Written Texts And The Rise Of Literate Culture In Ancient Greece:

Written Texts and the Rise of Literate Culture in Ancient Greece Harvey Yunis, 2003-02-06 From the sixth through the fourth centuries BCE the landmark developments of Greek culture and the critical works of Greek thought and literature were accompanied by an explosive growth in the use of written texts By the close of the classical period a new culture of literacy and textuality had come into existence alongside the traditional practices of live oral discourse New avenues for human activity and creativity arose in this period The very creation of the classical and the perennial use of Greece by later European civilizations as a source of knowledge and inspiration would not have taken place without the textual innovations of the classical period This book considers how writing reading and disseminating texts led to new ways of thinking and new forms of expression and behaviour The individual chapters cover a range of phenomena including poetry science religions philosophy history law and learning

Visual and Written Culture in Ancient Egypt John Baines, 2007-05-17 A generously illustrated collection of John Baines s influential writings on the role of writing and the importance of visual culture in ancient Egypt Investigation of these key topics in a comparative study of early civilizations is pursued through a number of case studies and characterized by a radically interdisciplinary approach

Materia Philosophiae. Material Dimensions of Ancient Philosophy, 2025-11-06 Ever since Thales fell into the well popular imagination has pictured philosophers as abstracted from everyday reality Materia Philosophiae The Material Dimensions of Ancient Philosophy counters that view Philosophy in ancient Greece grew out of and remained closely connected to the material realities around it difficulties of travel reliance on cumbersome scrolls learning acquired literally at the foot of a master but also the spread of coinage contemporaneous achievements in technology and engineering and contact with everyday household objects By

resituating philosophers in their material contexts *Materia Philosophiae* opens research avenues that have not previously been explored in a single volume

Orality and Performance in Classical Attic Prose Alessandro Vatri, 2017-02-23 This study discusses the question of whether there is a linguistic difference between classical Attic prose texts intended for public oral delivery and those intended for written circulation and private performance Identifying such a difference which exclusively reflects these disparities in modes of reception has proven to be a difficult challenge for both literary scholars and cultural historians of the ancient world with answers not always satisfactory from a methodological and an analytical point of view The legitimacy of the question is first addressed through a definition of what such slippery notions as orality and oral performance mean in the context of classical Athens reconstruction of the situations in which the extant prose texts were meant to be received and an explanation of the grounds on which we may expect linguistic features of the texts to be related to such situations The idea that texts conceived for public delivery needed to be as clear as possible is substantiated by available cultural historical and anthropological facts however these do not imply that the opposite was required of texts conceived for private reception In establishing a rigorous methodology for the reconstruction of the native perception of clarity in the original contexts of textual reception this study offers a novel approach to assessing orality in classical Greek prose through examination of linguistic and grammatical features of style It builds upon the theoretical insights and current experimental findings of modern psycholinguistics providing scholars with a new key to the minds of ancient writers and audiences

Memory in a Time of Prose Daniel D. Pioske, 2018-08-15 *Memory in a Time of Prose* investigates a deceptively straightforward question what did the biblical scribes know about times previous to their own Daniel D Pioske attempts to answer this question by studying the sources limits and conditions of knowing that would have shaped biblical stories told about a past that preceded the composition of these writings by a generation or more This book is comprised of a series of case studies that compare biblical references to an early Iron Age world ca 1175 830 BCE with a wide range of archaeological and historical evidence from the era in which these stories are set Pioske examines the relationship between the past disclosed through these historical traces and the past represented within the biblical narrative He discovers that the knowledge available to the biblical scribes about this period derived predominantly from memory and word of mouth rather than from a corpus of older narrative documents For those Hebrew scribes who first set down these stories in prose writing the means for knowing a past and the significance attached to it were in short wed foremost to the faculty of remembrance *Memory in a Time of Prose* reveals how the past was preserved transformed or forgotten in the ancient world of oral living speech that informed biblical storytelling

Text as Revelation Hanna Tervanotko, Jonathan Stökl, 2023-12-28 *Text as Revelation* analyses the shift of revelatory experiences from oral to written that is described in ancient Jewish literature including rabbinic texts The individual essays seek to understand how why and for whom texts became the locus of revelation While the majority of the contributors analyze ancient Jewish literature for depictions of oral and written revelation such as

the Hebrew Bible and the literature of the Second Temple era a number of articles also investigate textualization of revelation in cognate cultures analyzing Egyptian Mesopotamian and Greek sources With subjects ranging from Ancient Egyptian and Sibylline oracles to Hellenistic writings and the books of Isaiah Deuteronomy and Jeremiah the studies in this volume bring together established and new voices reflecting on the issues raised by the interplay between writing and divinatory revelation

