Viva Las Vegas After Hours Architecture:

Viva Las Vegas Alan Hess, 1993-07 As eccentric and entertaining as its subject matter Viva Las Vegas examines the architectural and historical evolution of America's original strip city from its modest origins as a sleepy roadside stop to the neon splendor of its extravagant theme hotels Illustrated with fascinating contemporary and archival photographs this inviting informative volume offers an intriguing look into the kitsch and complexities of a unique and provocative City

Time Out Las Vegas Editors of Time Out, 2012-07-13 Time Out Las Vegas is the only crib sheet travelers need to the world's most outlandish city Whether going for a short or extended visit this guide is an invaluable companion through the neon maze that awaits in Las Vegas With the lowdown on all the hotels and casinos money saving tips extensive restaurant reviews hints on the hottest nightlife and a full guide to gambling it leaves nothing to chance This seventh edition proves that there is more to Sin City than just sequins and slots the dramatic expansion in hotel accommodations fine dining and shopping is attracting tourists from every economic strata not just those with gambling as their sole agenda The guide contains a detailed explanation of what games are available in the casinos as well as tips on how to play them There is also a chapter on suggested side trips to Hoover Dam as well as other sights in Nevada and Arizona **Zeropolis** Bruce Bégout, 2003 Part of the Topographics series Bruce Bégout's study presents a detailed and philosophical portrait of Las Vegas

Consuming People Nikhilesh Dholakia, A. Fuat Firat, 2003-12-16 This revealing book provides an incisive treatment of consumption on a global scale from a cultural philosophical and business perspective It is an original and radical analysis structured in a multi disciplinary and progressive way **Space, Place and Territory** Fabio Duarte, 2017-01-12 Space place and territory are concepts that lie at the core of geography and urban planning environmental studies and sociology Although space place and territory are indeed polysemic and polemic they have particular characteristics that distinguish them from each other They are interdependent but not interchangeable and the differences between them explain how we simultaneously perceive conceive and design multiple spatialities After drawing the conceptual framework of space place and territory the book initially explores how we sense space in the most visceral ways and how the overlay of meanings attached to the sensorial characteristics of space change the way we perceive it smell spatial experiences using electroencephalography and the changing meaning of darkness are discussed The book continues exploring cartographic mapping not as a final outcome but rather as an epistemological tool an instrument of inquiry It follows on how particular ideas of space place and territory are embedded in specific urban proposals from Brasilia to the Berlin Wall airports and infiltration of digital technologies in our daily life The book concludes by focusing on spatial practices that challenge the status quo of how we perceive and understand urban spaces from famous artists to anonymous interventions by traceurs and hackers of urban technologies Combining space place and territory as distinctive but interdependent concepts into an epistemological matrix may help us to understand contemporary phenomena and live them critically *The Motel in America* John A. Jakle, Keith A.

Sculle, Jefferson S. Rogers, 1996 In the second volume of the acclaimed Gas Food Lodging trilogy authors John Jakle Keith Sculle and Jefferson Rogers take an informative entertaining and comprehensive look at the history of the motel From the introduction of roadside tent camps and motor cabins in the 1910s to the wonderfully kitschy motels of the 1950s that line older roads and today s comfortable but anonymous chains that lure drivers off the interstate Americans and their cars have found places to stay on their travels Motels were more than just places to sleep however They were the places where many Americans saw their first color television used their first coffee maker and walked on their first shag carpet Illustrated with more than 230 photographs postcards maps and drawings *The Motel in America* details the development of the motel as a commercial enterprise its imaginative architectural expressions and its evolution within the place product packaging concept along America s highways As an integral part of America s landscape and culture the motel finally receives the in depth attention it deserves

Rat Pack Confidential Shawn Levy, 1999-09-17 For the first time the full story of what happened when Frank brought his best pals to party in a land called Vegas January 1960 Las Vegas is at its smooth cool peak The Strip is a jet age theme park and the greatest singer in the history of American popular music summons a group of friends there to make a movie One is an insouciant singer of Italian

