When God Was Black God In Ancient Civilizations:

When God Was Black John Brinson, 2007-03 Man Know Thyself Did you know that the Gods and Goddesses of ancient Ethiopia Egypt Middle East India and Asia were Black What is God What color is God What is the substance of God Does it matter what color God is Are the images and symbols of a White God death to us What is the Self What does Self and God share in common How is God Self and Ancestors related To know the Self involves knowing God We must obtain knowledge of Self The Self is the life force and it is not an isolated event captured within an impenetrable physical body The Self is rather an extensive spiritual entity that permeates each of us and back to our first ancestors The circle of Self that unites us with one another to our ancestors and God has been disconnected consequently we have become estranged from our essence God We must find continuity again The information and suggestions in this book are intended to motivate and point out one of the roads Black people can travel towards becoming what God intended them to be that is unique and personal manifestations of God in this splintered and oppressive world

When the World was Black Part Two Supreme understanding, 2013-02-02 When the World Was Black The Untold History of the World's First Civilizations Volume Two of The Science of Self series has been published in TWO parts Why two Because there are far too many stories that remain untold We had over 200 000 years of Black history to tell from the southern tip of Chile to the northernmost isles of Europe and you can't do that justice in a 300 page book So there are two parts each consisting of 360 pages of groundbreaking history digging deep into the story of all the world's original people Part One covers the Black origins of all the world's oldest cultures and societies spanning more than 200 000 years of human history Part Two tells the stories of the Black men and women who introduced urban civilization to the world over the last 20 000 years up to the time of European contact Each part has over 100 helpful maps graphs and photos an 8 page full color insert in the center and over 300 footnotes and references for further research In this book you'll learn about the history of Black people I don't mean the history you learned in school which most likely began with slavery and ended with the Civil Rights Movement I'm talking about Black history BEFORE that Long before that In this book we'll cover over 200 000 years of Black history For many of us that sounds strange We can't even imagine what the Black past was like before the slave trade much less imagine that such a history goes back 200 000 years or more Part Two covers history from 20 000 years ago to the point of European contact This is the time that prehistoric cultures grew into ancient urban civilizations a transition known to historians as the Neolithic
