill Goodspeed, 1994 *Modern U. S. Navy Destroyers* Stephen F. Tomajczyk, 2001 Before the Aircraft

Carrier R. D. Layman, 1989 **American and British Aircraft Carrier Development, 1919-1941** Thomas Hone, Norman Friedman, Mark David Mandeles, 1999 Focusing on the critical years between the two world wars the authors trace the personal organizational and institutional elements that moved the U S and British navies along different paths of aircraft carrier development and operations In a direct almost conversational tone they draw on years of research to explain why and how the Royal Navy lost its once considerable lead in carrier doctrine and carrier aircraft development to the Americans d
