Wild Awakening The Heart Of Mahamudra And Dzogchen:

Wild Awakening Dzogchen Ponlop, 2003-12-16 Mahamudra and Dzogchen are perhaps the most profound teachings within all of Tibetan Buddhism. The experience of Mahamudra or great symbol is an overwhelming sense of extraordinary clarity, totally open and nondualistic. Dzogchen or great perfection is the ultimate teaching according to the Nyingma tradition and also represents the pinnacle of spiritual development. These are the two paths that provide practitioners with the most skillful means to experience the fully awakened state and directly taste the reality of our mind and environment. And yet these concepts are notoriously difficult to grasp and challenging to explain. In *Wild Awakening*, Tibetan Buddhist master Dzogchen Ponlop Rinpoche presents these esoteric teachings in a style that reveals their surprising simplicity and great practical value, emphasizing that we can all experience our world more directly with responsibility, freedom, and confidence. With a straightforward approach and informal style, he presents these essential teachings in a way that even those very new to Tibetan Buddhism can understand.

Experimental Philosophy of Identity and the Self Kevin Tobia, 2022-07-28 Exploring issues ranging from the metaphysical to the moral and legal, a team of esteemed contributors bring together some of the most important and cutting-edge findings in experimental philosophy of the self to address longstanding philosophical questions about personal identity, such as: What makes us today the same person as our childhood and future selves? Can certain changes transform us into a different person? Do our everyday moral practices presuppose a false account of who we are? Chapters offer a survey of recent empirical work and foster dialogue between experimental and traditional philosophical approaches to identity, covering the moral self, dual character concepts, true self, transformative experience, and the identity conditions of collective entities. With novel experiments and thought-provoking applications to practical concerns including law, immigration, bioethics, and politics, this collection highlights the value and implications of empirical work on personal identity.

Newsom, 2025-04-01 Of all the human behaviors anthropologists consider perhaps the most conceptually challenging are those that cannot be directly observed This volume draws from rich ethnographic data to offer theoretical and methodological tools for mapping the intersections between two such behaviors dreaming and imagination Although Western perspectives tend to cast these as personal experiences contained within individual minds each contributor explores diverse cultural and historical contexts to demonstrate how these behaviours are always in some sense cultural and influenced by social others The cross cultural approach suggests theoretical flexibility and expands the study of imagination across multiple disciplines *Entrance to the Great Perfection*, 2010-02-16 Blending contemporary and traditional perspectives this groundbreaking work offers guidance on the profound foundational practices of the Great Perfection It contains classic commentaries by the renowned Tibetan masters Jigme Lingpa and Jamyang Khyentse Wangpo alongside a lively contemporary discussion by filmmaker author and spiritual teacher Dzongsar Jamyang Khyentse that discusses how to incorporate these ancient practices into the fast paced lifestyle of the Western world Also included are a lengthy introduction to the world of Tibetan Buddhism and its meditative practices as well as the long and short preliminary practice liturgies and numerous appendices on the nine yanas and other topics The ng ndro or preliminary practice is treasured in the Ancient School of Tibetan Buddhism as vital for effecting a profound inner transformation and as a foundation for the very highest teachings of the Great Perfection or Dzogchen In particular the Longchen Nyingtik ng ndro revealed by the great saint Jigme Lingpa following a series of visions in which he was blessed by the omniscient Longchen Rabjam and received the transmission of his wisdom mind has long been cherished by followers of all traditions on account of its power depth and poetic beauty **Steps to the Great Perfection** Jigme Lingpa, 2016-07-05 The mind training practices contained in the Dzogchen tradition of Tibetan Buddhism have never before been presented in the English language The main text translated here The Steps to Liberation will be of great interest to Western practitioners since its instructions are pithy and direct and experiential rather than scholarly The contemplations on core Buddhist principles like impermanence and karma intended for beginning meditators unfold as dramatic stories in which the meditator is to vividly imagine himself or herself as the main character who undergoes a sequence of experiences that result in transformative realizations They distill the most essential teachings of the Buddha into a practical system that can be easily implemented in a daily meditation practice At the same time they bring together the most foundational Buddhist teachings with the profound methods of the Vajrayana the esoteric teachings of Buddhist tantra This is the hallmark of Dzogchen mind training and what sets it apart from other mind training lineages **Lucid Dreaming** Ryan Hurd, Kelly
