untiring rapidity of its movements its surprising power of locomotion and the peculiar life with which it seemed endowed If it was a whale it surpassed in size all those hitherto classified in science Taking into consideration the mean of observations made at divers times rejecting the timid estimate of those who assigned to this object a length of two hundred feet equally with the exaggerated opinions which set it down as a mile in width and three in length we might fairly conclude that this mysterious being surpassed greatly all dimensions admitted by the learned ones of the day if it existed at all And that it DID exist was an undeniable fact and with that tendency which disposes the human mind in favour of the marvellous we can understand the excitement produced in the entire world by this supernatural apparition As to classing it in the list of fables the idea was out of the question On the 20th of July 1866 the steamer Governor Higginson of the Calcutta and Burnach Steam Navigation Company had met this moving mass five miles off the east coast of Australia Captain Baker thought at first that he was in the presence of an unknown sandbank he even prepared to determine its exact position when two columns of water projected by the mysterious object shot with a hissing noise a hundred and fifty feet up into the air Now unless the sandbank had been submitted to the intermittent eruption of a geyser the Governor Higginson had to do neither more nor less than with an aquatic mammal unknown till then which threw up from its blow holes columns of water mixed with air and vapour Similar facts were observed on the 23rd of July in the same year in the Pacific Ocean by the Columbus of the West India and Pacific Steam Navigation Company But this extraordinary creature could transport itself from one place to another with surprising velocity as in an interval of three days the Governor Higginson and the Columbus had observed it at two different points of the chart separated by a distance of more than seven hundred nautical leagues 20,000 Leagues Under the Sea Annotated Jules Verne,2020-11-07 Twenty Thousand Leagues Under the Sea French Vingt mille lieues sous les mers is a classic science fiction novel by French writer Jules Verne published in 1870 It is about the fictional Captain Nemo and his submarine Nautilus as seen by one of his passengers Professor Pierre Aronnax Twenty Thousand Leagues Under the Sea (Illustrated) Jules Verne,2019-02-27 Twenty Thousand Leagues Under the Seas A Tour of the Underwater World French Vingt mille lieues sous les mers Tour du monde sous marin Twenty Thousand Leagues Under the Seas A Tour of the Underwater World is a classic science fiction adventure novel by French writer Jules Verne published in 1870 The novel was originally serialized from March 1869 through June 1870 in Pierre Jules Hetzel s periodical the Magasin d ducation et de R cr ation The deluxe illustrated edition published by Hetzel in November 1871 included 111 illustrations by Alphonse de Neuville and douard Riou 1 The book was highly acclaimed when it was released and still is it is regarded as one of the premiere adventure novels and one of Verne s greatest works along with Around the World in Eighty Days and Journey to the Center of the Earth The description of Nemo s ship the Nautilus was considered ahead of its time as it accurately describes features on submarines which at the time were very primitive vessels *Spatial Boundaries, Abounding Spaces* Mohit Chandna,2021-06-30 Colonialism advanced its project of territorial expansion by changing the very meaning of borders and

space The colonial project scripted a unipolar spatial discourse that saw the colonies as an extension of European borders In his monograph Mohit Chandna engages with narrations of spatial conflicts in French and Francophone literature and film from the nineteenth to the early twenty first century In literary works by Jules Verne Ananda Devi and Patrick Chamoiseau and film by Michael Haneke Chandna analyzes the depiction of ever changing borders and spatial grammar within the colonial project In so doing he also examines the ongoing resistance to the spatial legacies of colonial practices that act as omnipresent enforcers of colonial borders Literature and film become sites that register colonial spatial paradigms and advance competing narratives that fracture the dominance of these borders Through its analyses *Spatial Boundaries Abounding Spaces* shows that colonialism is not a finished project relegated to our past Colonialism is present in the here and now and exercises its power through the borders that define us
