Youth Unemployment and Society Anne C. Petersen, Jeylan T. Mortimer, 1994-05-27 This book examines youth unemployment and intervention strategies in the United States and Europe Youth Unemployment and Social Exclusion in Europe Torild Hammer, 2003-07-30 With contributions from leading experts in the field this book presents the findings of the first comparative study of unemployed youth in Europe The Psychological and Social Effects of Youth Unemployment Saul V. Levine, Child in the City Programme, University of Toronto. Centre for Urban and Community Studies, 1980 **Youth Unemployment and Crime** Judith Bessant, 1995 Youth Unemployment and Devolution Sioned Pearce, 2025-07-24 Youth unemployment and work insecurity have been prevailing issues for governments across Western Europe since the 2008 financial crisis These issues have intensified after Brexit and the pandemic with young people consistently overrepresented in the gig economy and all forms of work insecurity Against a backdrop of increasingly mixed economies of welfare in the UK's liberal welfare regime and work first policy narrative this book explores civil society responses to youth unemployment in England Scotland and Wales Using original empirical research to challenge the privileging of methodological nationalism in the study of welfare regimes it analyses the scale and nature of policy and civil society responses to youth unemployment and work insecurity between three nations of the UK from the perspectives of policy makers strategic thinkers and case workers delivering to young people on the ground **Young People and Long-Term Unemployment** Marco Giugni, Jasmine Lorenzini, Manlio Cinalli, Christian Lahusen, Simone Baglioni, 2020-12-30 Young People and Long Term Unemployment examines the consequences of long term unemployment for the personal social and political lives of young adults aged 18-34 across four European cities Cologne Germany Geneva Switzerland Lyon France and Turin Italy Adopting a multidimensional theoretical framework aiming to bring together insights based on the contextual macro organizational meso and individual micro levels and combining quantitative and qualitative data and analyses it reaches a number of important conclusions First our study shows that the experience of long term unemployment has a negative impact on different dimensions of young people's lives When compared to employed youth unemployed youth are less satisfied with their lives more isolated and less independent financially Second however there are important variations across the four cities This means that in spite of widespread retrenchments in some places the welfare state still acts as a buffer against unemployment Third although young unemployed people participate in politics equally if not slightly more than employed youth the young unemployed are often disconnected from politics This is so even when they have important grievances to express in the face of high youth unemployment precarious working conditions and grim future perspectives on the labor market This book will be useful for scholars interested in unemployment politics and youth politics researchers and teachers in political science sociology and social psychology **Youth Policies and Services in Chinese Societies** Steven Sek-yum Ngai, Chau-kiu Cheung, Ngan-pun Ngai, 2018-02-02 In recent decades much of youth research in Chinese societies has sought to understand the transformation

of the younger generation and their social environment in the context of globalization deindustrialization and economic insecurity The epochal events of the global economic transformation and financial crisis along with long term Chinese social trends such as rising unemployment income disparity and migration are in the process of creating new structural relations between young people and related social actors Accordingly this book charts the current conditions of youth services and policies in Chinese societies by examining case studies in Beijing Jinan Shanghai Tianjin and Hong Kong The chapters address the related issues stemming from unemployment volunteering internal migration economic disadvantages school social work and leadership training Through comparative analyses of the aforementioned issues the collection highlights contemporary issues in Chinese youth policies and services including work commitment social inclusion social support from family and teachers volunteering and leadership training The book argues that the strengthening of empowerment and social inclusion in Chinese youth services offers a solution to problems of alienation powerlessness and underclass status The quest for social inclusion therefore merits renewed attention in the youth policies and services of Chinese societies This was originally published as a special issue of the International Journal of Adolescence and Youth Youth Unemployment United Community Services of Metropolitan Detroit.
