Visual Studio Beginners Lewis Edwards:

Reconstructing Modernism Ashley Maher, 2020-03-12 *Reconstructing Modernism* establishes for the first time the centrality of modernist buildings and architectural periodicals to British mid century literature Drawing upon a wealth of previously unexplored architectural criticism by British authors this book reveals how arguments about architecture led to innovations in literature as well as to redesigns in the concept of modernism itself While the city has long been a focus of literary modernist studies architectural modernism has never had its due Scholars usually characterize architectural modernism as a parallel modernism or even an incompatible modernism to literature Giving special attention to dystopian classics *Brave New World* and *Nineteen Eighty Four* this study argues that sustained attention to modern architecture shaped mid century authors political and aesthetic commitments After many writers deemed modernist architects to be agents for communism and other collectivist movements they squared themselves and literary modernist detachment and aesthetic autonomy against the seemingly tyrannical utopianism of modern architecture literary aesthetic qualities were reclaimed as political qualities In this way *Reconstructing Modernism* redraws the boundaries of literary modernist studies rather than simply adding to its canon it argues that the responsibility for defining literary modernism for the mid century public was shared by an incredible variety of authors Edwardians modernists satirists and even anti modernists [Basic Graphic Design](#) Robert Charles Smith, 1986 **Catalog of Copyright Entries** Library of Congress.
