Situated at the crossroads of visual culture and consumerism this essay collection examines visual merchandising as both a business and an art It seeks to challenge that scholarly ambivalence that often celebrates the spectacle but denies the agenda of consumerism The volume considers strategies in the imaging of selling from the mid nineteenth century to the present in terms of the visual interaction that occurs between the commodity and the consumer and between body and space Under the categories of Promotion Product and Place contributors to the volume examine the strategies in the presentation of retail goods and environments that range from print advertising to product design to store display and architecture Visual Merchandising The Image of Selling is located directly at the nexus of business practice and cultural myth where the spectator never loses sight of their status as buyer and the object of desire is always still a commodity **Point of Sale**

Daniel Herbert,Derek Johnson,2019-12-13 **Point of Sale** offers the first significant attempt to center media retail as a vital component in the study of popular culture It brings together fifteen essays by top media scholars with their fingers on the pulse of both the changes that foreground retail in a digital age and the history that has made retail a fundamental part of the culture industries The book reveals why retail matters as a site of transactional significance to industries as well as a crucial locus of meaning and interactional participation for consumers In addition to examining how industries connect books DVDs video games lifestyle products toys and more to consumers it also interrogates the changes in media circulation driven by the collision of digital platforms with existing retail institutions By grappling with the contexts in which we buy media **Point of Sale** uncovers the underlying tensions that define the contemporary culture industries **One Nation Under**

Goods James J. Farrell,2014-07-15 Loved and hated visited and avoided seemingly everywhere yet endlessly the same malls occupy a special place in American life What then is this invention that evokes such strong and contradictory emotions in Americans In many ways malls represent the apotheosis of American consumerism and this synthetic and wide ranging investigation is an eye popping tour of American culture s values and beliefs Like your favorite mall **One Nation under Goods** is a browser s paradise and in order to understand America s culture of consumption you need to make a trip to the mall with Farrell This lively fast paced history of the hidden secrets of the shopping mall explains how retail designers make shopping

and goods irresistible Architects chain stores and mall owners relax and beguile us into shopping through water fountains ficus trees mirrors and covert security cameras From food courts and fountains to Santa and security Farrell explains how malls control their patrons and convince us that shopping is always an enjoyable activity And most importantly One Nation Under Goods shows why the mall s ultimate promise of happiness through consumption is largely an illusion It s all here for one low price of course
