Winckelmann And The Vatican's First Profane Museum:

Winckelmann and the Vatican's First Profane Museum L. Ruprecht, 2011-11-08 Offers the first ever historical descriptions of the foundation of the Museo Profano inside the Vatican in 1761 Using the palace records from the Vatican's Secret Archives Ruprecht demonstrates that the Vatican museum was the brainchild of J J Winckelmann the so called father of Art History

Quatremère de Quincy's Moral Considerations on the Place and Purpose of Works of Art, 2021-07-19 Antoine Chrysostome Quatremère de Quincy 1755-1849 was the most important Neoclassical art historian in the generation after Johann Joachim Winckelmann 1717-1768 It is difficult now to appreciate his importance due in part to the lack of translations of his 21 published books three were rendered into English in the 19th century and one in the 21st The Moral Considerations has long been considered the most shattering polemic against public museums ever written But I will show that Quatremère's polemic was aimed not against museums per se but rather against the imperialist and secularist curatorial purposes of Parisian museums in the age of Revolution His Neoclassical commitments maintained the centrality of religion and of incarnation to any proper understanding of the place and purpose of the fine arts

Kinaesthesia and Classical Antiquity 1750-1820 Helen Slaney, 2020-09-03 This book argues that touch and movement played a significant role long overlooked in generating perceptions of ancient material culture in the late 18th century At this time the reception of classical antiquity had been transformed Interactions with material culture ruins sculpture and artefacts formed the core of this transformation Some such interactions were proto archaeological such as the Dilettanti expeditions to Athens and Asia Minor others were touristic seen in the guidebooks consulted by travellers to Rome and the diaries they composed and others creative resulting in novels poetry and dance performances Some involved the reproduction of experience in a gallery or museum setting What all encounters with ancient material culture had in common however is their haptic sensory basis The sense typically associated with the Enlightenment is vision but this has obscured the equally important contribution made by touch and movement to the way in which a newly materialised Graeco Roman world was perceived Kinaesthesia or the sense of self movement is rarely recognised in its own right but because all encounters with sites and objects are embodied and all embodiment takes place in motion this sense is vital to forming more abstract or imaginative impressions Theories of embodied cognition propose that all intellectual processes are also physical This book shows how ideas about classical antiquity in the volatile milieu of the late 18th century developed as a result of diverse kinaesthetic relationships

Modern Biblical Criticism as a Tool of Statecraft (1700-1900) Scott Hahn, Jeffrey L. Morrow, 2020-04-27 Modern biblical scholarship is often presented as analogous to the hard and natural sciences its histories present the developmental stages as quasi scientific discoveries That image of Bible scholars as neutral scientists in pursuit of truth has persisted for too long Modern Biblical Criticism as a Tool of Statecraft 1700-1900 by Scott W Hahn and Jeffrey L Morrow examines the lesser known history of the development of modern biblical scholarship in the eighteenth and nineteenth centuries This volume seeks partially to

fulfill Pope Benedict XVI's request for a thorough critique of modern biblical criticism by exploring the eighteenth and nineteenth century roots of modern biblical scholarship situating those scholarly developments in their historical philosophical theological and political contexts Picking up where Scott W Hahn and Benjamin Wiker's *Politicizing the Bible: The Roots of Historical Criticism and the Secularization of Scripture* 1300-1700 left off Hahn and Morrow show how biblical scholarship continued along a secularizing trajectory as it found a home in the newly developing Enlightenment universities where it received government funding *Modern Biblical Criticism as a Tool of Statecraft* 1700-1900 makes clear why the discipline of modern biblical studies is often so hostile to religious and faith commitments today *Religious Convergence in the Ancient Mediterranean* Sandra Blakely, Billie Jean Collins, 2019-12-15 This volume brings together scholars in religion archaeology philology and history to explore case studies and theoretical models of converging religions The twenty four essays offered in this volume which derive from Hittite Cilician Lydian Phoenician Greek and Roman cultural settings focus on encounters at the boundaries of cultures landscapes chronologies social class and status the imaginary and the materially operative Broad patterns ultimately emerge that reach across these boundaries and suggest the state of the question on the study of convergence and the potential fruitfulness for comparative and interdisciplinary studies as models continue to evolve

