The Suppression of Truth in the United States and the World Martin K. Ettington, In today's world we live in a culture of truth suppression This is true in representative democracies like the United States as well as full totalitarian dictatorships like Communist China This book covers many areas of major lies like Global Warming perverted doctrines taught in schools Politics News Suppression Communist China limitations in Spirituality deficit spending and problems with globalism There are many different types of truth suppression and as much as we would like to think that we live in an advanced culture and world this effort by different entities to suppress truth affects our lives negatively in many ways The most direct effect is that we live in fear of the future of our world which is a big lie This suppression also keeps us from fully realizing our spiritual natures and that we do have the ability to accomplish amazing things when we live with full honesty in our lives I believe that individuals are closest to a state of happiness when they live their lives in truth See my book A New Paradigm of Truth and Happiness for more information There are actions we can take to correct this situation but they are mass actions which need many persons involved to have a real effect A list of these actions are given later in this book
