Behind the Kitchen Door Saru Jayaraman,2013-01-23 When you work in restaurants you think the industry is everything It s being outside talking to people serving people You feel like you re part of something good People mostly go out to eat for good stuff proposals weddings birthdays not to fight You re part of someone s proposal you bring the ring in an ice cream cake you watch her reaction You feel like you re part of their experience their special moment even if the people don t care who you are you re just the server Sustainability is about contributing to a society that everybody benefits from not just going organic because you don t want to die from cancer or have a difficult pregnancy What is a sustainable restaurant It s one in which as the restaurant grows the people grow with it How do restaurant workers live on some of the lowest wages in America And how do poor working conditions discriminatory labor practices exploitation and unsanitary kitchens affect the meals that arrive at our restaurant tables Saru Jayaraman who launched the national restaurant workers organization Restaurant Opportunities Centers United sets out to answer these questions by following the lives of restaurant
