Tokyo 150 Projects ,2015 Global Tokyo Jiewon Song,2020-07-09 This book examines heritage led regeneration and decision making processes in Tokyo s urban centres of Nihonbashi and Marunouchi Detailing some of the city s most prominent and recent redevelopment projects Jiewon Song recognizes key institutions and actors their collective actions as placemakers and how they project the authenticity of urban places in planning processes Song argues that heritage led regeneration tends to monopolize authenticity by weakening the visibility of other cultural and historic qualities in urban places Authenticity consequently turns into a singular entity leading to the homogenization of urban places As cities increasingly seek authenticity in the urban age nation states initiate top down processes to achieve such ends interweaving nationalism and national narratives into placemaking practices In this fashion Song challenges existing scholarship on urban conservation global cities and the notion of authenticity **Architectural Research Addressing Societal Challenges**
