A Critical Mind Christine Godt, Matthias Lamping, 2023-06-22 This book traces the academic footprint of Hanns Ullrich Thirty contributions revolve around five central topics of his oeuvre the European legal order competition law intellectual property the regulation of new technologies and the global market order Acknowledging him as a trailblazer the book aims to capture how deeply Hanns Ullrich has influenced contemporaries and subsequent generations of scholars The contributors reiterate the path breaking patterns of his teachings such as his contemplation of intellectual property as embedded in competition the necessity of balancing private and public interests in intellectual property law the policies of market integration and the peculiar relationship of technological advancement and protectionism

Netherlands Reports to the XIth International Congress of Comparative Law Caracas 1982 H. D'Oliveira, 2013-11-11 Last year I addressed the Netherlands Comparative Law Association with the following question Does Comparative Law Exist At All My intention then was to flog the dead horse of the merger of comparative law and the sociology of law In presenting this voluminous collection of Netherlands national reports to the eleventh congress of the International Academy of Comparative Law I feel my misgivings giving way to the suspicion that comparative law indeed exists Of course national reports do not as such prove the existence of comparative law It is the general reports together with the national reports which embody the comparative effort That is why the Netherlands Comparative Law Association took the initiative to propose the publishing of the materials on a subject to subject basis instead of publishing collections of national reports From a comparative legal point of view it is the topic that should form the basis of the publication and not the origin of the materials The general reporter for each topic should be prepared to take up the responsibilities of editing the volume and would have to be given the right to select those national reports which he considers to be useful both in regard to their quality and the relevance of the material to the basic problems in the questionnaire This proposal met with very favourable comments from the national committees and general
