students **Feminist Art in Resistance** Elif Dastarlı, F. Melis Cin, 2023-02-11 This book provides a thorough interdisciplinary analysis of the ways in which artists have engaged with political and feminist grassroots movements to characterise a new direction in the production of feminist art. The authors conceptualise feminist art in Turkey through the lens of feminist philosophy by offering a historical analysis of how feminism and art interact, analysing emerging feminist artwork and exploring the ways in which feminist art as a form opens alternative political spaces of social collectivities and dissent to address epistemic injustices. The book also explores how the global art and feminist movements, particularly in Europe, have manifested themselves in the art scenery of Turkey and argues that feminist art has transformed into a form of political and protest art which challenges the hegemonic masculinity dominating the aesthetic debates and political sphere. It is an invaluable reading for students and scholars of sociology of art, gender studies and political sociology.

The Handbook of Visual Culture Ian Heywood, Barry Sandywell, 2017-04-20 Visual culture has become one of the most dynamic fields of scholarship, a reflection of how the study of human culture increasingly requires distinctively visual ways of thinking and methods of analysis. Bringing together leading international scholars to assess all aspects of visual culture, the Handbook aims to provide a comprehensive and authoritative overview of the subject. The Handbook embraces the extraordinary range of disciplines which now engage in the study of the visual: film and photography, television, fashion, visual arts, digital media, geography, philosophy, architecture, material culture, sociology, cultural studies and art history. Throughout the Handbook is responsive to the cross-disciplinary nature of many of the key questions raised in visual culture around digitization, globalization, cyberculture, surveillance, spectacle and the role of art. The Handbook guides readers new to the area as well as experienced researchers into the topics, issues and questions that have emerged in the study of visual culture since the start of the new millennium, conveying the boldness, excitement and vitality of the subject.

Didi-Huberman and the image Chari Larsson, 2020-09-29 Philosopher and art historian Georges Didi Huberman is one of the most innovative and influential critical thinkers writing today. This book is the first English language study of his writing on images. An image is a form of representation, but what are the philosophical frameworks supporting it? The book considers how Didi Huberman takes up this question repeatedly over the course of his career. Placing his project in relation to major historical and intellectual contexts, it shows not only how he modifies dominant disciplinary traditions but also how the study of images is central to a new way of thinking about poststructuralist-inspired art history.

Mormon Visual Culture and the American West Nathan Rees, 2021-03-17 This book explores the place of art in Latter-day Saint society during the first 50 years of the Utah settlement, beginning in 1847. Nathan Rees uncovers the critical role that images played in nineteenth-century Mormon religion, politics and social practice. These artists not only represented but actively participated in debates about theology, politics, race, gender and sexuality at a time when Latter-day Saints were grappling with evolving doctrine, conflict with Native Americans and political turmoil resulting from their practice of polygamy.