The Allure of Sports in Western Culture John Zilcosky, Marlo A. Burks, 2019-09-10 Whether it is our love of chance and vicarious thrill our need to release anxiety and aggression or our appreciation of the arc traced by a ball at a crucial moment sports draw us in *The Allure of Sports in Western Culture* contributes to contemporary debates about the attraction of sports in the West by providing a historical grounding as well as theoretical perspectives and contextualization Bringing together the work of literary theorists historians and athletes the volume's dual emphasis allows us to better understand the historical and ideological reasons for the changing nature of sports allure from Ancient Greece and Rome to the modern Olympics The findings show that allure is shaped by larger forces such as poverty wealth and status changing moral standards and political and cultural indoctrination On the other hand personal and psychological factors play an equally important if less tangible role our love for scandal the seduction of deception and violence and the physiological intoxication of watching and participating in sports keep us hooked At the heart of the volume lies the tension between our love of sport and our knowledge of its only barely hidden cruelty exploitation and manipulation *Report on the Aeginetan Sculptures* Johann Martin Wagner, 2017-04-24 The controversial removal of the Parthenon sculptures from Greece to England in the first decade of the nineteenth century by Thomas Bruce seventh Earl of Elgin sparked an international competition for classical antiquities This volume tells a lesser known chapter of that story concerning sculptures from the Temple of Aphaia on the Greek island of Aegina Discovered in 1811 as the Parthenon project was nearing its completion these ancient sculptures were acquired at auction by Johann Martin Wagner 1777-1858 on behalf of Crown Prince Ludwig of Bavaria The sculptures turned out to be significant in a number of ways offering important evidence for a transitional period of Greek art between the

archaic and classical eras for the existence of an independent Aeginetan school that was the equal of Athenian art at the time and for Greek sculptures having been elaborately painted and adorned Originally published in 1817 and presented here for the first time in English this book reproduces the report commissioned by the crown prince that was written by Wagner and edited by F W J Schelling and contained richly detailed descriptions of the sculptures In addition Louis A Ruprecht Jr provides a comprehensive historical introduction featuring a constellation of intellectual figures an afterword notes appendices and more than forty images to tell the fascinating story of the sculptures and their legacy from excavation to the present day

Religion and the Arts: History and Method Diane Apostolos-Cappadona, 2017-11-06 In *Religion and the Arts History and Method* Diane Apostolos Cappadona presents an overview of the 19th century origins of this discrete field of study and its methodological journey to the present day through issues of repatriation museum exhibitions and globalization Apostolos Cappadona suggests that the fluidity and flexibility of the study of religion and the arts has expanded like an umbrella since the 1970s and the understanding that art was simply a visual exegesis of texts to now support the study of material popular and visual culture as well as gender She also delivers a careful analysis of the evolution of thought from traditional iconographies to the transformations once scholars were influenced by response theory and challenged by globalization and technology *Religion and the Arts History and Method* offers an indispensable introduction to the questions and perspectives essential to the study of this field

Religion and Realism Davor Džalto, 2016-05-11 This volume revisits the concepts of reality and realism with regard to their relation to religion and the religious real Religion remains one of the most significant social forces and cultural constituencies and it can even be said that religion and religious truths are becoming increasingly important in these so called post secular times when the sphere of the secular social political and the sphere of the religious have to be reconsidered The relevancy of religious truths and the way they structure our understanding of reality overcomes the sphere of theology and particular religious practices Religion truth and reality and the way these concepts are approached and understood continue to be vital for a broader cultural discourse as well from philosophy and science to politics mass media and show business The book presents ten essays that offer

methodologically diverse and intellectually challenging analyses of various aspects of the topics of Religion and Realism The essays are based on papers presented at the international conference on Religion and Realism which took place at the American University of Rome in 2014

Reach without Grasping Louis A. Ruprecht Jr., 2021-11-17 Anne Carson b June 21 1950 in Toronto Canada is one of the most versatile of contemporary classicists poets and translators in the English language In *Reach without Grasping* Louis A Ruprecht Jr explores the role played by generic transgressions on the one hand and by embodied spirituality on the other throughout Carson s ambitious literary career Where others see classical dichotomies soul versus body classical versus Christian Carson sees connection Like Nietzsche before her Carson decries the images of the Classics as merely bookish and of classicists as disembodied intellects She has brought religious bodily erotics back into the heart of the classical tradition