Texts, Transmissions, Receptions, 2014-10-16 The papers collected in this volume study the function and meaning of narrative texts from a variety of perspectives The word text is used here in the broadest sense of the term it denotes literary books but also oral tales speeches newspaper articles and comics One of the purposes of this volume is to discover what these different texts have in common The texts are approached from four main perspectives New Philology Linguistics Iconography and Reception studies Contributors come from diverse disciplines such as Classical Studies Medieval Studies English literature Philosophy Religious Studies Cultural Studies Art History Linguistics and Communication and Information Studies all united in a common purpose to understand the workings of narrative texts

A History of Ancient Greek Anastasios-Phoivos Christidēs, Maria Arapopoulou, Maria Chritē, 2007-01-11 Publisher description *The Politics of Orality* Craig Richard Cooper, 2007 This volume represents the sixth in the series on Orality and Literacy in the Ancient Greek and Roman Worlds The present work comprises a collection of essays that explore the tensions and controversies that arise as a society moves from an oral to literate culture Part 1 deals with both Homeric and other forms of epic part 2 explores different ways in which texts and writing were manipulated for political ends Part 3 and 4 deals with the controversies surrounding the adoption of writing as the accepted mode of communication whereas some segments of society began to privilege writing over oral communication others continued to maintain that the latter was superior Part 4 looks at the oral elements of Athenian Law

The Emergence of the Lyric Canon Theodora A. Hadjimichael, 2019 The Hellenistic period was an era of literary canons of privileged texts and collections One of the most stable of these consisted of the nine rarely ten lyric poets whether the selection was based on poetic quality popularity or the availability of texts in the Library of Alexandria the Lyric Canon offers a valuable and revealing window on the reception and survival of lyric in antiquity This volume explores the complexities inherent in the process by which lyric poetry was canonized and discusses questions connected with the textual transmission and preservation of lyric poems from the archaic period through to the Hellenistic era It firstly contextualizes lyric poetry geographically and then focuses on a broad range of sources that played a critical role in the survival of lyric poetry in particular comedy Plato Aristotle's Peripatetic school and the Hellenistic scholars to discuss the reception of the nine canonical lyric poets and their work By exploring the ways in which fifth and fourth century sources interpreted lyric material and the role they played both in the scholarly work of the Alexandrians and in the creation of what we conventionally call the Hellenistic Lyric Canon it elucidates what can be defined as the prevailing pattern in the transmission of lyric poetry as well as the place of Bacchylides as a puzzling exception to this norm The overall discussion

conclusively demonstrates that the canonizing process of the lyric poets was already at work from the fifth century BC and that it is reflected both in the evaluation of lyric by fourth century thinkers and in the activities of the Hellenistic scholars in the Library of Alexandria

Myth and Philosophy in Plato's Phaedrus Daniel S. Werner, 2012-07-09 Plato's dialogues frequently criticize traditional Greek myth yet Plato also integrates myth with his writing Daniel S. Werner confronts this paradox through an in-depth analysis of the Phaedrus Plato's most mythical dialogue Werner argues that the myths of the Phaedrus serve several complex functions they bring nonphilosophers into the philosophical life they offer a starting point for philosophical inquiry they unify the dialogue as a literary and dramatic whole they draw attention to the limits of language and the limits of knowledge and they allow Plato to co-opt cultural authority as a way of defining and legitimating the practice of philosophy Platonic myth as a species of traditional tale is thus both distinct from philosophical dialectic and similar to it Ultimately the most powerful effect of Platonic myth is the way in which it leads readers to participate in Plato's dialogues and to engage in a process of self-examination

The Layers of the Text Richard Hunter, 2021-10-25 This volume collects the most recent essays of Richard Hunter one of the world's leading experts in the field of Greek and Latin literature The essays range across all periods of ancient literature from Homer to late antiquity with a particular focus not just on the texts in their original contexts but also on how they were interpreted and exploited for both literary and more broadly cultural purposes later in antiquity Taken together the essays sketch a picture of a continuous tradition of critical and historical engagement with the literature of the past from the period of Aristophanes and then Plato and Aristotle in classical Athens to the rich prose literature of the Second Sophistic Richard Hunter's earlier essays are collected in *On Coming After* Berlin 2008

