

Chapter 10

Effective Practices for Developing Reading Comprehension

Nell K. Duke and P. David Pearson

Reading comprehension research has a long and rich history. There is much that we can say about both the nature of reading comprehension as a process and about effective reading comprehension instruction. Most of what we know has been learned since 1975. Why have we been able to make so much progress so fast? We believe that part of the reason behind this steep learning curve has been the lack of controversy about teaching comprehension. Unlike decoding, oral reading, and reading readiness, those who study reading comprehension instruction have avoided much of the acrimony characteristic of work in other aspects of reading.

As it should be, much work on the process of reading comprehension has been grounded in studies of good readers. We know a great deal about what good readers do when they read:

- Good readers are *active* readers.
- From the outset they have clear *goals* in mind for their reading. They constantly *evaluate* whether the text, and their reading of it, is meeting their goals.
- Good readers typically *look over* the text before they read, noting such things as the *structure* of the text and text sections that might be most relevant to their reading goals.
- As they read, good readers frequently *make predictions* about what is to come.
- They read *selectively*, continually making decisions about their reading—what to read carefully, what to read quickly, what not to read, what to reread, and so on.
- Good readers *construct, revise, and question* the meanings they make as they read.

What Research Has To Say About Reading Instruction Fourth Edition:

Reading Instruction That Works, Fourth Edition Michael Pressley, Richard L. Allington, 2014-10-02 This widely adopted text and K-8 practitioner resource demonstrates how successful literacy teachers combine explicit skills instruction with an emphasis on reading for meaning. Distinguished researcher Richard L. Allington builds on the late Michael Pressley's work to explain the theories and findings that guide balanced teaching and illustrate what exemplary lessons look like in action. Detailed examples offer a window into highly motivating classrooms around the country. Comprehensive in scope, the book discusses specific ways to build word recognition, fluency, vocabulary, and comprehension, especially for readers who are struggling. New to This Edition: Updated throughout to reflect important recent research advances. Chapter summing up the past century's reading debates and the growing acceptance of balanced teaching. New and revised vignettes of exemplary teachers.

What Research Has to Say about Reading Instruction S. Jay Samuels, Alan E. Farstrup, 2011 The changing and moving field of reading is reflected in the progression of *What Research Has to Say About Reading Instruction* over the years, as the editors have sought to provide a solid foundation for the important work of teaching students to read. This new edition of this classic research review offers a broad and balanced perspective of the latest theory, research, and practice to provide that foundation.

Best Practices in Literacy Instruction, Fifth Edition Linda B. Gambrell, Lesley Mandel Morrow, 2014-09-12 This book has been replaced by *Best Practices in Literacy Instruction Sixth Edition* ISBN 978 1 4625 3677 1.

Applied Linguistics and Materials Development Brian Tomlinson, 2012-12-06 Focuses for the first time on materials development and applications of current research and theory for the main areas of applied linguistics, e.g., second language acquisition, pragmatics, vocabulary studies. There are many books on applied linguistic theory and research, and there are now a number of books on the principled development of materials for language learning, but this book takes a new approach by connecting the two concerns. Each of its chapters first of all presents relevant theories and research conclusions for its area and then considers practical applications for materials development. The chapters achieve these applications by

reporting and commenting on current theory and research by analysing the match between current published materials and current theory and by suggesting and exemplifying applications of current theory to materials development This will be an essential resource both for those studying or teaching materials development and for those studying or teaching applied linguistics Handbook of Research on Reading Comprehension, Second Edition Susan E. Israel, 2017-01-02 This edition

provides a transformative snapshot of reading comprehension as a field of study at a seminal moment It maintains the same high level of standards with respect to 1 historical perspectives useful for laying the foundation of study on reading comprehension 2 theoretical perspectives that allow the reader to consider different views on how specific areas have evolved since the first edition 3 excellent chapters on various elements of reading comprehension including major research studies in assessment cultural impacts of reading comprehension issues affecting English language learners and consideration of international populations and 4 identification of future research needs to help raise important questions and stimulate possible hypotheses for future research **Executive Skills and Reading Comprehension** Kelly B.

Cartwright, 2015-07-13 How do K 12 students become self regulated learners who actively deploy comprehension strategies to make meaning from texts This cutting edge guide is the first book to highlight the importance of executive skills for improving reading comprehension Chapters review the research base for particular executive functions such as planning organization cognitive flexibility and impulse control and present practical skills building strategies for the classroom Detailed examples show what each skill looks like in real readers and sidebars draw explicit connections to the Common Core State Standards CCSS Reproducible planning and assessment forms can be downloaded and printed in a convenient 8 1 2 x 11 size **Best Practices in Literacy Instruction, Sixth Edition** Lesley Mandel Morrow, Linda B.
