When Doctors Kill When Doctors Kill:

When Doctors Kill Joshua A. Perper, Stephen J. Cina, 2010-06-14 It would come as no surprise that many readers may be shocked and intrigued by the title of our book Some especially our medical colleagues may wonder why it is even worthwhile to raise the issue of killing by doctors Killing is clearly an ethical to the Art and Science of Medicine which is geared toward easing pain and suffering and to saving lives rather than smothering them Doctors should be a source of comfort rather than a cause for alarm Nevertheless although they often don't want to admit it doctors are people too Physicians have the same genetic library of both endearing qualities and character defects as the rest of us but their vocation places them in a position to intimately interject themselves into the lives of other people In most cases fortunately the positive traits are dominant and doctors do more good than harm While physicists and mathematicians paved the road to the stars and deciphered the mysteries of the atom they simultaneously unleashed destructive powers that may one day bring about the annihilation of our planet Concurrently doctors and allied scientists have delved into the deep secrets of the body and mind mastering the anatomy and physiology of the human body even mapping the very molecules that make us who we are But make no mistake a person is not simply an elegant biological machine to be marveled at then dissected **Doctors Killed George**

We Wish to Inform You That Tomorrow We Will Be Killed with Our Families Philip Gourevitch, 1999-09-04 *We Wish to Inform You That Tomorrow We Will Be Killed with Our Families* is the winner of the National Book Critics Circle Award for Nonfiction An unforgettable firsthand account of a people's response to genocide and what it tells us about humanity This remarkable debut book from Philip Gourevitch chronicles what has happened in Rwanda and neighboring states since 1994 when the Rwandan government called on everyone in the Hutu majority to murder everyone in the Tutsi minority Though the killing was low tech largely by machete it was carried out at shocking speed some 800 000 people were exterminated in a

hundred days A Tutsi pastor in a letter to his church president a Hutu used the chilling phrase that gives Gourevitch his title With keen dramatic intensity Gourevitch frames the genesis and horror of Rwanda's genocidal logic in the anguish of its aftermath the mass displacements the temptations of revenge and the quest for justice the impossibly crowded prisons and refugee camps Through intimate portraits of Rwandans in all walks of life he focuses on the psychological and political challenges of survival and on how the new leaders of postcolonial Africa went to war in the Congo when resurgent genocidal forces threatened to overrun central Africa Can a country composed largely of perpetrators and victims create a cohesive national society This moving contribution to the literature of witness tells us much about the struggle everywhere to forge sane habitable political orders and about the stubbornness of the human spirit in a world of extremity *DYING TO KILL* Kieran Beville, 2014-11-26 This is a comprehensive study of euthanasia and assisted suicide It traces the historical debate examines the legal status of such activity in different countries and explores the political medical and moral matters surrounding these emotive and controversial subjects in various cultural contexts The key advocates and pioneers of this agenda driven movement such as the late Jack Kevorkian popularly known as Dr Death and Philip Nitschke founder of Exit International are profiled Not only are the elderly and disabled becoming increasingly vulnerable but children psychiatric patients the depressed and those who are simply tired of life are now on a slippery slope into a dystopian nightmare The spotlight is brought to bear on the Netherlands in particular where palliative care and the hospice movement are greatly underdeveloped as a result of legalization These dubious services are now offered as part of normal medical care in Holland where it is deemed more cost effective to be given a lethal injection The vital role of physicians as healers in society must be preserved and the important but neglected spiritual dimension of death must be explored Thus a biblical view of human life is presented Death and bereavement are universal phenomena and people of all faiths and those of none have a legitimate right to comment However the historic Christian tradition is struggling to be heard in the clamor for personal autonomy and civil liberties in a multi cultural society that is becoming increasingly secular This work provides an ethical framework in which euthanasia and assisted suicide can be evaluated These issues are on the radar indicating a collision course with Christian values It is time for Christians to be alert and to present the case that these are not satisfactory solutions to legitimate end of life concerns Dworkin and His Critics Justine Burley, 2008-04-15 Dworkin and His Critics provides an in depth analytical discussion of Ronald Dworkin's ethical legal and political philosophical writings and it includes substantial replies from Dworkin himself Includes substantial replies by Ronald Dworkin a comprehensive bibliography of his work and suggestions for further reading Contributors include Richard Arneson G A Cohen Frances Kamm Will Kymlicka Philippe van Parijs Eric Rakowski Joseph Raz and Jeremy Waldron Makes an important contribution to many on going debates over abortion euthanasia the rule of law distributive justice group rights political obligation and genetics **Northwest Anthropological Research Notes** Roderick Sprague, Deward E.
