Wikinomics Don Tapscott, Anthony D. Williams, 2008-04-17 The acclaimed bestseller that's teaching the world about the power of mass collaboration Translated into more than twenty languages and named one of the best business books of the year by reviewers around the world Wikinomics has become essential reading for business people everywhere It explains how mass collaboration is happening not just at Web sites like Wikipedia and YouTube but at traditional companies that have embraced technology to breathe new life into their enterprises This national bestseller reveals the nuances that drive wikinomics and share fascinating stories of how masses of people both paid and volunteer are now creating TV news stories sequencing the human genome remixing their favorite music designing software finding cures for diseases editing school texts inventing new cosmetics and even building motorcycles The Lawyer's Guide to Collaboration Tools and Technologies

Dennis M. Kennedy, Tom Mighell, 2008 This first of its kind legal guide showcases how to use the latest Web based and software technologies such as Web 2.0 Google tools Microsoft Office and Acrobat to work collaboratively and more efficiently on projects with colleagues clients co counsel and even opposing counsel The book provides a wealth of information useful to lawyers who are just beginning to try collaboration tools as well as tips and techniques for those lawyers with intermediate and advanced collaboration experience Leadership and Web 2.0 Grady McGonagill, Tina Doerffer, 2011-09-30 Some

compare the evolving Web to the revolution of the Gutenberg press How does the Web shape the role and understanding of leadership What are key challenges and opportunities What mindsets skills and knowledge are necessary The Leadership Implications of the Evolving Web provides and analyzes over 300 pioneer examples from the private public and non profit sector in Germany Europe and the US A new leadership paradigm seems to be emerging with an inexorable shift away from one way hierarchical organization centric communication toward two way network centric participatory and collaborative leadership styles Which requirements and trends which opportunities and key challenges are emerging for leadership Aim of the study is to enable managers from all sectors to anticipate changes and proactively take advantage of opportunities that are emerging Target group for this publication are people in leadership positions in organizations across all sectors from managers in executive and supervisory boards operations human resources to academics and practitioners advisers and policymakers The Study Leadership Web 2.0 has been presented by authors Grady McGonagill ED and Tina Doerffer MPA amongst others at the International Leadership Academy in Boston 2010 **The Ethics of Ordinary Technology** Michel

Puech, 2016-04-28 Technology is even more than our world our form of life our civilization Technology interacts with the world to change it Philosophers need to seriously address the fluidity of a smartphone interface the efficiency of a Dyson vacuum cleaner or the familiar noise of an antique vacuum cleaner Beyond their phenomenological description the emotional experience acquires moral significance and in some cases even supplies ethical resources for the self If we leave this dimension of modern experience unaddressed we may miss something of value in contemporary life Combining European

humanism Anglophone pragmatism and Asian traditions Michel Puech pleads for an ethical turn in the way we understand and address technological issues in modern day society Puech argues that the question of power is what needs to be reconsidered today In doing so he provides a three tier distinction of power power to modify the outer world our first intention method in any case technology power over other humans our enduring obsession politics and domination power over oneself ethics and wisdom

Disaster Communications in a Changing Media World George Haddow, Kim S Haddow, 2008-10-29 Communications is key to the success of disaster mitigation preparedness response and recovery Accurate information disseminated to the general public to elected officials and community leaders and to the media reduces risk saves lives and property and speeds recovery The ability to communicate is no longer an afterthought or a luxury timely communication is now as important as logistics or the pre deployment of materials Planning and controlling the flow of information before during and after a disaster will define your organization s credibility trustworthiness authority and effectiveness The emergence of new media like the internet e mail blogs text messaging cell phone photos and the increasing role played by first informers witnesses who now have the ability to transmit information immediately from the event are redefining the roles of government and media The government s historical role as gatekeeper is now an anachronism Traditional media s role as the sole conduit of reliable and officially sanctioned information has been eclipsed by the advent of new media The tools and rules of communications are evolving and disaster communications must evolve to capitalize on these changes and exploit the opportunities they provide Bloggers have the potential either to add to the chaos during a crisis or to help convey accurate data and report on local conditions Disaster communications must incorporate a way to manage their impact and if possible use them for the common good Finally even though the means to the end are evolving the goals the values and the underlying principles of effective disaster communication the need for transparency increased accessibility trustworthiness and reliability and to create partnerships with the media have not changed and need to be embraced along with the practical ability to convey information effectively Applies the principles of emergency management to communications during a disaster Covers terrorist incidents accidents and natural disasters like hurricanes and earthquakes Shows how to use blogs text messages and cell phone cameras as well as government channels and traditional media to communicate during a crisis

Restricted Access Elizabeth Ellcessor, 2016-03-29 How reconsidering digital media and participatory cultures from the standpoint of disability allows for a full understanding of accessibility While digital media can offer many opportunities for civic and cultural participation this technology is not equally easy for everyone to use Hardware software and cultural expectations combine to make some technologies an easier fit for some bodies than for others A YouTube video without closed captions or a social network site that is incompatible with a screen reader can restrict the access of users who are hard of hearing or visually impaired Often people with disabilities require accommodation assistive technologies or other forms of aid to make digital media accessible useable for them Restricted Access investigates digital media accessibility the processes by which media is made usable by people with particular needs and argues for the necessity of conceptualizing access in a way that will enable greater participation in all forms of mediated culture Drawing on disability and cultural studies Elizabeth Ellcessor uses an interrogatory framework based around issues of regulation use content form and experience to examine contemporary digital media Through interviews with policy makers and accessibility professionals popular culture and archival materials and an ethnographic study of internet use by people with disabilities Ellcessor reveals the assumptions that undergird contemporary technologies and participatory cultures Restricted Access makes the crucial point that if digital media open up opportunities for individuals to create and participate but that technology only facilitates the participation of those who are already

privileged then its progressive potential remains unrealized Engagingly written with powerful examples Ellcessor demonstrates the importance of alternate uses marginalized voices and invisible innovations in the context of disability identities to push us to rethink digital media accessibility
