

How to Write a Memoir

Select a Theme

A memoir is mainly a theme-oriented narrative with events from your life that serves this theme. For example, a personal memoir can focus on struggling with a certain illness or navigating different relationships.

Draft an Outline

Decide through the outline how the events you choose to narrate in your memoir are going to serve this theme.

Use Creative Writing

Using elements from creative writing (such as character development, plot, and different point of view) keep the readers interested and bring out their emotions as they make them more invested in your story.

Show; Don't Tell

It'll do you no good to just state the events you want to highlight in your memoir. Instead, you have to know how to narrate these events in a way that makes your readers feel everything you have been through.

Don't Name Names

For the sake of avoiding any legal consequences, you shouldn't mention anyone who doesn't wish to be mentioned, whether poorly or not.

Anything: The Format Of What You Write May Change But The Process Of Writing Anything Remains The Same

Paul Lima, 2020-07-06 How To Write Anything: The Format Of What You Write May Change But The Process Of Writing Anything Remains The Same. This book is called How To Write Anything, and I confess there is some ego involved in the title. But then I've been a professional writer for over 40 years. As one of Canada's most successful writers and authors, I have written hard news articles, soft news, and feature articles; advertising and promotional copy; media releases, reports, and proposals; case studies, research papers, email messages, website content, tweets, blog posts, and other online content. I have also written over 20 books on business, promotional, and online writing, and other topics such as writing articles, memoir, writing and living with Multiple Sclerosis, a disease that I have, but one that has not prevented me from writing or training. I've also written a collection of short stories, poetry, and a couple of plays. So while I haven't written everything, I've written many things. The fact is that you can't read this book and go forth and write anything if you are not familiar with the format or structure of the document that you want to write, be it non-fiction or fiction. For instance, if you want to write a report, you do so using the methods in this book. However, you have to know how to structure reports. The same is applicable to email, social media content, articles, promotional content, case studies, reports, white papers, PowerPoint presentations, speeches, website content, short stories, or novels. So some of you reading this book might still have some learning to do. However, I suspect most of you know the structure of the documents you want to produce, and you will be able to immediately apply the methods outlined in the book to writing any document that you need to write. *The Complete Idiot's Guide to Writing*

Nonfiction Christina Boufis, 2014-05-14 Get all the tools you need to craft compelling creative nonfiction prose. This helpful guide gives you everything you need to write real-life characters, compelling plots, natural dialogue, and captivating details.

Writing the Radical Memoir Paul Williams, Shelley Davidow, 2023-05-18 For those that have mastered the basics of memoir and wish to probe this brand of creative nonfiction further, *Writing the Radical Memoir* uses salient theories about memory and the self to challenge assumptions about how we remember and tell the truth of our lives when we write about it. Innovative in approach and making new critical ideas accessible, each chapter maps out the key principles of such writers as Barthes, Lacan, Derrida, Lewis, Mehl, Madrona, Philippe, Le Jeune, and Joseph Campbell, invoking literary examples to show how

other writers have mastered the idea before reflecting on how you can practically apply the theory to your writing With original exercises and prompts for further reading that bridge the gap between the theoretical and how it might be put into practice the book is attentive to the multiple facets of the genre of nonfiction writing generally covering such topics as The writer reader contract How to embark on a thematic symbolic exploration of themes and incidents in your life How neuro scientific theory can inform our understanding of memory and recall and what happens to our memories when we remember them Character development and the ethics of writing about real people How constructing your identity in memoir offers a chance to push back against traditional structures That memoir might not be preservation of your past but a process of self erasure How J M Coetzee s Autobiography trilogy challenges traditional biography By bringing together lived experience post structuralist and postmodernist theories praxis and artistic vision as a unique approach to writing memoir this book encourages you to think the self how it is portrayed created erased and made strange through the process of writing and remembering