Animo Decipiendi? Antonio Guzmán, Javier Martínez, 2019-04-30 Many new and fruitful avenues of investigation open up when scholars consider forgery as a creative act rather than a crime We invited authors to contribute work without imposing any restrictions beyond a willingness to consider new approaches to the subject of ancient fakes forgeries and questions of authenticity The result is this volume in which our aim is to display some of the many possibilities available to scholarship Following *Splendide Mendax* this is the latest installment of an ongoing inquiry conducted by scholars in numerous countries into how the ancient world its literature and culture its history and art appears when viewed through the lens of fakes and forgeries sincerities and authenticities genuine signatures and pseudepigrapha

The Frontiers of Ancient Science Brooke Holmes, Klaus-Dietrich Fischer, 2015-03-30 Our understanding of science mathematics and medicine today can be deeply enriched by studying the historical roots of these areas of inquiry in the ancient Near East and Mediterranean The fields of ancient science and mathematics have in recent years witnessed remarkable growth The present volume brings together contributions from more than thirty of the most important scholars working in these fields in the United States and Europe in honor of the eminent historian of ancient science and medicine Heinrich von Staden Professor Emeritus of Classics and History of Science at the Institute of Advanced Study and William Lampson Professor

Emeritus of Classics and Comparative Literature at Yale University The papers range widely from Mesopotamia to Ancient Greece and Rome from the first millennium B C to the early medieval period and from mathematics to philosophy mechanics to medicine representing both a wide diversity of national traditions and the cutting edge of the international scholarly community

An Introduction Giulio Colesanti,Manuela Giordano,2014-08-27 This volume deals with the submerged literature of ancient Greece that is all the texts produced for socially relevant events that have contributed to the configuration and articulation of ancient Greek culture as we know it In particular the hermeneutic tool of submerged literature may shed new light on the dynamics behind the emersion or submersion of certain texts during different periods The category of submerged literature is extended here to include preserved and lost texts as well as those texts that can be reconstructed through investigation The volume investigates the manifold speech acts that we know of through various sources and that either from the outset or over the course of time have been placed at the edge of diffusion conservation and transmission The essays contained in the volume deal with questions of hermeneutics philology and methodology as well as with epic cycles lyric poetry tragedy comedy satyr drama and mime By approaching these genres from the perspective of submerged literature the book tries to provide a more precise contextualization of the texts within the communication system of ancient Greece The book thus presents a new line of research and a series of studies that take a fresh look at the texts and all archaeological and iconographic sources relating to Greek culture taking into account the results of ethnographic and anthropological research This extensive investigation examines unique ancient Greek orality and literacy dynamics using a new hermeneutic frame that will hopefully reshape our understanding of ancient Greek culture

Handbook of Research on Writing Charles Bazerman,2009-03-04 The Handbook of Research on Writing ventures to sum up inquiry over the last few decades on what we know about writing and the many ways we know it How do people write How do they learn to write and develop as writers Under what conditions and for what purposes do people write What resources and technologies do we use to write How did our current forms and practices of writing emerge within social history What impacts has writing had on society and the individual What does it mean to be and to learn to be an active participant in contemporary systems of meaning This cornerstone volume advances the field by aggregating the broad ranging interdisciplinary multidimensional strands of writing research and bringing them together into a common intellectual space Endeavoring to synthesize what has been learned about writing in all nations in recent decades it reflects a wide scope of international research activity with attention to writing at all levels of schooling and in all life situations Chapter authors all eminent researchers come from disciplines as diverse as anthropology archeology typography communication studies linguistics journalism sociology rhetoric composition law medicine education history and literacy studies The Handbook s 37 chapters are organized in five sections The History of Writing Writing in Society Writing in Schooling Writing and the Individual Writing as Text This volume in summing up what is known about writing deepens our experience and appreciation of writing in ways that will make teachers

better at teaching writing and all of its readers better as individual writers It will be interesting and useful to scholars and researchers of writing to anyone who teaches writing in any context at any level and to all those who are just curious about writing **Dynamic Future-Proofing** Alexander Manu,2021-02-18 Recognising that companies which respond to disruptions in the early stages of amplification can convert potentially existential threats into transformative opportunities this book shows us how good leadership intelligent informed opinion and rapid action in a time of change can help organizations not only to predict the future but create it **On Biblical Poetry** F.W.
