Of Dogs and Other People Susan Landauer, 2017-04-15 Roy De Forest's brightly colored crazy quilted jungles dotted with nipples of paint and inhabited by a cast of characters uniquely his own a perennial favorite being his wild eyed pointy eared dogs appeal to a broad spectrum of viewers from young to old from the casual visitor to the most sophisticated art aficionado OMCA's project aims to reassess De Forest's art historical position placing him in a national rather than solely regional West Coast context Landauer positions De Forest as part of a bicoastal alternative current of American art that has been poorly documented and deliberately ran counter to better publicized tendencies of the 1960s and 1970s notably Pop Minimalism and post painterly abstraction Despite the playfulness of his work close study of De Forest's art reveals deep layers of meaning He was a fan of popular science fiction and adventure stories but he was also well versed in Australian aboriginal art ukiyo e prints poetry literature and the history of philosophy He enjoyed secreting obscure art historical references into his work animals might assume postures found in Medieval or Renaissance art or a drawing that appears to depict a comic book character may in fact refer to Titian's triple headed allegory of Prudence This engaging publication presents gorgeous color reproductions of 150 of De Forest's finest artworks plus a variety of figure illustrations that illuminate the artist's diverse sources and freewheeling social and creative milieu in Northern California Provided by publisher
