When Dinosaurs Roamed New Jersey:

When Dinosaurs Roamed New Jersey William B. Gallagher, 1997 He points out places in New Jersey and nearby where specimens characteristic of each era can be found He shows how fossil evidence discovered in the state is helping paleontologists reconstruct the ecological interactions and behavior of dinosaurs and discusses such continuing scientific controversies as the reason for the extinction of the dinosaurs

Wild New Jersey David Wheeler, 2011 Wild New Jersey brings the reader on a real life safari through the Garden State s wildlife and natural wonders Tom Gilmore President New Jersey Audubon Society

Encyclopedia of New Jersey Maxine N. Lurie, Marc Mappen, 2004 Contains nearly original articles along with illustrations and maps collecting a wealth of information about the state of New Jersey

Conscientious Objector Wayne R. Ferren Jr., 2021-03-16 What would you do if you were drafted to fight in a war As a conscientious objector opposed to all wars Wayne R Ferren Jr had to answer that question during the Vietnam War He called on his religious and scientific backgrounds as well as his environmental activism to argue that he should be excluded from fighting in or supporting this war Following a successful defense of his claim Wayne served two years of alternative civilian service which influenced his professional and personal life for the next fifty years Decades after his service he was shocked to find his name on the Vietnam War Memorial which turned out to be that of another young man with a similar name born the same year Wayne was born That man died in 1968 when his plane was hit by artillery fire and crash landed at Khe Sanh Marine Combat Base He will forever remain a teenage father killed in a senseless war To this day the duality haunts the author and in this multifaceted memoir he looks back at a lifetime and how his background scientific training and transcendentalism have guided him on a path of conscientious objection service and conservation believing all things are sacred

Woodbridge Virginia B. Troeger, Robert James McEwen, 2002 Comprised of ten distinct communities Woodbridge Township New Jersey nevertheless has a unified identity with historic roots reaching back more than 330 years Originally populated by Native Americans the Dutch claimed the area in the early seventeenth century before the English established the religious political and educational heritage that Woodbridge boasts today In the 1800s the township flourished under the leadership of residents who provided strong social ties and entrepreneurs who developed the clay and brick companies as well as the once popular Boynton Beach resort in Sewaren Dedicated citizens continued their commitment to Woodbridge s progress and prosperity through the years Woodbridge New Jersey s Oldest Township takes readers on a trip through an ever changing community Vintage photographs maps and a lively narrative reveal the heroic actions of citizens such as Janet Pike Gage who raised the town s first liberty pole and Reverend Azel Roe the minister who defied the British during the Revolutionary War Readers accompany the town s growth through the rise and fall of the clay and brick industries that once defined the local economy from 1825 to the onset of the Great Depression Voted All America City in 1964 by the National Municipal League the community continues to uphold the legacy of the people who made it such a great place to live and work Woodbridge

New Jersey's Oldest Township is a memorable tribute to this tradition *City at the Water's Edge* Betsy McCully, 2007 Concrete floors and concrete walls buildings that pierce the sky taxicabs and subway corridors a steady din of noise These things along with a virtually unrivaled collection of museums galleries performance venues media outlets international corporations and stock exchanges make New York City not only the cultural and financial capital of the United States but one of the largest and most impressive urban conglomerations in the world With distinctions like these is it possible to imagine the city as any more than this *City at the Water's Edge* invites readers to do just that Betsy McCully a long time urban dweller argues that this city of lights is much more than a human made metropolis It has a rich natural history that is every bit as fascinating as the glitzy veneer that has been built atop it Through twenty years of nature exploration McCully has come to know New York as part of the Lower Hudson Bioregion a place of salt marshes and estuaries sand dunes and barrier islands glacially sculpted ridges and kettle holes rivers and streams woodlands and outwash plains Here she tells the story of New York that began before the first humans settled in the region twelve thousand years ago and long before immigrants ever arrived at Ellis Island The timeline that she recounts is one that extends backward half a billion years it plumbs the depths of Manhattan's geological history and forecasts a possible future of global warming with rising seas lapping at the base of the Empire State Building Counter to popular views that see the city as a marvel of human ingenuity diametrically opposed to nature this unique account shows how the region has served as an evolving habitat for a diversity of species including our own The author chronicles the growth of the city at the expense of the environment but leaves the reader with a vision of a future city as a human habitat that is brought into balance with nature

Hidden History of South Jersey Gordon Bond, 2013-07-09 South Jersey is perhaps best known for its beachside boardwalks glitzy Atlantic City hotels and blueberry farms but behind these iconic symbols are the overlooked tales that are unique to New Jersey While much of Harriet Tubman's life is well known her time in Cape May is usually overlooked by biographers Few know that the classic American drive in movie theaters were born in South Jersey Even the famous Wildwood with its distinctive Doo Wop architecture hides forgotten stories at the height of its popularity this shore town was hosting some of the country's first rock and roll acts Often overshadowed by its more urban northern counterpart South Jersey nonetheless has a hidden past In this collection author Gordon Bond uncovers the most intriguing of these tales

Beaches, Bays, and Barrens Eric G. Bolen, 2024-05-17 Biologist Eric G Bolen introduces readers to the natural wonders of the Jersey Shore taking them on a guided tour of its unique ecology and fascinating history You'll learn about everything from sand dunes to salt marshes from blueberry patches to cranberry bogs and from ship wrecks to shark attacks

Matawan and Aberdeen Helen Henderson, Matawan Historical Association, 2003-04-30 Established in the late seventeenth century by European settlers the small town agricultural region that became Matawan Borough and Aberdeen Township transformed from a colonial era shipping hub to a bustling center of commerce and manufacturing as well as a summer resort destination The residents

ongoing endeavors to preserve the area have fostered the transition into a cherished suburban bedroom community building toward the twenty first century

Terra Michael Novacek, 2025-10-16 A paleontologist awakens us to the extinction event that human activity is bringing about today The natural world as humans have always known it evolved close to 100 million years ago with the appearance of flowering plants and pollinating insects during the age of the dinosaurs Its tremendous history is now in danger of profound catastrophic disruption In Terra a brilliant synthesis of evolutionary biology paleontology and modern environmental science Michael Novacek shows how all three can help us understand and prevent what he and others call today s mass extinction event Humanity s use of land our consumption the pollution we create and our contributions to global warming are causing this crisis True the fossil record of hundreds of millions of years reveals that wild and bounteous nature has always evolved not quietly but thunderously as species arise flourish die off and are replaced by new species We learn from paleontology and archaeology that for 50 000 years human hunting mining and agriculture have changed many localities sometimes irrevocably But today Novacek insists our behavior endangers the entire global ecosystem And if we disregard through ignorance antipathy or apathy the theory of evolution that developed with our modern understanding of the Earth s past we not only impede enlightenment but threaten any practical strategy for our own survival The evolutionary future of the entire living planet depends on our understanding this