songs ex partner to the most popular film comedian of the day One is a short black Jewish one eyed singing dancing wonder One is an upper crust British pretty boy turned degenerate B movie star actor brother in law to an ascendant politician And one is a stiff shouldered comic with the quintessential Borscht Belt emcee s knack for needling one liners The architectonically sleek marquee of the Sands Hotel announces their presence simply by listing their names FRANK SINATRA DEAN MARTIN SAMMY DAVIS JR PETER LAWFORD JOEY BISHOP Around them an entire cast gathers actors comics singers songwriters gangsters politicians and women as well as thousands of starstruck everyday folks who fork over pocketfuls of money for the privilege of basking in their presence They call themselves The Clan But to an awed world they are known as The Rat Pack They had it all Fame Gorgeous women A fabulouse playground of a city and all the money in the world The backing of fearsome crime lords and the blessing of the President of the United States But the dark side over the thin line between pleasure and debauchery between swinging self confidence and brutal arrogance took its toll In four years their great ride was over and showbiz was never the same Acclaimed Jerry Lewis biographer Shawn Levy has written a dazzling portrait of a time when neon brightness cast sordid shadows It was Frank s World and we just lived in it

Memphis tells about the late singer s life and personality Marketing Apocalypse Jim Bell, Stephen Brown, David Carson, 2003-09-02 The present volume of essays examines the extent to which the end of marketing is nigh The authors explore the present state of marketing scholarship and put forward a variety of visions of marketing in the twenty first century Ranging from narratology to feminism these suggestions are always enlightening often provocative and occasionally outrageous Marketing Apocalypse is required reading for anyone interested in the future of marketing **Addiction by Design** Natasha Dow Schüll, 2025-11-11 An anthropologist traces the intimate connections between gambling addiction and casino industry design tactics Recent decades have seen a dramatic shift away from social forms of gambling played around roulette wheels and card tables to solitary gambling at electronic terminals Slot machines revamped by ever more compelling digital and video technology have unseated traditional casino games as the gambling industry s revenue mainstay Addiction

by Design takes readers into the intriguing world of machine gambling an increasingly popular and absorbing form of play that blurs the line between human and machine compulsion and control risk and reward Drawing on fifteen years of field research in Las Vegas anthropologist Natasha Dow Schill shows how the mechanical rhythm of electronic gambling pulls players into a trancelike state they call the machine zone in which daily worries social demands and even bodily awareness fade away Once in the zone gambling addicts play not to win but simply to keep playing for as long as possible even at the cost of physical and economic exhaustion In continuous machine play gamblers seek to lose themselves while the gambling industry seeks profit Schill describes the strategic calculations behind game algorithms and machine ergonomics casino architecture and ambience management player tracking and cash access systems all designed to meet the market's desire for maximum time on device Her account moves from casino floors into gamblers everyday lives from gambling industry conventions and Gamblers Anonymous meetings to regulatory debates over whether addiction to gambling machines stems from the consumer the product or the interplay between the two Addiction by Design is a compelling inquiry into the intensifying traffic between people and machines of chance offering clues to some of the broader anxieties and predicaments of contemporary life

Sculle, 2006-08-22 Signs orient inform persuade and regulate They help give meaning to our natural and human built environment to landscape and place In Signs in America's Auto Age cultural geographer John Jakle and historian Keith Sculle explore the ways in which we take meaning from outdoor signs and assign meaning to our surroundings the ways we read landscape With an emphasis on how the use of signs changed as the nation's geography reorganized around the coming of the automobile Jakle and Sculle consider the vast array of signs that have evolved since the beginning of the twentieth century

Flickering Light Christoph Ribbat, 2013-07-15 Without neon Las Vegas might still be a sleepy desert town in Nevada and Times Square merely another busy intersection in New York City Transformed by the installation of these brightly colored signs these destinations

are now world famous representing the vibrant heart of popular culture But for some neon lighting represents the worst of commercialism Energized by the conflicting love and hatred people have for neon Flickering Light explores its technological and intellectual history from the discovery of the noble gas in late nineteenth century London to its fading popularity today Christoph Ribbat follows writers artists and musicians from cultural critic Theodor Adorno British rock band the Verve and artist Tracey Emin to Vladimir Nabokov Langston Hughes and American country singers through the neon cities in Europe America and Asia demonstrating how they turned these blinking lights and letters into metaphors of the modern era He examines how gifted craftsmen carefully sculpted neon advertisements introducing elegance to modern metropolises during neon s heyday between the wars followed by its subsequent popularity in Las Vegas during the 1950s and 60s Ribbat ends with a melancholy discussion of neon s decline describing how these glowing signs and installations came to be seen as dated and characteristic of run down neighborhoods From elaborate neon lighting displays to neglected diner signs with unlit letters Flickering Light tells the engrossing story of how a glowing tube of gas took over the world and faded almost as quickly as it arrived
