Zapatistas Mihalís Mentínis, 2006-04-20 The Zapatista Army for National Liberation burst onto the world stage on 1 January 1994 Zapatista commander Subcomandante Marcos announced a revolution and declared war on the Mexican government and global capitalism Since then the Zapatistas have inspired thousands of activists across the world They have attracted much attention from political theorists and analysts Despite this there is little consensus about the real nature and efficacy of the movement Zapatistas provides a bold new approach to understanding the insurrection Mentínis spent nine months visiting the Zapatista autonomous zone and the result is this unique exploration of the indigenous political theory emerging within the movement Combining this with an analysis of the integrity of the Zapatista project Mentínis draws on the concept of the event from Badiou ideas from Situationism the project of autonomy of Cornelius Castoriadis and the constituent power of Antonio Negri to present a rigorous account of the movement and the impact it has had on radical political theory New Critical Theory William S. Wilkerson, Jeffrey Paris, 2001-11-19 New Critical Theory surveys contemporary leftist thought while introducing the tenets of this new form of critical theory Beginning with an exploration of the relationship between Marxism Habermas and the politics of identity William S Wilkerson and Jeffrey R Paris present a collection that critiques the globalization of capital The development of personality appears as subject to socialized standards in an age of global capitalism Only after scrutinizing the effects of such a system can liberation be found The essays within join Critical Theory with postmodern insights on language and subjectivity to provide a more comprehensive view of emancipatory social theory Through this and other reflections on critical race gender and queer theories Wilkerson and Paris emerge with an encompassing volume defining New Critical Theory We Are the Crisis of Capital John Holloway, 2019-04-01 We Are the Crisis of Capital collects articles and excerpts written by radical academic theorist and activist John Holloway over a period of forty years This collection asks Is there a way out How do we break capital a form of social organisation that dehumanises us and threatens to annihilate us completely How do we create a world based on the mutual recognition of human dignity Holloway's work answers loudly By screaming NO By thinking from our own anger and creativity By trying to recover the we buried under the categories of capitalist thought By opening those categories and discovering the antagonism they conceal and by discovering that behind the concepts of money state capital crisis and so on there moves our resistance and rebellion An approach sometimes referred to as Open Marxism it is an attempt to rethink Marxism as daily struggle The articles move forward influenced by the German state derivation debates of the 1970s by the CSE debates in Britain and the group around the Edinburgh journal Common Sense and then moving on to Mexico and the wonderful stimulus of the Zapatista uprising and now the continuing whirl of discussion with colleagues and students in the

Posgrado de Sociología of the Benemérita Universidad Autónoma de Puebla Civil Society and Democratic Theory Gideon Baker, 2003-08-27 This book introduces radically alternative models of civil society that have been developed outside the liberal democratic frame of reference models which suggest that civil society does offer new and non statist democratic possibilities Drawing on a wide range of civil society theory practice from Eastern Europe and Latin America including the Zapatistas in Mexico and from visions of global civil society too this book is uniquely positioned to consider the questions posed by these alternative voices for democratic theory and practice Are there alternatives to the liberal democratic vision of civil society Is a democracy located in civil society rather than the state either possible or desirable How and why has the concept of civil society come to be used so widely today Can global civil society further the struggle for democracy initiated by national civil societies

Subcommander Marcos Nick Henck, 2007-07-09 Subcommander Marcos made his debut on the world stage on January 1 1994 the day the North American Free Trade Agreement took effect At dawn from a town hall balcony he announced that the Zapatista Army of National Liberation had seized several towns in the Mexican state of Chiapas in rebellion against the government by sunset Marcos was on his way to becoming the most famous guerrilla leader since Che Guevara Subsequently through a succession of interviews communiques and public spectacles the Subcommander emerged as a charismatic spokesperson for the indigenous Zapatista uprising and a rallying figure in the international anti globalization movement In this the first English language biography of Subcommander Marcos Nick Henck describes the thought leadership and personality of this charismatic rebel spokesperson He traces Marcos's development from his provincial middle class upbringing through his academic career and immersion in the clandestine world of armed guerrillas to his emergence as the iconic Subcommander Henck reflects on what motivated an urbane university professor to reject a life of comfort in Mexico City in favor of one of hardship as a guerrilla in the mountainous jungles of Chiapas and he examines how Marcos became a conduit through which impoverished indigenous Mexicans could communicate with the world Henck fully explores both the rebel leader's renowned media savvy and his equally important flexibility of mind He shows how Marcos's speeches and extensive writings demonstrate not only the Subcommander's erudition but also his rejection of Marxist dogmatism Finally Henck contextualizes Marcos locating him firmly within the Latin American guerrilla tradition

International Zapatismo Thomas Olesen, 2005 The Zapatista movement and its leader Subcomandante Marcos have attracted enormous political and scholarly attention ever since their uprising began in Chiapas Mexico in 1994 The movement not only struck a chord inside the country as Mexico was switching to neoliberal economics and attaching itself to the USA in the North American Free Trade Agreement NAFTA but it rapidly evoked an extraordinary upwelling of political interest and solidarity in the Americas and worldwide Thomas Olesen explores this phenomenon in the context of globalization and the networking and communications potential of the Internet What is the infrastructure of the global Zapatista solidarity network What activities has it engaged in What enabled it to develop What are the longer term implications for new kinds of political action and international solidarity And what can social theory tell us about the new global patterns of social interaction that are emerging Zapatista!
