Tochukwu Omenma, Ike E. Onyishi, Aloysius-Michaels Okolie, 2023-01-27. This book provides a contemporary overview of Boko Haram's activities. Since Boko Haram emerged in 2002, media-driven narratives as well as social scientific methodologies have been increasingly applied to draw generalisable conclusions on what goals the groups have pursued, what strategies it has used for these purposes, and the counter-campaign strategies authorities have pursued. But from 2009 to 2018, Boko Haram has pursued high-intensity violence: assassinations, bombing, kidnappings, beheading, or threats of violence, conscriptions, and territorial occupation. This makes it imperative to deepen and broaden our understanding of the group's activities toward a problem-solving and policy-relevant analysis. Managing Violent Religious Extremism in Fragile States Abosede Omowumi Babatunde, Mahfouz A. Adedimeji, Shittu Raji, Jacinta Mwende

Maweu, John Mwangi Githigaro, 2021-09-30 This book examines how African states can build the institutional capacity to better prevent, manage and cope with the new security challenges posed by violent religious extremism. Despite the evidence that violent religious extremism is exacerbated by underlying social, political, economic and governance factors, many states have focused their efforts only on reactive and coercive response strategies, overlooking more long-term measures. This comparative study of Nigeria and Kenya reflects on why insurgency in Kenya has not escalated to full-blown terrorism as it has with Boko Haram in Nigeria, in spite of the similarities in relatively weak institutions of governance and colonial legacies across the two countries. The book interrogates the policy and institutional responses that have been put in place in both countries to address security challenges and the extent of their efficacy in light of the intricate networks of politics, governance, corruption, poverty and violence, and the relative fragility of state institutions. The authors highlight the areas of convergence and divergence in institutional capacities and recommend policies to enhance the capacity of institutions to manage violent religious extremism. This book will be of interest to scholars of African Politics, Security, Peace Studies and Terrorism.

Violence in Nigeria Marc-Antoine Pérouse de Montclos, 2016 Most of the academic literature on violence in Nigeria is qualitative. It rarely relies on quantitative data because police crime statistics are not reliable or not available or not even published. Moreover, the training of Nigerian social scientists often focuses on qualitative cultural and political issues. There is thus a need to bridge the qualitative and quantitative approaches of conflict studies. This book represents an innovation and fills a gap in this regard. It is the first to introduce a discussion on such issues in a coherent manner, relying on a database that fills the lacunae in data from the security forces. The authors underline the necessity of a trend analysis to decipher the patterns and the complexity of violence in very different fields, from oil production to cattle breeding, radical Islam to motor accidents, land conflicts to witchcraft and so on. In addition, they argue for empirical investigation and a complementary approach using both qualitative and quantitative data. The book is therefore organized into two parts, with a focus first on statistical studies, then on fieldwork.

Confronting the Terrorism of Boko Haram in Nigeria James Forest, Joint Special Operations University Press, 2019-05-16 In this monograph, counterterrorism expert James Forest assesses the threat Boko Haram poses to Nigeria and U.S. national security interests. As Dr. Forest notes, Boko Haram is largely a local phenomenon, though one with strategic implications and must be understood and addressed within its local context and the long-standing grievances that motivate terrorist activity. Dr. Forest deftly explores Nigeria's ethnic fissures and the role of unequal distribution of power in fueling terrorism. Indeed, these conditions combined with the ready availability of weapons contribute to Nigeria's other security challenges, including militancy in the Niger Delta and organized crime around the economic center of the country, Lagos.
