Art and Violence in Early Renaissance Florence Scott Nethersole, 2018-07-17 This study is the first to examine the relationship between art and violence in 15th century Florence exposing the underbelly of a period more often celebrated for enlightened and progressive ideas Renaissance Florentines were constantly subjected to the sight of violence whether in carefully staged rituals of execution or images of the suffering inflicted on Christ There was nothing new in this culture of pain unlike the aesthetic of violence that developed towards the end of the 15th century It emerged in the work of artists such as Piero di Cosimo Bertoldo di Giovanni Antonio del Pollaiuolo and the young Michelangelo Inspired by the art of antiquity they painted engraved and sculpted images of deadly battles ultimately normalizing representations of brutal violence Drawing on work in social and literary history as well as art history Scott Nethersole sheds light on the relationship between these Renaissance images violence and ideas of artistic invention and authorship **A Companion to**

Anticlassicisms in the Cinquecento Marc Föcking, Susanne A. Friede, Florian Mehltritt, Angela Oster, 2023-03-06 Anticlassicisms as a plural react to the many possible forms of classicisms In the sixteenth century classicist tendencies range from humanist traditions focusing on Horace and the teachings of rhetoric via Pietro Bembo's canonization of a second antiquity in the works of the fourteenth century classics Petrarch and Boccaccio to the Aristotelianism of the second half of the century Correspondingly the various tendencies to destabilize or to subvert or contradict these manifold and historically dynamic classicisms need to be distinguished as so many anticlassicisms This volume after discussing the history and possible implications of the label anticlassicism in Renaissance studies differentiates and analyzes these anticlassicisms It distinguishes the various forms of opposition to classicisms as to their scope on a scale between radical poetological dissension to merely sectorial opposition in a given literary genre and to their alternative models be they authors like Dante or texts At the same time the various chapters specify the degree of difference or erosion inherent in anticlassicist tendencies with respect to their classicist counterparts ranging from implicit system disturbances to open intended antagonism as in Bernese poetry with a view to establishing an overall picture of this field of phenomena for the first time Restoration as Fabrication of Origins Henri de Riedmatten, Fabio Gaffo, Mathilde Jaccard, 2023-07-24 The aim of this publication is to clarify the relationships between material restoration and politics in Italian Renaissance art The focus of this research is on the question of origin as a foothold for political patrimonial and cultural identity These claims were enacted within a system which rather than restoring the initial forms and meanings of existing objects remodeled the past according to new identity requirements spaces were reorganized and works of art invested with new meanings Their material and aesthetic reality was thus transformed and redefined The aim is therefore to analyze the potential physical modifications of these artefacts in light of their symbolic recoding With contributions by Kathleen W Christian Caroline S Hillard Mateusz Kapustka J r mie Koering Victor Lopes Florian M tral Arnold Nesselrath Neville Rowley Beat Wyss Restoration practices in Italian Renaissance art

Reassessing the concept of Renaissance Recoding of ancient works for political purposes **Benvenuto Cellini and the Embodiment of the Modern Artist** Andreas Beyer, 2025-05-13 A clear eyed reconsideration of a scandalous Renaissance sculptor s autobiography and art Benvenuto Cellini was a murderer thief lover of all genders rival of popes and princes as well as an ingenious artist In his legendary autobiography the Vita Cellini describes his activities vividly and in lurid detail Many of the most disturbing passages have been dismissed as fiction but in this clear eyed portrayal Andreas Beyer argues that these sensational accounts of the body sex and extreme experiences are not only entertaining but historically authentic The stories reveal the depth of Cellini s character an artist who embraced life and shattered boundaries Ultimately this book discovers the roots of modern art s fascination with the autonomous artist deep within Cellini s audacious life and work

Plackinger, 2015-12-14 In Michelangelos Werk seinem Künstlermythos und seiner Nachfolge ist Gewalt omnipräsent als Bildthema wie als Erzählmotiv zur Veranschaulichung von Kreationen und Rezeptionsprozessen. Ausgehend von der Semantik des Begriffs *Violenza* im Sprachgebrauch des 16. Jahrhunderts legt diese Arbeit Gewalt als zentrale Kategorie des michelangelischen Kunstdiskurses frei, die es ermöglichte Aspekte wie Kraft, Zerstörung und kalkulierte Regelverstöße konzeptuell fassbar zu machen. Anhand zahlreicher Werk- und Textanalysen wird die Gewaltaffinität von Michelangelo sprichwörtlicher *Terribilità* ebenso beleuchtet wie die kunsttheoretischen Vorstellungen von gewaltsamer künstlerischer Agency im Umfeld des legendären Ausnahmekünstlers.
