its potential for renewal in this compelling read Guardian UK We live in times of profound environmental change According
to a growing scientific consensus the dramatic results of man made climate change have ushered the world into a new
geological era the Anthropocene or Age of Man As an editor at Nature Gaia Vince couldn t help but wonder if the greatest
cause of this dramatic planetary change humans singular ability to adapt and innovate might also hold the key to our survival
To investigate this provocative question Vince travelled the world in search of ordinary people making extraordinary changes
to the way they live and in many cases finding new ways to thrive From Nepal to Patagonia and beyond Vince journeys into
mountains and deserts forests and farmlands to get an up close and personal view of our changing environment Part science
journal part travelogue Adventures in the Anthropocene recounts Vince s journey and introduces an essential new
