Provencal, 2020-07-09 Faulkner's final novel *The Reivers* has been gently dismissed by scholars and critics as no more than its subtitle claims *A Reminiscence* Although the new millennium has seen a new appreciation for Faulkner's later novels *The Reivers* is still perceived as a slightly fictionalized comic memoir romanticizing the early life of the author in the pre civil rights American South This volume takes this dismissal of *The Reivers* to task for failing to appreciate its employment of the Apuleian narrative of life altering metamorphosis to offer as his literary farewell hope for humanity's self redemption Vernon

Literary Research and the American Modernist Era Robert N. Matuzo, Elizabeth B. Lindsay, 2008-07-31
Characterized by its move away from Romanticism and toward mundane every day subjects as well as incorporating such ideas as metanarrative stream of consciousness and disjointed timelines the American Modernist Era was at its heyday during the years 1914-1949. It produced such great authors as Ernest Hemingway, William Faulkner and F. Scott Fitzgerald and memorable works like *As I Lay Dying* and *The Great Gatsby*. Literary Research and the American Modernist Era offers the scholar and researcher a clear introduction to the best contemporary library resources and practices for researching American modernist writing. Graduate students, advanced undergraduates, researchers and scholars specializing in American modernist writing will improve their information skills and fluency whether in the real or the virtual library. Even those lacking access to some of the resources described here can profit from this overview of literary research because it will help them frame questions, indicate where to go for answers and demonstrate useful connections between many of the secondary scholarly sources. This guide offers a coherent account of how contemporary research skills and resources can complement one another in helping the scholar effectively deal with typical challenges they encounter in their work.

Literary Research and the American Realism and Naturalism Period Linda L. Stein, Peter J. Lehu, 2008-12-12
The American Realism and Naturalism literary period lasted from roughly 1861 to 1914. It was characterized by its response to the political, economic and technological changes that transformed the nation during the Civil War and postbellum years. Some of the most well known authors in American history wrote during this time, including Mark Twain, Henry James, Edith Wharton, Charles W. Chesnut and Upton Sinclair. Literary Research and the American Realism and Naturalism Period: Strategies and Sources will help those interested in researching this era. Authors Linda L. Stein and Peter J. Lehu emphasize research methodology and outline the best practices for the research process, paying attention to the unique challenges inherent in conducting studies of national literature. Each chapter covers a different type of resource: general and literary reference books, library catalogs, print and online bibliographies, scholarly journals, publishing history sources, contemporary journals and newspapers, microform and digital collections, manuscript and archival material and websites. The book offers a coherent account of how contemporary research skills and resources can complement one another in helping scholars effectively deal with typical challenges they encounter in their work.
