science There are few areas of social or cultural life that are not covered from painting art and music to the ethos of universalism and particularism These are terms which Sorokin introduced into the literature long before the rise of functional doctrines For all those interested in cultural and historical processes this volume provides the essence of Sorokin's remarkably prescient effort to achieve sociological transcendence by taking **Critiques of Research in the Social**

and from Abroad Virginia Whatley Smith, 2016-06-27 Contributions by Robert J Butler Ginevra Geraci Yoshinobu Hakutani Floyd W Hayes III Joseph Keith Toru Kiuchi John Lowe Sachi Nakachi Virginia Whatley Smith and John Zheng Critics in this volume reassess the prescient nature of Richard Wright's mind as well as his life and body of writings especially those directly concerned with America and its racial dynamics This edited collection offers new readings and understandings of the particular America that became Wright's focus at the beginning of his career and was still prominent in his mind at the end Virginia Whatley Smith's edited collection examines Wright's fixation with America at home and from abroad his oppression by rejection of conflict with revolts against and flight from America Other people have written on Wright's revolutionary heroes his difficulties with the FBI and his works as a postcolonial provocateur but none have focused singly on his treatment of America Wherever Wright traveled he always positioned himself as an African American as he compared his experiences to those at hand However as his domestic settlements changed to international residences Wright's craftsmanship changed as well To convey his cultural message Wright created characters themes and plots that would expose arbitrary and whimsical

American policies oppressive rules which would invariably ensnare Wright's protagonists and sink them more deeply into the quagmire of racial subjugation as they grasped for a fleeting moment of freedom Smith's collection brings to the fore new ways of looking at Wright particularly his post Native Son international writings Indeed no critical interrogations have considered the full significance of Wright's masterful crime fictions In addition the author's haiku poetry complements the fictional pieces addressed here reflecting Wright's attitude toward America as he near the end of his life searched for nirvana his antidote to American racism
