projects and case studies linked with the Programming Research Group Four years ago we had the first Z User Meeting a fairly modest affair with representatives more or less equally divided between academia and industry At the first meeting there were as in this meeting a variety of technical papers reports of work in progress and discussions A number of people from industry came along either because they had begun to use Z or were curious about the new direction In the discussion sessions at the end of the meeting there were calls from attendees for the establishment of a more stable base for the notation including work on its documentation and standards Many of these requests have now been satisfied and the notation is now being proposed for standards development **The Inland Printer** ,1897 **Paperbound Books in Print** ,1992
