moral life fails to account for the distinctive origins and radically different teachings found across the world's many religions. Understanding World Religions presents religion as a complex and intriguing matrix of history, philosophy, culture, beliefs, and practices. Hexham believes that a certain degree of objectivity and critique is inherent in the study of religion and he guides readers in responsible ways of carrying this out. Of particular importance is Hexham's decision to explore African religions which have frequently been absent from major religion texts. He surveys these in addition to varieties of Hinduism, Buddhism, Judaism, Christianity, and Islam.

Indigenous and Christian Perspectives in Dialogue Allen G. Jorgenson, 2020-12-30 In *Indigenous and Christian Perspectives in Dialogue* Allen G. Jorgenson asks what Christian theologians might learn from Indigenous spiritualities and worldviews. Jorgenson argues that theology in North America has been captive to colonial conceits and has lost sight of key resources in a post-Christendom context. The volume is especially concerned with the loss of a sense of place evident in theologies written without attention to context. Using a comparative theology methodology wherein more than one faith tradition is engaged in dialogical exploration, Jorgenson uses insights from Indigenous understandings of place to illumine forgotten or obstructed themes in Christianity. In this constructive theological project, kairotic places are named as those that are kenotic, harmonic, poetic, and especially enlightening at the margins where we meet the religious other.
